

Monitoring Checklist of Master Time Table- I MBBS: Batch 2021-22

1. Name and address of the college/ institute: **Bharati Vidyapeeth Deemed To Be University Medical College, Pune ,Katraj Dhakawadi Pune 43**
Name of RC/NC: **MUHS,Nasik**
2. Date of submission of checklist by Institutional Curriculum Committee to Member, NMC Task force
3. Date of submission of feedback for remedial by Member, NMC Task force to Curriculum Committee:
4. Date of re submission with final correction by Curriculum Committee to Member, NMC Task force:

Sr. no.	Item	To be filled in by Curriculum Committee	Remarks of Member, NMC Task force Y/N/Partial/Any specific
		Yes/ No	
01	Annual Academic & Foundation Course Time Table uploaded on website within stipulated time	Yes	
02	Are teaching hours for Anatomy, Physiology, Biochemistry, Community Medicine represented in the time table?	Yes	
03	Are teaching hours for AETCOM represented in the time table & spread as a longitudinal program over the year?	Yes	
04	Total teaching hours for each subject in Phase I calculated from the Time Table & mentioned separately	Yes	
05	Provision of total teaching hours for all the subjects in Phase I , as per NMC/MCI guidelines	Yes	
06	TL methods(lectures , small group teachings , DOAP etc) are mentioned in each slot for all subjects in the time table		
07	Provision of subject wise teaching hours for various teaching learning methods as per NMC/MCI guidelines	Yes	
08	Competency wise T/L activities reflected in subject wise slots	Yes	
09	Slots for non aligned topics	Yes	
10	Provision of AI topic slots in the time table	Yes	
11	Alignment & integration of topics evident in the time table	Yes	
12	Provision of separate slots for early clinical exposure in the time table	Yes	
13	Each early clinical exposure slot in the time table comprising of three consecutive hours	Yes ECE in clinical setting is conducted for 3 consecutive hours (Total 36 hrs).ECE basic science correlation is conducted throughout the year as shown in time table (Total 54 hrs).	
14	Distribution of total teaching hours for early clinical exposure as per NMC/MCI guidelines	Yes	

h

15	Provision of slots for sports & extracurricular activities	Yes These activities will be planned as per the central /state govt guidelines issued pertaining to COVID 19 pandemic situation time to time.	
16	Provision of slots for formative assessment and feedback sessions for the students	Yes	
17	Provision of subject wise slots for self directed learning activities	Yes	
18	Is the time table feasible and implementable?	Yes	
19	Any strong / unique/novel feature of the time table (by the Member , Expert Group)		
20	Specific remarks if any (by the Member, NMC Task force)

I MBBS Batch: 2021-2022 Block I: Time-Table (From 01-03-2022 to 17-05-2022)

Subject	Lecture Hours	Small Group Teaching/ Tutorial/ Integrated learning/ Practical(hours)	Self-Directed learning SDL assignment and task completion, living	Total (Hours)
Anatomy (A)	67	138	Anatomy -20, Physiology - 10,Biochemistry - 10 : Total 40 hrs	225
Physiology (P)	51	66		127
Biochemistry (B)	23	36		69
Early Clinical Exposure	ECE Basic Science correlation: 18 hrs (APB)	-----	-----	18
Community Medicine	8	16	3	27
Attitude Ethics and Communication Module (AETCOM)	-----	8	3	11
Sports and Extra Curricular Activities	Activities will be planned as per prevailing COVID- 19 pandemic situation 40 hours			40
Formative Assessment and Term Examinations	----	-----	-----	9
Total (Hours)				526

Block II: Time-Table (From 21-05-2022 to 16-08-2022)

Subject	Lecture Hours	Small Group Teaching/ Tutorial/ Integrated learning/	Self-Directed learning SDL assignment and	Total (Hours)
Anatomy (A)	76	118		194
Physiology (P)	54	129		183
Biochemistry (B)	26	64		90
Early Clinical Exposure	ECE Basic Science correlation: 18 hrs (APB)	From May 2022 till August 2022: clinical skills including authentic patient contact and an introduction to humanities in medicine: 36hrs		54
Community Medicine	9	12	4	25
Attitude Ethics and Communication Module (AETCOM)	----	7	2	9
Sports and Extra Curricular Activities	Students will participate in all intercollegiate and interuniversity events as per COVID 19 pandemic situation			
Formative Assessment and Term Examinations	----	-----	-----	37
Total (Hours)				592

Block III: Time-Table (From 27-08-2022 to 03-12-2022)

Subject	Lecture Hours	Small Group Teaching/ Tutorial/ Integrated learning/ Practical(hours)	Self-Directed learning SDL assignment and task completion, living experiences, reflection	Total (Hours)
Anatomy (A)	77	159	Anatomy -20, Physiology - 15, Biochemistry - 10 : Total 45 hours	256
Physiology (P)	55	115		185
Biochemistry (B)	31	50		91
Early Clinical Exposure	ECE Basic Science correlation: 18 hrs (APB)	-----	-----	18
Community Medicine	-----	-----	-----	
Attitude Ethics and Communication Module (AETCOM)	----	11	3	14
Sports and Extra Curricular Activities	Activities will be planned as per prevailing COVID- 19 pandemic situation			20 hours
Formative Assessment and Term Examinations	----	-----	-----	34
Total (Hours)				618

Phase I M.B.B.S.2021-22 Total Teaching Hours

Subject	Lecture Hours	Small Group Teaching/ Tutorial/ Integrated learning/ Practical(hours)	Self-Directed learning SDL assignment and task completion, living experiences, reflection	Total (Hours)
Anatomy (A)	220	415	40	675
Physiology (P)	160	310	25	495
Biochemistry (B)	80	150	20	250
Early Clinical Exposure	-----	-----	-----	90
Community Medicine	17	28	7	52
Attitude Ethics and Communication Module (AETCOM)	-----	26	8	34
Sports and Extra Curricular Activities	Activities will be planned as per prevailing COVID- 19 pandemic situation			60
Formative Assessment and Term Examinations	----	-----	-----	80
Total (Hours)				1736

TIME-TABLE FOR INTERNAL ASSESSMENT EXAMINATIONS OF
Phase I M.B.B.S. STUDENTS (BATCH - 2021-22)

BLOCK I INTERNAL ASSESSMENT (Only Theory):

Date	Day	Time	Subject	Marks
18.05.2022	Wednesday	10.00 am to 01.00 pm	Anatomy	100
19.05.2022	Thursday	10.00 am to 01.00 pm	Physiology	100
20.05.2022	Friday	10.00 am to 01.00 pm	Biochemistry	100

(Individual departments will put details of the Syllabus of Theory Examination)

BLOCK II INTERNAL ASSESSMENT (Theory+Practical):

Theory Examination :

Date	Day	Time	Subject	Marks
17.08.2022	Wednesday	10.00 am to 01.00 pm	Anatomy	100
18.08.2022	Thursday	10.00 am to 01.00 pm	Physiology	100
19.08.2022	Friday	10.00 am to 01.00 pm	Biochemistry	100
20.08.2022	Saturday	10.00 am to 12.00 pm	Community Medicine	50

Practical Examination will be from 22nd August To 26th August 2022.

Date	Day	ANATOMY (09.00 am onwards)	PHYSIOLOGY (09.00 am onwards)	BIOCHEMISTRY (09.00 am onwards)	Community Medicine (09.00 am onwards)
22.08.2022	Monday	01 To 30	31 To 60	61 To 90	121 To 150 + Repeaters
23.08.2022	Tuesday	121 To 150 + Repeaters	01 To 30	31 To 60	91 To 120

24.08.2022	Wednesday	91 To 120	121 To 150 + Repeaters	01 To 30	61 To 90
25.08.2022	Thursday	61 To 90	91 To 120	121 To 150 + Repeaters	31 To 60
26.08.2022	Friday	31 To 60	61 To 90	91 To 120	01 To 30

(Individual departments will put details of the Syllabus of Theory and Practical Examination)

BLOCK III/PRELIMINARY INTERNAL ASSESSMENT (Theory+Practical):

Date	Day	Time	Subject	Marks
05.12.2022	Monday	10.00 am to 01.00 pm	Anatomy - I	100
06.12.2022	Tuesday	10.00 am to 01.00 pm	Anatomy - II	100
07.12.2022	Wednesday	10.00 am to 01.00 pm	Physiology – I	100
08.12.2022	Thursday	10.00 am to 01.00 pm	Physiology – II	100
09.12.2022	Friday	10.00 am to 01.00 pm	Biochemistry – I	100
10.12.2022	Saturday	10.00 am to 01.00 pm	Biochemistry – II	100

Practical Examination-

Practical/Clinical exam including Viva (80 + 20)=100 marks

Date	Day	Anatomy (9.00 am onwards)	Physiology (9.00 am onwards)	Biochemistry (9.00 am onwards)
12.12.2022	Monday	01 To 30	31 To 60	61 To 90
13.12.2022	Tuesday	121 To 150	01 To 30	31 To 60
14.12.2022	Wednesday	91 To 120	121 To 150	01 To 30
15.12.2022	Thursday	61 To 90	91 To 120	121 To 150
16.12.2022	Friday	31 To 60	61 To 90	91 To 120

(Individual departments will put details of the Practical Examination)

Note: Syllabus and Paper wise Distribution will be same as Final University Examination

Remedial Internal Assessment/Additional Examination for students with poor internal assessment

Date and Day	Subject	Theory 100 Marks	Practical 100 Marks
22.12.2022, Thursday	Anatomy	10 am to 1 pm	2 to 4 pm
23.12.2022, Friday	Physiology	10 am to 1 pm	2 to 4 pm
24.12.2022, Saturday	Biochemistry	10 am to 1 pm	2 to 4 pm

Scheduled University Examination:

