The department is involved in animal as well as clinical research work involving collaborative interaction with different sister institutes as well as different departments of BVU Medical College. The department has state of the art equipment

required for psychomotor & cardiovascular animal research. Undergraduate students are also encouraged & guided for participating in research, including the ICMR STS research fellowships aimed at giving an orientation towards research to these students. This also helps them to strengthen their CV for future applications to postgraduate courses.

The department efficiently manages the Central Animal House Facility of the institution, which also caters to the requirements of some of the sister institutes. The Faculty is actively involved in the Animal & Clinical Ethical Committees as well. It also heads the Clinical Pharmacology Unit of the institute housed in the step down ICU of Bharati Hospital.

On the educational front, the department is well known for its disciplined, yet encouraging educational environment. It regularly holds co curricular activities like seminars & quiz. It has backed its students to win at zonal and state level quiz also. It boasts of distinctions at the UG University examinations. The faculty is also actively involved in the Medical Education Unit of the institute actively involved in training the teachers towards improvement of Teaching Learning activities as well as orientation programs for the Undergraduates and postgraduate students.

### **UG Student Seminar**

Many of the faculty are invited as guest lecturers for post graduate courses in other institutes as well as the Medical Education technology Department of Maharashtra University of Health Sciences.
