

Department of Psychiatry

Bharati Vidyapeeth Medical College and Hospital

(Deemed University)

The Department of Psychiatry was established in the year 1992 and became postgraduate teaching establishment in 2006. At present the department is authorized to accept 3 MD Psychiatry candidates.

It is a tertiary care referral centre and includes inpatient unit, outpatient consulting rooms, an ECT room and an EEG room.

The inpatient unit is a 40 bedded unit including general wards and private rooms. The unit is manned round the clock by trained nursing staff. Acute management of violent, suicidal and severely psychiatrically ill patients with both pharmacological and nonpharmacological intervention is done on a regular basis.

Electroconvulsive (shock) therapy is also offered as part of the treatment as and when required.

The outpatient unit functions daily manned by Professors, Associate Professor, Lecturer and Clinical psychologist along with post graduate students of Psychiatry.

Treatment, both pharmacological and nonpharmacological (psychotherapeutic) is offered after detailed assessment and evaluation.

We treat all types of major and minor psychiatric disorders including schizophrenia, manic depression, depression, anxiety, sexual disorders. Substance abuse and dependence treatment including alcohol detoxification and deaddiction forms an important area of expertise. Neuropsychiatric disorders of old age like dementia, mild cognitive impairment are assessed and managed.

Psychological assessments and psychometric tests are routinely done in the department.

A team of psychiatrists work in liaison with the Developmental Paediatric unit in the Child Development and Guidance Clinic. The clinic offers services for children with hyperactivity, developmental delays, learning disabilities, speech language problems, enuresis, psychological problems in children and adolescents. Detailed assessment along with IQ/DQ (intelligence and developmental quotient), educational assessment is done and intervention including remedial education is carried out.

The department has an active consultation liaison with various departments like medicine, surgery, orthopaedics, obstetrics-gynaecology, dermatology, rheumatology etc.

Research into various areas of mental health disorders is an ongoing activity.