10/01/2023 to

25/01/2023

Remedial Teaching program for Repeaters and Detained Students : February 2023

Supplementary University Examination: Mid March 2023

Month	Topic	Competancy Number	Topic	Competancy Number	Topic	Competancy Number
March	Anatomical terminology, General features of bones & Joints , General features of Muscle, eneral features of skin and fascia, Epithelium histology, Connective tissue,Blood Vessels histology, Bone & Cartilage, Integumentary System, Introduction to embryology, Second week of development, 3rd to 8th week of development, prenatal Diagnosis,	AN1.1, AN1.2, AN2.1, AN2.2, AN2.3,AN26.6, AN2.3, AN65.1, AN65.2, AN2.5, AN2.6, AN4.3, AN4.4,AN66.1,AN66.2, AN2.4, AN76. 1, AN76.2, AN71.1, AN71.2, AN77.3, AN77.1, AN77.2, AN3.1, AN3.2, AN3.3, AN77.4, AN77.5, AN77.6, AN78.1, AN78.2, AN78.3, AN78.4, AN78.5, AN79.1, AN79.2, AN79.3, AN79.4, AN79.5, AN79.6, AN78.5, AN80.1, AN80.2,AN80.3, AN80.4,AN80.5,AN80.6, AN80.7	General Physiology, Nerve -Muscle	PY1.1 to PY1.9, PY3.1 to PY3.13	Basic Biochemistry, Carbohydrate Chemistry, Protein Chemistry	BI 1.1,BI3.1,BI 5.1,BI 5.2
April	Features of individual bones (Lower Limb) , Front & Medial side of thigh , Gluteal region & back of thigh , Hip Joint , Knee joint, Anterolateral compartment of leg & dorsum of foot, ack of Leg & Sole , General Features,	AN20.10,, AN15.1, AN15.2 AN15.3, AN20.4, AN15.1, AN15.4, AN17.1, AN17.2, AN17.3, AN16.3, AN16.1, AN16.2, AN16.4, AN16.5, AN16.6, AN48.4, AN18.2, AN18.5, AN18.6, AN18.7, AN19.3, AN20.3, AN20.5, AN19.5, AN19.6, AN19.7 ,AN20.1, AN 20.2,	Blood, CVS	PY2.1 to PY2.10, PY5.1 to PY5.3	Protein Chemsitry, Nucleic acid chemistry, Extracelluar matrix	BI 5.1,BI 5.2,BI 6.2,BI 9.1, BI 9.2,BI 9.3,

May	General features of the cardiovascular system, General Features of lymphatic system , Geatures of individual bones (Upper Limb) , Pectoral region , Axilla, Shoulder and Scapular region , Axilla, Shoulder and Scapular region , Forearm & hand , General Features, Joints, radiographs & surface marking , Joints, radiographs & surface marking, Glands & Lymphoid tissue	AN9.1, AN9.2,AN9.3,AN10.4,AN10.7`, AN10.1,10.2, AN10.3, AN10.5, AN10.6,AN10.13,AN11.4,AN29.2, AN13.4, AN10.12, AN10.12,AN11.3, AN11.5, AN11.6, AN12.1, AN12.3,AN12.4,AN12.9, AN13.4, AN12.5,AN12.7,AN12.13, AN13.1,AN13.2, AN6.1, AN6.2, AN6.3, AN70.2	CVS	PY5.4 to PY5.10	Biological oxidation, Enzymes, Hemoglobin chemistry	BI6.2, BI6.6,BI2.1 BI2.3 BI2.4 BI2.5 BI2.6 BI2.7,BI6.11,BI6.1 2
	Thoracic cage, eart & Pericardium , Mediastinum , Lungs & Trachea , Thorax , Sectional Anatomy	AN21.3,AN21.4, AN21.5 AN21.6, AN21.7, AN21.9, AN25.1,AN21.11, AN24.1, AN24.2, AN24.3, AN22.1, AN24.5, AN24.6, AN25.2, AN25.3,An25.4,AN25.5, AN25.4, AN22.3, AN22.4, AN22.5, AN25.3, AN25.4, AN25.5, AN23.2, AN23.7, AN23.1, AN23.4, AN23.6, AN47.14, AN52.5	CVS, RS	PY5.11, PY6.1 to PY6.3	Hemoglobin metabolism, Carbohydrate metabolism	BI6.13,BI6.14,BI6.15,BI3.2, BI3.3BI3.4,BI3.5,,BI3.6,BI3.7,BI3.8,BI3.9,BI3.10
II Block:						
Anatomy			Physiology		Biochemistry	
Month	Topic	Competancy Number	Topic	Competancy Number	Topic	Competancy Number
June	Skull osteology, Scalp , Face & parotid region , Posterior triangle of neck , Cranial cavity, Orbit , Anterior Triangle	AN27.1, AN27.2, AN4.1, AN4.2, AN72.1, AN28.1, AN28.2, AN28.3, AN28.4, AN28.6, AN28.7, AN 28.8, AN25.6, AN43.4, AN28.5, AN29.1, AN29.2, AN 29.3, AN29.4, AN32.1, AN 32.2, AN34.1, AN34.2 AN 35.3, AN35.4, AN 35.5, AN35.6, AN35.9, AN42.3,	RS, GIT	PY6.4 to PY6.7, PY4.1 to PY4.5	Carbohydrate metabolism, Lipid metabolism	BI3.2, BI3.3BI3.4,BI3.5,,BI3.6,BI3.7,BI3.8,BI3.9,BI3.10,BI4.2,BI4.3,BI4.4 ,BI4.5,BI4.6,BI4.7

July	Mubmandibular region ,Deep structures in the neck , Mouth, Pharynx & Palate , Cavity of Nose , Larynx	AN35.1, AN35.10, AN30.3, AN30.4, AN 30.5, AN35.2,AN35.8, AN43.4, AN28.9, AN28.10, AN 31.1, AN31.2, AN31.3, AN31.4, AN39.1, AN43.4, AN43.2, AN33.1,AN33.4, AN33.2, AN43.4, AN41.1, AN43.2, AN41.2, AN41.3, AN 33.3, AN33.5, AN36.1, AN36.2, AN 36.3, AN 36.4, AN36.5, AN 36.1, AN38.1, AN38.2, AN38.3	GIT, Excretion,	PY4.6 to PY4.9, PY7.1 to PY7.4	Lipid metabolism,Protein Metabolism,LFT,KFT	BI4.2,BI4.3,BI4.4 ,BI4.5,BI4.6,BI4.7, BI5.3 ,BI5.4 BI5.5,BI6.13,BI6.1 4,BI6.15,
August	Tongue ,Organs of hearing and equilibrium , Back Region , Eyeball , Head & neck Joints, Histology, Development, Radiography & Surface marking	AN39.1, AN39.2, AN37.1, AN37.2, AN37.3, AN40.2, AN40.4, AN40.5, AN40.1, AN40.3	Excretion, Acid-base & Water electrolyte balance,CNS, Special senses	PY7.5 to PY7.9, PY10.1 to PY10.4	Starvation & Interlinking, Acid-base & water electrolyte balance	BI6.1, BI6.7 BI6.8
III Block:						
Anatomy			Physiology		Biochemistry	
Month	Topic	Competancy Number	Topic	Competancy Number	Topic	Competancy Number
September	Meninges & CSF, Spinal Cord, Medulla Oblongata , Pons , Cerebellum, Midbrain, Cranial nerve nuclei & Cerebral hemispheres, Ventricular System, Histology & Embryology, Nervous tissue histology,	AN8.1,AN64.1, AN7.1, AN7.2, AN7.3, AN64.2, AN64.3, AN7.4, AN7.5, ,AN57.1, AN50.3, AN57.2, AN57.3, AN57.4, AN57.5, AN58.1, AN58.2, AN58.3, AN58.4, AN59.1, AN59.2, AN59.3, AN62.3, AN61.1, AN61.2, AN61.3, AN62.6, AN31.5, AN35.7, AN62.1, AN62.2, AN60.1, AN60.2, AN60.3, AN56.2, AN63.1, AN63.2, AN62.4, AN62.5, AN73.1, AN73.2,AN73.3 AN74.1,AN74.2,AN74.3, AN74.4, AN75.1, AN75.2, AN75.3, AN75.4, AN75.5	CNS	PY10.5 to 10.11	Minerals, Vitamins	BI6.9 BI6.10,BI6.5

October	Anterior abdominal wall, Male external genitalia, Abdominal cavity, Histology & Embryology	AN44.1, AN52.1, AN44.2, AN44.6, AN47.11, AN44.3, AN44.4, AN46.4, AN46.5, AN46.1, AN44.5, AN44.7, AN52.1, AN47.1, AN47.2, AN47.3, AN47.4, AN47.5, AN52.6, AN52.6, AN52.1, AN52.7, AN47.7, AN47.8, AN47.10, AN49.4,	CNS	PY10.12 to PY10.19	Vitamins, Nutrition,	BI6.5, BI 8.1, BI 8.2, BI 8.3, BI 8.4, BI 8.5, BI11.24
November	Posterior abdominal wall, Vertebral column, Sectional Anatomy, Histology & Embryology	AN45.1, AN54.2, AN45.3, AN47.6, AN50.1, AN 50.3, AN50.4	Endocrine	PY8.1 to 8.6	TFT, Adrenal function, , Free radicals, Oncology	BI6.13, BI6.14, BI6.16, BI 7.6, BI 7.7, BI 7.1, BI7.2, BI7.3, BI 7.4
	Pelvic wall and viscera, Perineum, Chromosomes, Patterns of Inheritance, Principle of Genetics, Chromosomal Aberrations & Clinical Genetics,	AN48.1, AN49.1, AN49.2, AN49.3, AN48.8, AN49.5, AN48.2, AN48.7, AN48.6, AN49.4,	Reproductive Physiology, Integrated Physiology	PY9.1 to PY9.12, PY11.1 to PY11.12	Genetics, Immunity	BI 10.1, BI 10.2, BI10.3, BI, 10.4, BI, 10.5

Phase 2: 1st Feb 2022 to 31st Dec 2022

Weekly Time Tables

Block 1: 1st Feb to 1st May 2022

Day	8.30-9.30	9.30 am - 12.30 pm	12.30-1.30	1.30-2.30	2.30-4.30
Mon	Patho	CLINICS	LUNCH	ObGy	A - Patho, B - Pharmac
Tue	FMT			Micro	B - Patho, A - Pharmac
Wed	Micro			Patho	A - Micro, B - CM
Thu	Pharmac			Medicine	WKly Rotation* - M/Ph/P
Fri	CM			Pharmac	B - Micro, A - CM
Sat	Surgery	9:30 - 10:30 Lecture	10:30 - 1:30 Small Gr A/B	Lunch	SDL (Patho,Pharmac)
		Alternate wks: Patho -Phar / Micro -Phar			

Block 2: 9th May to 14th Aug 2022

Day	8.30-9.30	9.30 am - 12.30 pm	12.30-1.30	1.30-2.30	2.30-4.30
Mon	Patho	CLINICS	LUNCH	ObGy	A - Patho, B - Pharmac
Tue	FMT			Micro	B - Patho, A - Pharmac
Wed	Micro			Patho	A - Micro, B - CM/FMT(2 July-14 Aug)
Thu	Pharmac			Medicine	WKly Rotation* - M/Ph/P
Fri	CM			Pharmac	B - Micro, A - CM/FMT(2 July-14 Aug)
Sat	Surgery	9:30 - 10:30 Lecture	10:30 - 1:30 Small Gr A/B	Lunch	SDL(Pharmac, Micro, CM, FMT)
		Alternate Wks: Patho -Phar / Micro -FMT			

