Gynecology OPD

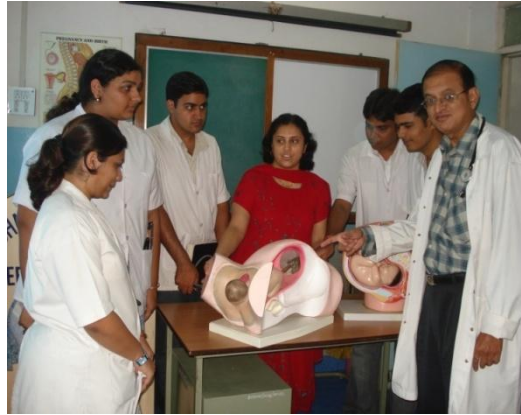

Prelabour Ward

Gynecology operation theatre

Both undergraduate and postgraduate (MCI recognized Diploma & Degree) courses are conducted.

There is adequate qualified teaching as well as nonteaching staff as per MCI rules. All the teaching –learning technologies are made use of, including the power point presentations, seminars, integrated teaching for UGs & PGs and group discussions with the use of teaching models.

Hands On Training for students– using models

Museum & Seminar Room

Regular formative and summative evaluation for the students is done, with student feedback.

Skill development programmes for postgraduates, apart from routine clinical performances, (diagnostic as well as operative) are encouraged with the help of models, mannequins & pelvitrainer.

Faulty as well as students participate in the activities conducted in the institution as well as inter collegiate quiz ,regional OBGY society, conferences ( local, regional, national, international),workshops, training courses, guest lectures ,& a satellite relay for FOGSI conferences in institution, for faculty development.

## Colposcopy Training

## Endoscopy Training

Community health programmes in the form of diagnostic, operative camps, health awareness – in maternal child health, family planning, adolescent health and sex education, RTI and menopause are organized regularly with the help of health talks and exhibitions.

2006 Ws on doppler Ultrasound- Dr. Narendra Malhotra

- A unique activity, a conference for postgraduate students is organized every 2yrs "PRAYAS" since year 2004, which is well appreciated at all levels.

Guest Lecture – "PRAYAS"

The research projects are self funded or in collaboration with pharmaceuticals and IRSHA (A research unit).