Block 3: 29th Aug. to 6 Nov. 2022

Day	8.30-9.30	9.30 am - 12.30 pm	12.30-1.30	1.30-2.30	2.30-4.30
Mon	Patho	CLINICS	LUNCH	Pharmac	A - Patho, B - Pharmac
Tue	FMT			Micro	B - Patho, A - Pharmac
Wed	Micro			Patho	A - Micro, B - Pa/Ph
Thu	Pharmac			Micro	WKly rotation * - M/Ph/P
Fri	Patho			Pharmac	B - Micro, A - Pa/Ph
Sat	Patho/ Pharmac/ Micro Rotation	9:30 - 10:30 Lecture	10:30 - 1:30 Small Gr A/B	Lunch	Sports
		Alternate Wks: Patho- Phar/ Micro- Patho			

* Whole Batch

Batches for Small Group Teaching: MON, TUE, WED, FRI, SATURDAYs:

Batch A: 1 to 75 (A1 - 1 to 25, A2 - 26 to 50, A3 - 51 to 75);

Batch B: 76 to 150 (B1 - 76 to 100, B2 - 101 to 125, B3 - 126 to 150)

Batches for Small Group Teaching: THURSDAY: 2.30-4.30pm

Batch 1: 1 to 50 (1a: 1 - 25, 1b: 26 - 50); Batch 2: 51 to 100 (2a: 51 - 75, 2b: 76 - 100);

Batch 3: 101 to 150 (3a: 101 - 125, 3b: 126 - 150);

Small Group Activities: Skills training, AETCOM, Practicals, Tutorials, Integration, Seminars, Quiz

Internal Assessment:

Block 1: 5 subjects, Theory: 3rd May to 7th May 2022

Block 2: 5 subjects, Theory: 16th to 20 Aug 2022, Pract: 22nd Aug - 27th Aug 2022

Block 3: Prelims: 3 subjects, Theory: 7th to 12 th Nov 2022, Pract: 14th to 19th Nov 2022

Remedial Exam : 23,24,25 November 2022

TIME-TABLE FOR EXAMINATIONS OF Phase II M.B.B.S Internal Assessment Examination (Admission BATCH - 2020)

Block 1: First Internal Assessment (Only Theory, 5 subjects):

Date	Day	Time	Subject	Marks
03-05-2022	Tuesday	9.30 am - 12.30 pm	Pharmacology	100
04-05-2022	Wednesday	9.30 am - 12.30 pm	Pathology	100
05-05-2022	Thursday	9.30 am - 12.30 pm	Microbiology	100
06-05-2022	Friday	9.30 am - 12.30 pm	Forensic Medicine & Toxicology	100
07-05-2022	Saturday	9.30 am - 12.30 pm	Community Medicine	100

Note: (1) Attendance is compulsory for all the examinations.

(2) Scores of all these examinations contribute towards internal assessment

(3) Syllabus for the examinations will be declared by respective departments.

(4) Results of examination will be displayed within a week of the examination and students will be given feedback on the performance.

DEPARTMENT OF MEDICINE
Phase II MBBS Batch (CBME)

Sr.No	Topic	Competency	Content	Integration
1	Basics of Nutrition	IM 23.1, 23.5	<ol style="list-style-type: none"> 1. Physiology of Nutrition 2. Regulation of energy balance 3. Energy yielding nutrients (macronutrients i.e. proteins, carbohydrates, fats, water) 4. Overview of above Essential nutrient requirements. 5. Clinical assessment & investigations of nutritional status, anthropometric measurements (by Indian Standards /ICMR criteria). 6. Balanced Diet 	
2	Water Soluble vitamins (WSV)	IM 23.3	<ol style="list-style-type: none"> 1. Major Types of water soluble vitamins – Know Recommended Daily Allowance of WSV 2. Subtypes of vitamin B complex especially B1, B6, B12, Folic Acid 3. Clinical features of deficiency of each vitamin especially Beri-beri Pellagra, B12 	
3	Fat Soluble vitamins. (FSV)	IM 23.3	<ol style="list-style-type: none"> 1. To know 4 different types of fat soluble vitamins. 2. To know the sources of each of A, D, E, K vitamins- Know Recommended Daily Allowance of FSV 3. To know the deficiency symptoms, treatment of each of the 4 fat soluble vitamins. 	
4	Enteral & Parenteral Nutrition	IM 23.4	<ol style="list-style-type: none"> 1. Indications for specialized nutritional support 2. Daily fluid requirement 3. Daily energy requirement 4. Daily Protein, fat, carbohydrate requirement 5. Daily Minerals & Vitamin requirement 6. Parenteral nutrition techniques and patient monitoring. 7. Complication of parenteral nutrition (Mechanical, Metabolic Infections) 8. Enteral nutrition-Tube placement and patient monitoring & Complications

5	Obesity & Metabolic Syndrome	IM 14.1 14.2 14.3, 14.4, 14.5, 14.6,14.7 14.8,14.9,1 4.10,14.11, 14.12,14.13 ,14.14	1. Etiology and pathogenesis. 2. Assessment & Quantification of Obesity 3. Obesity Syndromes -Mention Names only 4. Complications 5. Management - Lifestyle / Diet therapy/ Drugs 6 .Metabolic Syndrome – D/D & management	
6	Malnutrition in Adults	IM 23.1,23.2	1.Protein Energy Malnutrition (PEM) -2 major types –Marasmus & kwashiorkor. 2.Macronutrients & Micronutrient deficiency. 3.Nutritional Assessment by history, Physical exam, anthropometry, laboratory studies. 4.Management of Malnutrition especially PEM	
7	Malaria	IM 4.6,4.23,4. 26,4.22, 4.15, 4.25, 4.24	1.Definition/Epidemiology 2.Types of plasmodia 3.Life cycle/clinical features. 4.Complications-cerebral malaria, blackwater fever, algid malaria syndrome,	Pathology /Community Medicine / Microbiology
8	Enteric Fever	IM 4.3	1.Etiopathogenesis of Enteric Fever like salmonella typhi, paratyphi and faeco-oral route 2.Clinical features. 3.Diagnosis – Different investigations to send in different weeks like Blood Culture, Widal test, Stool and urine culture. 4.Value of Widal test 5.Complications –gastrointestinal haemorrhage, perforation, encephalopathy, carrier state) 6.Traditional and recent treatment options.	
9	Dengue fever	IM 4.3	1. Know about dengue virus. 2. Describe clinical spectrum and laboratory tests of Dengue fever 3. Describe dengue hemorrhagic fever 4. Know about complications of dengue fever 5. Discuss management of dengue fever and dengue hemorrhagic shock.	
10	Infective Diarrhoeas including Cholera	IM 16.1,16.2,1 6.3,16.4,16 .6,16.7,16. 8,16.10,16. 11,16.12,1 6.14	1. Etiopathogenesis, define acute and chronic Diarrhoea. 2. Types - Infectious, non-infectious, 3. Mechanisms including secretory /invasive types 4. Laboratory evaluation and diagnosis 5. Complications of diarrhoea 6. Management	Microbiology

11	Amoebiasis and Giardiasis	IM 16.13	<ol style="list-style-type: none"> 1 Etiopathogenesis 2 Life cycle and transmission 3 Clinical features- Intestinal and extraintestinal, complications. 4 Diagnosis 5 Treatment 	
12	Diphtheria, Tetanus & Gas Gangrene	IM25.1, 25.2, 25.3	<ol style="list-style-type: none"> 1. Etiopathogenesis of tetanus. 2. Clinical features of tetanus. 3. Complications of tetanus. 4. Special types of tetanus. 5. Treatment and prevention of tetanus. 6. Etiological Agent of gas gangrene– C. perfringens , C. septicum 7. Pathogenesis 8. Clinical Manifestation 9. Severity features & complication 10. Treatment and prevention of gas gangrene. 	
13	Leptospirosis	IM25.1, IM25.2, IM25.3	<ol style="list-style-type: none"> 1. Etiopathogenesis of Leptospirosis. 2. Clinical features of Leptospirosis 3. Severity features & complication 4. Treatment and prevention 	
14	Exam on above topics		Short Answer Question /Multiple Choice Question type (Duration 1hour)	
15	Rickettsial Diseases		<ol style="list-style-type: none"> 1. Etiopathogenesis of rickettsial fever 2. Vectors associated with transmission of rickettsial fever 3. Explain RMSF (Rocky Mountain Spotted Fever), Scrub typhus, Murine typhus and their mode of transmission and their signs and symptoms. 4. Evaluation of patient of suspected rickettsial fever and investigations for diagnosis- indirect immunofluorescence and PCR., importance and interpretation of Weil Felix test 5. Treatment of rickettsia- doxycycline , tetracycline and chloramphenicol. 	
16	HIV Part 1	IM6.3, IM6.7, IM6.9	<ol style="list-style-type: none"> 1. Epidemiology & Etiopathogenesis of HIV infection 2. Transmission of HIV infection- Sexual, Parenteral, Vertical 3. Diagnosis OF HIV- Tridot, ELISA, Western Blot, p24 Antigen assay 4. Initial Evaluation of HIV patient- general physical examination and investigations CD4 count CHEST X RAY, viral load, viral resistance test etc. 	Pathology

17	HIV Part 2	IM6.1, IM6.2, IM6.4, IM6.5, IM6.6, IM6.10, IM6.16, IM6.17, IM6.18	<ol style="list-style-type: none"> 1. Complication of HIV infection and discuss opportunistic infections and malignancies. 2. What is AIDS and AIDS defining conditions. 3. Treatment of HIV patient- discuss HAART and treatment complications. 4. Prophylaxis from HIV infections 	Pharmacology
18	Pyrexia of Unknown Origin PUO	IM4.8, IM4.4, IM4.5, IM4.9, IM4.11, IM4.12	<ol style="list-style-type: none"> 1. To know the definition & criteria of PUO 2. Know about types of PUO 3. Etiopathogenesis 4. To understand (PDC's) potentially diagnostic clues through proper history taking, examination & investigations about possible etiology. 5. To discuss different diagnostic tests which may be needed to arrive at diagnosis. 6. Management of PUO- supportive Rx, cooling measures, antipyretics and specific treatment as per cause. 	
19	Herpes Simplex, Zoster and Varicella (Chickenpox)		<p>At the end of lecture student should be able to know:</p> <p style="text-align: center;">Similarity between the herpes zoster and chicken pox i.e. reactivation of varicella virus .</p> <ol style="list-style-type: none"> 1. To know the causative agent of the herpes zoster - DNA virus 2. To know the pathology of infection - virus remains dormant in dorsal root or other sensory ganglia to activate later . 3. To know the most common organ systems involved : CNS, optical system , ramsay hunt syndrome , auditory system. 4. To know the most common risk factors: <p style="text-align: center;">immuno-compromised states e.g. HIV</p>	

			<ol style="list-style-type: none"> 5. To know different clinical phases of illness :i.e. pre-eruptive, acute eruptive, chronic phase 6. To arrive at the diagnosis using clinical and laboratory parameters : like painful skin lesions and direct fluorescent antibody testing (DFA), PCR assay. 7. To know the treatment of the infection : symptomatic and specific , which depends upon host's immune status 	
20	COVID 19		<ol style="list-style-type: none"> 1. Viral Structure, Etiopathogenesis, Variants and Transmission. 2. Clinical features, Categorization 3. Complications including thrombophilia 4. Management & Treatment- drugs approved till date. 5. Prevention, Immunization & Isolation- Different types of vaccines approved till date. 	
21	Adult Immunization		<p>Adult Immunization in normal adults and in special circumstances like immunocompromised and immunosuppressed states like Chronic Kidney disease on Haemo-dialysis, Post splenectomy, Malignancies, Chemotherapy, Post organ transplant, etc.</p> <p>To cover common vaccines like:</p> <ul style="list-style-type: none"> • Influenza • Pneumococcal • Hepatitis B • H. Influenza 	
22	Rabies	IM 25.1, IM 25.2, IM 25.3	<ol style="list-style-type: none"> 1. Etiopathogenesis - Viral structure, CNS involvement 2. Clinical Features 3. Complications 4. Management – Treatment 5. Prevention – Pre & Post Exposure Prophylaxes 6. Government Guidelines 	
23	Common Fungal Infections	IM 4.4, IM 4.5,	Etiopathogenesis, Clinical Features and Management, including profiles of anti-	

		IM 4.8, IM 4.9, IM 4.11, IM 4.12	<p>fungal agents, of common fungal Infections like :</p> <ul style="list-style-type: none"> • Candidiasis • Aspergillosis • Mucormycosis • Histoplasmosis • Cryptococcosis • Pneumocystis Pneumonia (PCP) • Tinea Cruris, Corporis and Versicolor. 	
24	Chikungunya	IM 4.3	<ol style="list-style-type: none"> 1. Etiopathogenesis- Viral Structure, Mosquito Vector transmission 2. Clinical Features, 3. Complications including Post chikungunya Arthritis 4. Management – Investigations & Treatment 	
25	Theory Exam on above topics		Short Answer Question /Multiple Choice Question type (Duration 1hour)	

BHARATI VIDYAPEETH DEEMED UNIVERSITY
MEDICAL COLLEGE, PUNE
DEPARTMENT OF MEDICINE
II MBBS Batch (CBME)
Practical Schedule

Days Allotted: 4 weeks (60 hours) 3hrs/day from Mon-Fri	Topics to be covered	Competency number	Hours required	T-L method
Mon	1. History taking & developing rapport with the patient -1	IM 4.9	3 (2+1)	Bedside Clinic + Clinical Clerkship
Tue	2. History taking- 2	IM 4.9	3 (2+1)	Bedside Clinic + Clinical Clerkship
Wed	3. General Examination -1 (Pulse ,B.P)	IM 8.10,8.19,1.11 1.12,1.13	3 (2+1)	Bedside Clinic + Clinical Clerkship
Thurs	4. General Examination -2 (R.R, Temp, JVP)	IM1.11,1.14	3 (2+1)	Bedside Clinic + Clinical Clerkship
Fri	5. Intramuscular (I.M) Injection – whole batch	IM 1.30 Certifiable Procedural skill	3	Skill Lab
Mon	6. General Examination -3 (Pallor, Icterus, Cyanosis ,Clubbing)	IM 9.4,5.10	3 (2+1)	Bedside Clinic + Clinical Clerkship
Tue	7. General Examination -4 (Edema, Lymphadenopathy)	IM 10.13,4.10, 9.14	3 (2+1)	Bedside Clinic + Clinical Clerkship
Wed	8. General Examination -5 (Mucosa, Skin, Hand & feet, Face)	IM 7.12,4.10	3 (2+1)	Bedside Clinic + Clinical Clerkship
Thurs	9. Per Abdomen Symptomatology & examination-1	IM 5.10,4.10,16.5 ,25.5,15.5,5.0	3 (2+1)	Bedside Clinic + Clinical Clerkship
Fri	10. Subcutaneous (S.C) and Intradermal (I.D) Injection – whole batch	Certifiable Procedural skill	3	Skill Lab

Mon	11. Per Abdomen Symptomatology & examination-2	IM 4.10, 5.0,5.10, 15.5,16.5,25.5	3 (2+1)	Bedside Clinic + Clinical Clerkship
Tue	12. Per Abdomen – Case presentation	IM 5.0, 5.9,5.10,5.11, 4.10,15.5,16.5 ,25.5	3 (2+1)	Bedside Clinic + Clinical Clerkship
Wed	13. Respiratory System symptomatology & examination	IM 3.4,3.5	3 (2+1)	Bedside Clinic + Clinical Clerkship
Thurs	14. Respiratory System- Case Presentation	IM 3.4,3.5,3.6	3 (2+1)	Bedside Clinic + Clinical Clerkship
Fri	15. Intravenous (I.V) Injection & Venipuncture- whole batch	Certifiable Procedural skill	3	Skill Lab
Mon	16. Cardio Vascular System symptomatology & examination -1	IM 1.10, 1.29 2.6, 2.7	3 (2+1)	Bedside Clinic + Clinical Clerkship
Tue	17. Cardio Vascular System - symptomatology & examination -2	IM 1.10, 1.29 2.6, 2.7	3 (2+1)	Bedside Clinic + Clinical Clerkship
Wed	18. Cardio Vascular System - Case Presentation -3	IM 1.10, 1.11,1.29 2.6, 2.7	3 (2+1)	Bedside Clinic + Clinical Clerkship
Thur	19. Ward Leaving Exam		3	Theory + Practical
Fri	20. I.V Infusion and rate calculation- whole batch	Certifiable Procedural skill	3	Skill Lab

Student will apply their knowledge during their clinical posting.

Student will enter the 'case record'/skill competency in his/her journal &/Or logbook time to time during clinical posting.

Batch will be divided in groups of three & each group will be allotted three beds. Students are supposed to daily interact with the patients on the bed number allotted to them from their admission till their discharge as a part of clinical clerkship

Note:-

The approximate distribution for bedside teaching will be as follows-

30 Minutes- History taking & presentation

1 Hour- Physical examination ,Investigation & Management (Wherever applicable)

30 Minutes - Clinical case discussion on various topics related to the system being taken

1 Hour- Interaction with the patients allotted to students bed wise.

Bharati Vidyapeeth Deemed To Be University Medical College Pune

MBBS-Phase II

Block I and Block II

DEPARTMENT OF SURGERY

Lecture Schedule

Lecture no.	Topic	Content	Competency	Integration
1	Introduction			
2	Wound healing and wound care	Describe normal wound healing and factors affecting healing. Types and management of wounds.	SU5.1 SU5.3	Pathology
3	Metabolic response to injury	Describe Basic concepts of homeostasis, enumerate the metabolic changes in injury and their mediators. Describe the factors that affect the metabolic response to injury.	SU1.1 SU1.2	Physiology
4	Metabolic response to injury	Describe basic concepts of perioperative care. Keloid, hypertrophic scar.	SU1.3	
5	Shock - I	Describe Pathophysiology of shock, types of shock & principles of resuscitation including fluid replacement and monitoring.	SU2.1	Physiology
6	Shock - II	Clinical features and management, definition, trauma, polytrauma, triage	SU2.2	
7	Shock - III	Describe the clinical features of shock and its appropriate treatment.	SU2.2	
8	Trauma - I	Describe the Principles in management of mass casualties. General ABCD approach to trauma.	SU17.3	
9	Trauma - II	Describe the clinical features of soft tissue injuries. Chose appropriate investigations and discuss the principles of management. Principles of management of crush injury, blast injuries	SU17.7	
10	Nutrition and fluid therapy - I	Enumerate the causes and consequences of malnutrition in the surgical patient	SU12.1	Physiology
11	Nutrition and fluid therapy - II	Describe and discuss the methods of estimation and replacement of the fluid and electrolyte requirements in the surgical patient. Discuss the nutritional requirements of surgical patients, the methods of	SU12.2 SU12.3	Biochemistry

		providing nutritional support and their complications		
12	Investigation of surgical patient	Choose appropriate biochemical, microbiological, pathological, imaging investigations and interpret the investigative data in a surgical patient.	SU9.1	
13	Pre, intra and post-operative management.	Describe the principles of perioperative management of common surgical procedures	SU10.1	
14	Burns - I	Describe Pathophysiology of Burns. Describe Clinical features, Diagnose type and extent of burns.	SU4.1 SU4.2	
15	Burns - II	Management of burns Discuss the Medicolegal aspects in burn injuries	SU4.2 SU4.3	
16	Skin and subcutaneous tissue (skin infection)	Describe the pathogenesis, clinical features and management of various cutaneous and subcutaneous infections. Acute : Furuncle, carbuncle, erysipelas, gas gangrene, necrotizing fasciitis Chronic: T.B. leprosy, Actinomycosis	SU18.1	
17	Skin and subcutaneous tissue (Skin tumors)	Classify skin tumors Differentiate different skin tumors and discuss their management.	SU18.2	
18	Blood transfusion	Describe the Indications and appropriate use of blood and blood products and complications of blood transfusion. Blood group, blood components, massive transfusion.	SU3.1	
19	Lymphatic system	Describe pathophysiology, clinical features, investigations and principles of management of Lymph edema, lymphangitis and Lymphomas	SU27.7	
20	Arterial system	Describe the etiopathogenesis, clinical features, investigations and principles of treatment of occlusive arterial disease.	SU27.1	
21	Arterial system	Describe the types of gangrene and principles of amputation	SU27.4	
22	Venous system	Describe the applied anatomy of venous system of lower limb. Describe pathophysiology, clinical features, Investigations and principles of management of Varicose veins	SU27.5 SU27.6	

23	Venous system	Describe pathophysiology, clinical features, Investigations and principles of management of DVT	SU27.6	
24	Hernia	Inguinal hernia, femoral hernia, definition, describe pathophysiology, clinical features, Investigations and principles of management	SU28.1	
25	Hernia	Anatomy of anterior abdominal wall. Describe pathophysiology, clinical features, Investigations and principles of management of Ventral hernias, incisional hernia	SU28.1

Block I and Block II and block III

DEPARTMENT OF SURGERY

Clinical Posting Schedule

(Total weeks: 4; 20 days x 3 hours per day = 60 hours)

Day of posting	Topic/s	Competency	Hours	Teaching learning method: bedside clinic/ Skills lab/ Clinical clerkship
1	History taking: Scheme of case taking, Demonstration of taking history of patient relevant to the surgical patient		3	Bedside clinics
2	Symptomology in surgical patient and general physical examination		3	Bedsides Clinics
3	Techniques of asepsis: Hand washing, universal Precautions, wearing of sterile gloves	SU14.1, SU 14.4	3	Clinical Skills
4	Swelling I: Symptomatology, history taking, origin duration and progress, examination	SU 18.3	3	Bedside Clinics, Clinical Clerkship
5	Examination of swelling III: discussion of investigation and treatment plan	SU 18.3	3	Bedside Clinics Clinical Clerkship
6	Case presentation: Common swelling	SU18.3	3	Clinical Clerkship
7	Ulcer I: History taking, origin duration and progress	SU 5.2, SU 5.3	3	Bedside Clinics Clinical Clerkship
8	Ulcer II Examination: Parts of Ulcer, Inspection, palpation	SU 5.2, SU 5.3	3	Bedside Clinics Clinical Clerkship
9	Case presentation: diabetic foot ulcer		3	Bedside clinic
10	Dressing Trolley: Arrangement of trolley, common solution, ointments, instruments, dressing materials, emergency trays		3	Clinical Skills
11	Hernia I: symptomatology, history taking, examination	SU28.2	3	Bedside Clinic Clinical Clerkship

12	Hernia II: discussion and treatment plan	SU28.2	3	Bedside Clinics Clinical Clerkship
13	Case presentation: inguinal hernia		3	Bedside Clinic
14	Case presentation: ventral hernia		3	Bedside Clinic
15	Basic wound management: First aid:		3	Clinical Skills
16	Scrotal swelling: symptomatology, history taking, inspection, palpation, fluctuation, transillumination	SU30.4, SU30.5	3	Bedside Clinics Clinical Clerkship
17	Case presentation: Hydrocele		3	Bedside Clinic
18	Case presentation: Varicocele		3	Bedside Clinic
19	Bandaging		3	Clinical Skills
20	End of Posting Examination			

**Bharati Vidyapeeth Deemed To Be University Medical
College Pune
MBBS-Phase II
DEPARTMENT OF OBSTETRICS & GYNECOLOGY
Lectures Schedule**

Lecture no.	Topic	Content	Competency	Integration
1	Anatomy of the female Reproductive tract [Basic Anatomy & Embryology]	Anatomy of Female Reproductive system, Applied Anatomy & Relationships [Uterus]	OG2.1	Human Anatomy
2	Anatomy of the female Reproductive tract [Basic Anatomy & Embryology]	Anatomy of Female Reproductive system, Applied Anatomy & Relationships [Fallopian tubes, ovary, perineum & Vagina]	OG2.1	Human Anatomy
3	Physiology of Conception	Physiology of Menstruation	OG3.1	Physiology
4	Physiology of Conception	Physiology of Ovulation, Development of Follicle & Gametogenesis	OG3.1	Physiology
5	Physiology of Conception	Physiology of Fertilization & Implantation	OG3.1	Physiology
6	Development of the fetus and placenta	Basic embryology of the fetus and factors influencing fetal growth and development	OG4.1	Human Anatomy
7	Development of the fetus and placenta	Development of Placenta and Placental functions	OG4.1	Human Anatomy
8	Development of the fetus and placenta	Fetal Circulation & Teratogenesis	OG4.1	Human Anatomy
9	Development of the fetus and placenta	Formation of Amniotic Fluid & Applied Importance	OG4.1	Human Anatomy
10	Diagnosis of Pregnancy	Diagnosis of Pregnancy and Differential Diagnosis of Pregnancy	OG6.1	
11	Maternal Changes in Pregnancy	Maternal Adaptations to Pregnancy I [Genital Tract, CVS, RS]	OG7.1	
12	Maternal Changes in Pregnancy	Maternal Adaptations to Pregnancy II [Hemat, Renal, GIT]	OG7.1	
13	Antenatal Care	Antenatal Care: Objectives, Assessment of Gestational Age.	OG8.1	
14	Antenatal Care	Antenatal Care: History, Obstetrics History, Screening of High Risk Pregnancy	OG8.1	

15	Antenatal Care	Antenatal Care: Basic Investigations and Medications	OG8.1	
16	Labor & Maternal Pelvis	Physiology of Normal Labor, Stages of Labor, Overview of Mechanism of Labor	OG13.1	
17	Labor & Maternal Pelvis	Maternal Pelvis: Types, Diameters and Applied Importance	OG14.1	
18	Lactation & Puerperium	Physiology of Lactation and Applied Importance	OG17.1	
19	Lactation & Puerperium	Physiology of Puerperium and Applied Importance	OG19.1	
20	Vaginal Discharge	Physiology of Vaginal Discharge and Clinical Features and Characteristics of Different Vaginal Discharges	OG22.1	
21	Vaginal Discharge	Common Vaginal Discharges special emphasis on Candida, T. Vaginalis, Bacterial Vaginosis: Treatment Options, Recurrence, Syndromic Approach	OG22.2	
22	Normal Puberty	Physiology of puberty, features of abnormal puberty	OG23.1	
23	Complications of early pregnancy	Abortions I [Definition, aetiology, types and management of first trimester abortions]	OG9.1	
24	Complications of early pregnancy	Abortions II [Second trimester abortion and In-competent Os]	OG9.1	
25	Complications of early pregnancy	Acute Abdomen in Early Pregnancy with focus on ectopic pregnancy [Aetiology, Clinical features, Differential Diagnosis and Management]	OG9.3

DEPARTMENT OF OBSTETRICS & GYNECOLOGY

Clinical Posting Schedule:

(Total weeks 4 ; 20 days x 3hours per day =
 60 hours)

Day of posting	Topic/s	Competency	Hours	Teaching learning method: bedside clinic/ Skills lab/ Clinical clerkship
1	Introduction to ObGy clinics: Orientation, Number of Clinical Postings, Unit pattern, Learning Objectives, Faculty & Resident role in teaching, Introduction to Skills Lab, SOP for clinical postings including dress code, essential instruments and apron etc, term end examination, attendance, journal writing, internal assessment	OG35.1	3	Bedside Clinic
2	History taking in Obs and Gynec including detailed Obstetric History & General Examination	OG35.1	3	Bed Side Clinics
3	Obstetric examination, Lie, Presentation, Attitude, Leopold Manoeuvres [excluding internal examination]	OG35.1	3	Skills lab
4	Determine gestational age, Obstetrics Formula and EDD. [Give verbal exercise/cases and ask students to derive the Obs Formula and EDD]. History writing with reference to the journal case template. Write a referral note to secondary or tertiary centres/physician with necessary details	OG35.5 OG 35.8 OG 35.10	3	Bedside Clinic / DOAP
5	Internal examination (Per speculum and per vaginal examination)	OG35.1	3	Skills lab
6	Clinical Diagnosis of Pregnancy	OG6.1	3	Bedside Clinic

7	Objectives of Antenatal Care Including ANC visits, immunization and Antenatal Investigations with discussion about importance and rationale for each ANC investigations	OG8.1	3	bedside clinic
8	Screening of High Risk Mothers. Demonstration of correct use of Universal Precautions for self-protection against HIV, Hepatitis, COVID-19 and counsel patients regarding the same. Importance of Pre-test & post-test counseling in HIV, Confidentiality of the reports and legal implications	OG8.1 OG 35.11	3	Bedside Clinic/ Clinical clerkship
9	Clinical Monitoring of Maternal and Fetal Well-being[DFMC, USG, BPP, NST, BP, Weight Gain]	OG8.4	3	bedside clinic
10	Diagnosis of Labour, Definition of Normal Labour and Stages of Labour	OG13.1	3	bedside clinic
11	Mechanism of normal labour, Maternal Pelvis and Fetal Skull	OG14.2	3	Skills lab
12	Active Management of Third stage of Labor, Predisposing factors for PPH, Overview of Oxytocics[Oxytocin, Carboprost & Methyl Ergometrine]		3	Bedside Clinic
13	Pre-Term Labor, Post-Dated, Post-Term Pregnancy and Clinical implications. Overview of Induction of labor	OG13.2	3	Clinical clerkship
14	Puerperium and Changes, Lochia, Clinical Examination of PNC mother	OG19.1	3	bedside clinic
15	Counselling and Follow up of Post-Delivery Patient including Contraceptive counselling, Cafeteria Approach to Contraception. Overview of PPIUCD, DMPA	OG19.2	3	Bedside Clinic/Clinical clerkship
16	Episiotomy Types & Suturing	OG13.1	3	Skills lab

17	Abortions [Definition, etiology, types and management]	OG9.1	3	Bedside Clinic / Clinical Clerkship
18	Legal Aspects of MTP Act & Law and PC-PNDT act, Case Scenarios discussion and importance of Documentation, Consent	OG20.3	3	Bedside Clinic / Clinical Clerkship
19	Definition of Infertility, Common Causes and Pathological co-relation	OG28.1	3	Bedside Clinic/ Clinical clerkship
20	Diagnosis of Anemia in Pregnancy, Physiological Anemia in pregnancy, Prevention of anemia and Clinical Implications	OG12.2	3	Bedside clinic
	End of Posting Examination

2	Leptospirosis	<ol style="list-style-type: none"> 1. Know etiological agent of leptospirosis- 3 R's of leptospirosis-Rats,Rains and Rice fields 2. Learn epidemiology and transmission-contaminated animal urine usually by rodents ,as epidemic, endemic, or sporadic. 3. Describe main clinical features of leptospirosis including fever,rash,systemic symptoms, jaundice, reduced urine output, shock etc 4. Know about Weil's disease (severe icteric form of leptospirosis). 5. Diagnosis –MAT(microscopic agglutination test),Blood and CSF cultures 6. Learn treatment and prophylaxis of mild and moderate, severe leptospirosis (ceftriaxone,doxycycline). 	IM25.1, IM 25.2, IM25.3, IM25.4, IM25.5, IM25.8	
3	HIV Part 1	<ol style="list-style-type: none"> 1. Epidemiology Etiopathogenesis of HIV infection 2. Transmission of HIV infection- Sexual, Parenteral, Vertical 3. DIAGNOSIS OF HIV- Tridot, ELISA, Western Blot, p24 Antigen assay 4. Initial Evaluation of HIV patient-general physical examination and investigations CD4 count CHEST X RAY, viral load, viral resistance test etc. 	IM6.3, IM6.7, IM6.9	Microbiology, PSM
4	HIV II	<ol style="list-style-type: none"> 1. Complication of HIV infection and discuss opportunistic infections and malignancies 2. What is AIDS and AIDS defining conditions. 3. Treatment of HIV patient- discuss HAART and treatment complications. Prophylaxis from HIV infections 	IM6.1, IM6.2, IM6.4, IM6.5, IM6.6, IM6.10, IM6.16, IM6.17, IM6.18	Pharmacology, PSM
5	PUO	<ol style="list-style-type: none"> 1. To know the definition & criteria of PUO 2. Know about types of PUO 3. Etiopathogenesis 4. To understand (PDC's) potentially diagnostic clues through proper history taking, examination & investigations about possible etiology. 5. To discuss different diagnostic tests which may be needed to arrive at diagnosis 	IM4.8, IM4.4, IM4.5, IM4.9, IM4.11, IM4.12	

		Management of PUO- supportive Rx,cooling measures,antipyretics and specific treatment as per cause		
6	Rickettsial Diseases	<ol style="list-style-type: none"> 1. Etiopathogenesis of rickettsial fever 2. Vectors associated with transmission rickettsial fever 3. Explain RMSF (Rocky Mountain Spotted Fever), Scrub typhus, Murine typhus and their mode of transmission and their signs and symptoms. 4. Evaluation of patient of suspected rickettsial fever and investigations for diagnosis- indirect immunofluorescence and PCR., importance and interpretation of Weil Felix test 5. Treatment of rickettsia- doxycycline , tetracycline and chloramphenicol. 		
7	Herpes simplex, zoster and chickenpox	<p>At the end of lecture student should be able to know</p> <p>Similarity between the herpes zoster and chicken pox i.e. reactivation of varicella virus .</p> <ol style="list-style-type: none"> 1. To know the causative agent of the herpes zoster - DNA virus To know the pathology of infection - virus remains dormant in dorsal root or other sensory ganglia to activate later . 2. To know the most common organ systems involved : CNS, optical system . Ramsay hunt syndrome , auditory system. 3. To know the most common risk factors.:immuno-compromised states e.g. HIV 4. To know different clinical phases of illness :i.e. pre-eruptive, acute eruptive, chronic phase 5. To arrive at the diagnosis using clinical and laboratory parameters : Like painful skin lesions and direct fluorescent antibody testing (DFA), PCR assay. 6. To know the treatment of the infection : symptomatic and specific which depends upon hosts immune status 		
8	COVID-19	<ol style="list-style-type: none"> 1. Etiology and epidemiology 2. Pathogenesis – inflammation, thrombosis 3. Concept of quarantine 4. Concept of isolation 		

		5. Treatment modalities– drugs and therapeutics Vaccines in COVID-19		
9	Adult immunization	1. Types of Immunisation – Active - Passive 2. Different routes of vaccine administration 3. Recommended immunization schedule 4. Vaccination for health care workers and before splenectomy 5. Post exposure immunization 6. Vaccination for travelers.		
10	Introduction To Cardiovascular System And Clinical Examination	1. Know five cardinal cardiac symptoms: Chest pain, breathlessness, palpitations syncope, edema 2. NYHA classification 3. General examination: Pulse, Blood pressure, JVP and pulse waveform, Pedal odema, cyanosis, clubbing, skin eg. xanthelesma. 4. Systemic Examination: a) Inspection :- Chest deformities, Apex impulse (position and character), scars , visible pulsations etc. b) Palpation: – Apex, P2, Parasternal heave, thrill etc c) Percussion:- Heart borders to define cardiac size d) Auscultation: - Areas (mitral ,aortic tricuspid, pulmonary, neo aortic) - Normal heart sounds character , intensity - Adventitious sounds: opening snaps clicks. - Murmurs :Intensity, character, propagation, systolic /diastolic	IM1.11, IM1.12, IM1.13, IM1.14, IM1.15	
11	Acute Rheumatic Fever	1. Organism (Group A Streptococci) 2. Epidemiology –(Which Age Is Affected) 3. Clinical Presentation – Involvement Of Heart (Pancarditis), Joint (Migratory Polyarthritis) Skin (Erythema Marginatum), Chorea & Subcutaneous Nodules. 4. Revised Jones Criteria To Diagnose Acute Rheumatic Fever 5. Importance Of ASO And CRP Titers In Diagnosing ARF 6. Management – Salicylates, NSAIDS and Antibiotic (Dose, Duration)	IM1.3, IM1.9, IM1.27	
12	Valvular Heart Disease -Part I	Mitral Stenosis – 1. Etiology of Ms 2. Pathophysiology of MS 3. Clinical Features		

		<ul style="list-style-type: none"> a) Symptoms b) Physical Findings c) Auscultatory Findings Including D/D of MDM <p>4. Rx- Medica , Surgical (Indication & Names)</p>		
13	Valvular Heart Disease Part II	<p>Mitral Regurgitation</p> <ul style="list-style-type: none"> 1. Etiology Of Acute & Chronic MR 2. Pathophysiology Of Acute & Chronic MR 3. Clinical Features <ul style="list-style-type: none"> a) Symptoms b) Physical Findings c) Auscultatory Findings 4. Relevant Investigations For MR <ul style="list-style-type: none"> • Rx For MR – Medical, Surgical – Indication & Names) <p>MVP</p> <ul style="list-style-type: none"> 1. Know Various Names Of MVP 2. Etiopathogenesis For MVP 3. Clinical Features <ul style="list-style-type: none"> a. Symptoms b. Auscultatory Findings 4. Investigations For MVP <p>Aortic Stenosis-</p> <ul style="list-style-type: none"> 1. Etiology Of As 2. Pathophysiology Of As 3. Clinical Features <ul style="list-style-type: none"> a. Symptoms (Syncope ,Angina , Dyspnoea) b. Physical Findings c. Auscultatory Findings <p>Investigations For AS</p> <p>Aortic Regurgitation-</p> <ul style="list-style-type: none"> 1. Causes Of AR 2. Pathophysiology Of AR 3. Clinical Features <ul style="list-style-type: none"> a. Physical Findings –Especially Various Signs - Peripheral b. Auscultatory Findings c. Criteria To Determine Severity Of AR 4. Investigations For AR –Rule Of 55 5. Rx For AR – Medical Surgical –(Indication And Names) 		
14	Infective Endocarditis	<ul style="list-style-type: none"> 1. Causative Organism For Infective Endocarditis In Different Situation(Native Valve, Prosthetic Valve ,Drug Users) 2. Clinical Presentation(Cardiac & Non Cardiac Manifestation) 3. Dukes Criteria, Blood Culture(Timing; how Many Samples) & Echocardiography In Empirical Diagnosis Of Infective Endocarditis 	IM1.10, IM1.22	

		4. Management According To Organism (Streptococci , Enterococci, Staphylococci & Hacek)		
15	Ischaemic Heart Disease 1 - Atherosclerosis & Anatomy Of Coronary Circulation	<p>Angina</p> <ol style="list-style-type: none"> 1. Chest Pain Of Short Duration (<30 Min) 2. 5 Important Risk Factors 3. ECG findings in Stable, Unstable angina 4. Clinical Presentation: Chest Pain, Sweating, Nausea, Breathlessness. 5. Diagnosis: Clinical, Ecg, Cardiac Enzymes 6. Treatment-For Stable and Unstable Angina 	IM2.1, IM2.2, IM2.3, IM2.4	
16	Ischaemic Heart Disease -Part 2- Acute Coronary Syndromes	<p>Angina</p> <ol style="list-style-type: none"> 1. Chest Pain Of Short Duration (<30 Min) 2. 5 Important Risk Factors 3. ECG findings in Stable, Unstable angina 4. Clinical Presentation: Chest Pain, Sweating, Nausea, Breathlessness. 5. Diagnosis: Clinical, Ecg, Cardiac Enzymes 6. Treatment-For Stable and Unstable Angina <p>Myocardial Infarction</p> <ol style="list-style-type: none"> 1. Definition and Distinguishing Features From Ischemia. 2. Risk Factors: Modifiable And Non Modifiable. 3. Clinical Presentation And Types: Silent, ChestPain, Sweating, Nausea, Breathlessness... 4. STEMI ,NSTEMI 5. Diagnosis: ECG, Cardiac Enzymes, Troponin, 2Dechocardiography. 6. Complication: Arrhythmias (Bradyarrhythmias & Tachyarrythmias), Pump Failure, Cardiogenic Shock Etc. 7. Treatment: Thrombolysis, Heparin, Beta - Blockers, Nitrates, Statins, Antiplatelets, ACEI, Angioplasty CABG. <p>Electrical Complications Of IHD And Their Treatment-</p> <ol style="list-style-type: none"> 1. Explain Conduction System and Electrophysiology Of Heart. 2. Explain Tacyarrhythmias And bradyarrythmias And Their Mechanisms. 3. Know And Identify Arrythmias, Ectopics, Ventricular Tachycardia And Fibrillation, AIVR, SVT, Sinus Bradycardia And Heart Blocks In 	IM2.5, IM2.6, IM2.7, IM2.9, IM2.10, IM2.11, IM2.13, IM2.14, IM2.15, IM2.16, IM2.19, IM2.20, IM2.23	

		<p>Ischemic Heart Diseases And Their Management.</p> <p>4. Discuss Anti Arrhythmic Drugs, Cpr And Defibrillations And Their Indications.</p> <p>Cardiogenic Shock</p> <p>Investigation In A Case Of Cardiogenic Shock</p> <p>Treatment Modalities In Cardiogenic Shock – Pharmacologic & Interventional.</p>		
17	Congenital Heart Disease	<ol style="list-style-type: none"> 1. Understand Normal Structure And Development Of Heart 2. ASD: Types, Clinical Features, Ecg& 2d Echo Findings, Treatment 3. VSD :Types, Clinical Features, Complications, 4. Tetralogy Of Fallot: Pathophysiology, Clinical Features, Ecg& 2d Echo Findings, Treatment 5. Eisenmengers Syndrome . 6. Ebstein’s Anomaly: Pathophysiology, Clinical Features, Treatment 7. Know About Transposition Of Great Arteries, Tricuspid Atresia 8. Complications Of Congenital Heart Disease 	IM1.28, IM1.29	
18	Cardiac Failure	<ol style="list-style-type: none"> 1. Definition- Abnormality Of Cardiac Pumping Or Filling. 2. Etiology: 4 Main Causes Of CCF - Congenital Or Acquired, Idiopathic, Valvular Heart Disease, Coronary Artery Disease. 3. Classification: NYHA (New York Heart Association). 4. 10 Precipitating Factors E.G., Arrhythmias High Output Status Etc. 5. Risk Factors: Myopathy, Previous Myocardial Infarction, Alcohol. 6. Clinical Presentation: Chest Pain, Breathlessness, Fatigue, Cerebral Symptoms. 7. Types of Cardiac failure 8. Clinical Features- Symptoms, Fatigue, Orthopnoea, Signs, S₃ Gallop, Basal Crepitations 9. Diagnosis: Labs, Chest Xray, Ecg, 2dechocardiography. 0. Treatment : Non Pharmacologic Like Diet And Parmacologic Like Diuretics, Angiotensin Converting Enzyme Inhibitors, B Blockers, Digoxin 	IM1.4, IM1.5, IM1.6, IM1.7, IM1.8, IM1.23, IM1.24, IM1.26	
19	Cor Pulmonale	<ol style="list-style-type: none"> 1. Types –Acute – Secondary To Pulmonary Embolis And Chronic – Sec To Lung Diseases 2. Conditions Which Increases The Chances Of Dvt(Thrombophilic States) 		

		<ol style="list-style-type: none"> 3. Clinical Features Suggestive Of Pulmonary Embolism 4. Differential Diagnosis 5. What Are The Investigations <p>Treatment For Acute Pulmonary Embolism</p>		
20	Hypertension Part I	<ol style="list-style-type: none"> 1. Definition Of Hypertension By Jnc 7 & 8 , 2. Different Types Of Hypertension And Classification: Primary , Second Staging According To Jnc 7 + 8 Classification./ White Coat, Masked , Secondary Etc . 3. Clinical Features: Headache , Giddiness, Chest Pain ,Breathlessness . 4. Complications:Neurologic, Cardiovascular, Renal, Ophthalmologic. 	IM8.2, IM8.3, IM8.4, IM8.5, IM8.7, IM8.8, IM8.9, IM8.10	
21	Hypertension Part II	<ol style="list-style-type: none"> 1. Investigations Routine And Specific-,: Lab Data , Electrocardiography, Echocardiography, Renal Doppler Chest Xray ,Fundoscopy, Urine Albumin Etc. 2. Treatment: - Various Classes Of Medications Available i.e Angiotensin Receptor Blockade /Ace Inhibitors, Beta Blockers, Ca Channel Blockers/ Vasodilators, Diuretics, Centrally Acting ,Etc. 3. Definition Of Hypertensive Urgencies And Emergencies And Their Management 4. Specific Conditions In Hypertension Like Pregnancy Induced Hypertension Etc And Their Specific Treatment. 	IM8.6, IM8.12, IM8.13, IM8.14, IM8.15, IM8.16, IM8.17	Cardiology
22	Pericarditis	<ol style="list-style-type: none"> 1) Types Of Pericardial Layers 2) Causes Of Pericarditis Or Effusion 3) Clinical Features Of Pericarditis Including Pericardial Rub, Tachycardia Etc. 4) Ecg Findings Of Pericarditis: Sinus Tachycardia, St Segment Elevation With Concavity Upwards & Pr Segment Depression. 5) Diagnostic Tests For Pericarditis- Pericardiocentesis And Fluid Biochemistry. 6) Treatment Of Pericarditis- Akt, Renal Rx, Steroids Etc. 		
23	Cardiomyopathy	<ol style="list-style-type: none"> 1) Know Definition Of Cardiomyopathy 2) 3 Types Of Cardiomyopathies & Specific Clinical Features If Any 3) Lab Evaluation Of Cmp By Cxr, Ecg, Echo, Cardiac Catheterization. 4) Rx Of Each Of Cmp Including Digoxin Etc. 5) Follow Up & Prognosis Evaluations. 		
24	Diseases Of Oral Cavity & Oesophagus	<p>(Apthous ulcer, GERD, Achalasia Cardia, Ca esophagus)</p> <ol style="list-style-type: none"> 1. Causes & Management of apthous ulcers 		Surgery

		<p>2. Symptoms of esophageal disease – heart burn, regurgitation, Chest pain, dysphagia, odynophagia, water brash</p> <p>3. To understand etiopathology of GERD & complications like reflux esophagitis, esophageal strictures, Barrett's esophagus</p> <p>4. To know about achalasia cardia- neurologic dysphagia- absence of ganglion cells in myenteric plexus</p> <p>5. Risk factor for ca esophagus Types – Adenocarcinoma - Squamous cell ca</p>		
25	Diseases Of Stomach	<p>1. Basic physiology of gastric mucosal lining & secretions</p> <p>2. To know different diseases of stomach e.g Acute & chronic Gastritis, peptic ulcers (Gastric & duodenal)</p> <p>3. H.Pylori infection Pathophysiology & management</p> <p>4. Treatment - Antacid – various classes & their action</p> <p>5. Approach to dyspepsia</p> <p>6. Names & indication for surgery in gastric ulcer / duodenal ulcer</p>	IM15.9, IM15.15, IM15.16	
26	Upper GI Bleeding	<p>Causes of upper GI tract bleeding e.g. NSAIDs, H.Pylori infections, Varices, Ulcers</p> <p>1. Symptoms – Haematemesis - Malena - Complications- hypovolemic shock, anemia etc To diagnose upper GI bleed by endoscopy.</p> <p>2. Management of Upper GI bleed - Medical Management - Endoscopic therapy Blood Transfusion – if severe anemia/shock</p>	IM15.1, IM15.2, IM15.5, IM15.6, IM15.9, IM15.10, IM15.11, IM15.14	
27	Theory exam SAQ/LAQ/MCQ			

Bharati Vidyapeeth Deemed To Be University Medical College Pune
MBBS-Phase III- Part I
Block I and Block II
DEPARTMENT OF MEDICINE

Small group teaching Schedule: Duration: Two hrs/SGT

Sr. No.	Topic	Content	Competency No.	SGT Method*
1	ECG 1	To know about the normal cardiac electrical activity 1. To know basics of ECG machine- how to record ECG (12 leads), lead placement, standardization etc. 2. To know about the basic concepts of ECG paper 3. How to read ECG- rate, rhythm, axis, individual waves, intervals etc. 4. To know about the characteristics of each wave, segment and interval	1.17, IM1.18	Tutorial
2	ECG 2	1. Abnormalities of P wave - P mitrale, P pulmonale etc. 2. Supraventricular arrhythmia, atrial flutter, atrial fibrillation 3. Know about the PR interval and its significance 4. Bradyarrhythmias and 1 st , 2 nd and 3 rd degree AV blocks. 5. To know about the QRS complex- Axis, duration and morphology 6. Ventricular hypertrophy- LVH and RVH 7. To identify bundle branch blocks- RBBB and LBBB 8. Know the differential diagnosis of ST elevation in ECG 9. Specific changes in ECG in myocardial infarction – STEMI and NSTEMI 10. To differentiate between myocardial infarction and other causes of ST elevation in ECG 11. Know about ventricular tachycardia and ventricular fibrillation	IM12.10 IM2.10, IM8.13, IM8.17	Tutorial

3	Chest X Ray	<ol style="list-style-type: none"> 1. How to read a normal chest x ray 2. Homogenous opacity of unilateral/ bilateral side differentials 3. Miliary TB on chest x ray 4. Lung cavity/ abscess 5. Cannon ball appearance on x ray 6. Cardiomegaly measurement 7. Atrial and ventricular enlargement 8. Pneumonia 9. ARDS/ pulmonary edema 		Tutorial
4	Prescription writing	<ol style="list-style-type: none"> 1. Ideal prescription 2. Parts/ structure of prescription 3. Date 4. Superscription 5. Inscription 6. Subscription 7. Transcription 8. Signature 		Tutorial
5	Lab data	<ol style="list-style-type: none"> 1. How to interpret LFT report 2. How to interpret pleural fluid reports 3. CSF reports 4. Ascitic fluid report interpretation 5. Thyroid reports interpretation 6. Hemogram and peripheral smear interpretation <p>es tube</p> <ol style="list-style-type: none"> 1. Other names Description and explaining various markingse.g 405059 65Cardiac orifice Body Pylorus1st part of DuodenumStomach 2. Indications- DiagnosticTherapeutic 3. Contraindications <p>Procedure- Technique of insertion and confirmation of placement</p> <ol style="list-style-type: none"> 4. Complications <ol style="list-style-type: none"> a. Epistaxis b. Rhinitis,Pharyngitis c. Variceal bleed 		Tutorial
6	Tubes and catheters	<p>ETT</p> <ol style="list-style-type: none"> 1. Description <ol style="list-style-type: none"> a. Portex b. Cuffed /Uncuffed c. Various sizes 2. Indication of Intubation <ol style="list-style-type: none"> a. Respiratory failure b. Cardio- respiratory arrest c. General anaesthesia 3. Contraindications <ol style="list-style-type: none"> a. Trauma b. Laryngospasm 		Tutorial

		<p>4. Procedure-Consent, position of pt., site, technique of insertion, post intubation care.</p> <p>5. Complications</p> <ol style="list-style-type: none"> Obstruction Intubation either Bronchus/esophagus Trauma to cords intubation Teeth dislodgement 		
7	Pleural Tapping and Biopsy	<ol style="list-style-type: none"> Indications of pleural tapping- diagnostic, therapeutic Contraindications- local skin infection, bleeding diathesis Instruments- needle, syringe, three way IV tubing etc. Importance of Radioimaging before and after the procedure Procedure – position, site, how much can be tapped Analysis of pleural fluid Complications - pneumothorax. Hemothorax, empyema Indications of pleural biopsy- recurrent pleural effusion, pleural mass Instruments- Tru cut biopsy needle 	IM3.9	Tutorial
8	Ascitic tapping	<ol style="list-style-type: none"> Indications of ascitic tapping- diagnostic , therapeutic Contraindications- local skin infection, severe thrombocytopenia Procedure – position of pt, sites, insertion of needle- Z technique Instruments required- syringe, needle, local anesthetic. How much fluid can be tapped, Analysis of ascitic fluid Complications- bleeding, infection, bowel injury 	IM5.15	Tutorial
9	Lumbar Puncture	<ol style="list-style-type: none"> Description of the instruments needed- <ol style="list-style-type: none"> Needle proper Stylus Indications- Diagnostic and Therapeutic Contraindications- Absolute and relative Procedure-Consent, position of pt., site, post procedure orders etc. Complications- local and systemic Analysis of CSF- normal values 	IM17.8	Tutorial
10	Liver Biopsy, Kidney	<ol style="list-style-type: none"> Description of the instruments needed- <ol style="list-style-type: none"> Outer hollow needle 		Tutorial

	Biopsy	<p>b. Inner split needle c. Solid stylet</p> <p>2. Indication of Biopsy-Cirrhosis ,Carcinoma ,Chronic hepatitis, Storage & metabolic disorders</p> <p>3. Contraindications- Coagulopathy,Hydatidcyst,Cong estedliver,massive, ascites,Hemangioma etc.</p> <p>4. Procedure-Consent, position of patient, site, post procedure orders etc.</p> <p>5. Complications-Hemorrhage, Biliary peritonitis ,Precipitation of hepatic coma etc.</p> <p>6. Description of the instruments needed-</p> <ul style="list-style-type: none"> - Outer hollow needle - Inner split needle - Solid stylet <p>7. Indications of Biopsy- Nephroticsyndrome,Glomerulon ephritis of any cause, Proteinuria, Hematuria, Systemic disorders with renal involvement, transplant rejection, Malignancy etc</p> <p>8. Contraindications-Coagulopathy, ESRD, Solitary kidney etc.</p> <p>9. Procedure - Consent, position of pt., site, post procedure orders etc</p> <p>10. Complications - Hemorrhage, infection etc.</p>		
11	Bone Marrow Aspiration and Biopsy	<p>1. Description of the instruments needed-Needle stylet,adjustableguard,e.gsalah, klima</p> <p>2. Indications- Anemia, pancytopenia, hematological malignancies, pyrexia of unknown origin</p> <p>3. Contraindications- local infection, coagulopathy etc.</p> <p>4. Procedure-Consent, position of patient, site, post procedure orders etc.</p> <p>5. Complications- hemorrhage, infection</p> <p>6. Analysis of bone marrow-</p> <ul style="list-style-type: none"> a. Cellularity of marrow b. WBC, Megakaryocytes, plasma cell c. M.E ratio d. parasite /tumour cells/ fibrous tissue/iron 	IM4.17	Tutorial
12	P line insertion IV	CVP Line	IM10.22	Tutorial

	Fluids & Infusion set	<ol style="list-style-type: none"> 1. Description of the instruments needed-Needle, Guide wire, Central line etc. 2. Procedure-Consent, position of pt., site, post procedure orders etc. <p>Complications- Pneumothorax, Carotid artery puncture etc</p> <p>IV Fluids</p> <ol style="list-style-type: none"> 1. Types <ol style="list-style-type: none"> a. Colloids- Hemaccel, Albumin etc. b. Crystalloids c. e.g NS, Dextrose, RL, Hypertonic saline 2. Indications- Hypovolemic shock, severe dehydration etc 3. Contraindication CCF, other fluid overload states 4. Advantages of IV fluids Rapid connection of deficiency 5. Disadvantages <ol style="list-style-type: none"> a. Thrombophlebitis b. Hematoma c. Pyogenic reaction <p>Overloading</p>		
13	Blood transfusion	<ol style="list-style-type: none"> 1. What are the different blood group systems? 2. Which are the different blood components? 3. What pre transfusion testing or precautions are taken? 4. What are the indications for blood transfusion? 5. What are the contraindications for blood transfusion? <p>What are the adverse reactions to blood transfusion?</p>	IM9.19	Tutorial
14	Heat stroke and Near Drowning	<ol style="list-style-type: none"> 1. What is Heat stroke? 2. Clinical manifestations of heat stroke 3. Other causes of hyperthermia 4. Complications of heat stroke 5. Management of heat stroke 		Small group discussion
15	Acute alcohol intoxication & withdrawal syndrome	<ol style="list-style-type: none"> 1. Metabolism of alcohol in body. 2. clinical features of acute alcohol intoxication 3. Management of acute alcohol intoxication 4. Manifestations of alcohol withdrawal 5. Treatment of alcohol withdrawal 		Small group discussion

16	Urine examination	<ol style="list-style-type: none"> 1. Methods of collection of urine specimens 2. How is the gross & microbiological examination of urine done? 3. Which are the different urinary casts? 4. Evaluation of proteinuria 5. Further reading – treatment of UTI 	IM25.7	Small group discussion
17	Anaphylaxis & Acute Urticaria	<ol style="list-style-type: none"> 1. Types of hypersensitivity reactions 2. Etiology of anaphylaxis & urticaria 3. Clinical features of anaphylaxis- 3 severe life threatening complications 4. Treatment of anaphylaxis 5. Treatment of acute urticaria 		Small group discussion
18	Exam on above topics	SAQ/ MCQ		

*SGT Method-Group discussion/ Tutorial/seminar/DOAP/Practical/ skills lab

Batches for small group: 30 students per batch:

Batch	Roll No.s
A	1-30
B	31-60
C	61-90
D	91-120
E	121-150

Bharati Vidyapeeth Deemed To Be University Medical College Pune
MBBS-Phase III- Part I
Block I and Block II

DEPARTMENT OF MEDICINE

Clinical Posting Schedule:

(Total 4 weeks: 6 days x 3hours per day = 72 hours)

Day of posting	Topic/s	Competency	Hours	Teaching learning method: bedside clinic/ Skills lab/ Clinical clerkship
Monday	CVS - History taking and symptomatology	IM1.10, IM2.6, IM8.9	3 (2+1)	Bedside Clinic + Clinical Clerkship
Tuesday	General examination in CVS- 1 (Pulse, BP, JVP)	IM1.11, IM1.12, IM1.13, IM1.14, IM2.7, IM8.10	3 (2+1)	Bedside Clinic + Clinical Clerkship
Wednesday	Blood transfusion + General examination in CVS- 2	IM9.19 IM1.11, IM1.14, IM2.7	3(2 +1)	Skill Lab + Bedside clinic
Thursday	Mitral Stenosis (MS)	IM1.11, IM1.12, IM1.13, IM1.14, IM1.15	3 (2+1)	Bedside Clinic + Clinical Clerkship
Friday	Mitral Regurgitation (MR)	IM1.11, IM1.12, IM1.13, IM1.14, IM1.15	3 (2+1)	Bedside Clinic + Clinical Clerkship
Saturday	Aortic Stenosis (AS)	IM1.11, IM1.12, IM1.13, IM1.14, IM1.15	3 (2+1)	Bedside Clinic + Clinical Clerkship
Monday	Aortic Regurgitation (AR)	IM1.11, IM1.12, IM1.13, IM1.14, IM1.15	3 (2+1)	Bedside Clinic + Clinical Clerkship
Tuesday	Congenital heart disease (VSD/ TOF)	IM1.11, IM1.12, IM1.13, IM1.14, IM1.15	3 (2+1)	Bedside Clinic + Clinical Clerkship
Wednesday	Ascitic fluid Aspiration + Multi-valvular heart disease (MR +MS/AS/AR) (2+1)	IM 5.15 IM1.11, IM1.12, IM1.13, IM1.14, IM1.15	3(2+1)	Skill Lab + Bedside clinic
Thursday	Thyroid disease - Grave's disease/ Severe Hypothyroidism	IM12.5, IM12.6, IM12.7	3 (2+1)	Bedside Clinic + Clinical Clerkship
Friday	Approach to Polyarthritis	IM7.11, IM7.12	3 (2+1)	Bedside Clinic + Clinical Clerkship
Saturday	Case presentation / Buffer		3 (2+1)	Bedside Clinic + Clinical Clerkship

Monday	GIT- History & Symptomatology	IM5.9, IM15.4, IM16.4	3 (2+1)	Bedside Clinic + Clinical Clerkship
Tuesday	General examination in GIT diseases.	IM4.10, IM5.10, IM15.5, IM15.7, IM16.5	3 (2+1)	Bedside Clinic + Clinical Clerkship
Wednesday	Lumbar Puncture + Decompensated Liver Cirrhosis	IM6.15 IM5.9, IM5.10	3 (2+1)	Skill Lab + Bedside Clinic
Thursday	Acute hepatitis	IM4.9, IM4.10, IM5.9, IM5.10	3 (2+1)	Bedside Clinic + Clinical Clerkship
Friday	Splenomegaly ± Lymphadenopathy	IM4.9, IM4.10	3 (2+1)	Bedside Clinic + Clinical Clerkship
Saturday	Hepatomegaly ± Splenomegaly	IM4.9, IM4.10, IM5.9, IM5.10	3 (2+1)	Bedside Clinic + Clinical Clerkship
Monday	Case of Jaundice with approach to Jaundice	IM4.9, IM4.10, IM5.9, IM5.10	3 (2+1)	Bedside Clinic + Clinical Clerkship
Tuesday	Decompensated Liver Cirrhosis	IM5.9, IM5.10	3 (2+1)	Bedside Clinic + Clinical Clerkship
Wednesday	Ryle's Tube Insertion + Lump/ mass per Abdomen	IM4.9, IM4.10	3 (2+1)	Skill Lab + Bedside Clinic
Thursday	Decompensated Liver Cirrhosis	IM5.9, IM5.10	3 (2+1)	Bedside Clinic + Clinical Clerkship
Friday	Case Presentation/ Buffer		3 (2+1)	Bedside Clinic + Clinical Clerkship
Saturday	End of Posting Examination			

Bharati Vidyapeeth Deemed To Be University Medical College, Pune
MBBS – Phase III – Part I
Block I and Block II
Department of General Surgery
Lecture Schedule: Duration : One hr /Lecture

Lecture no.	Date	Topic	Content	Competency	Integration
1	1/2/2022	Surgical infections	Define and describe the aetiology and pathogenesis of surgical Infections. Enumerate Prophylactic and therapeutic antibiotics Plan appropriate management	SU6.1 SU6.2	Microbiology
2	8/2/2022	Basic surgical skills	Describe Aseptic techniques, sterilization and disinfection.	SU14.1	Microbiology
3	15/2/2022	Anaesthesia and pain management	Describe principles of Preoperative assessment. Enumerate the principles of general, regional, and local Anaesthesia.	SU11.1 SU11.2	Anaesthesiology
4	22/2/2022	Developmental anomalies of face, mouth and jaws	Describe the etiology and classification of cleft lip and palate. Describe the Principles of reconstruction of cleft lip and palate	SU19.1 SU19.2	
5	1/3/2022	Investigation of surgical patient	Biological basis for early detection of cancer and multidisciplinary approach in management of cancer	SU9.2	
6	8/3/2022	Oropharyngeal cancer - I	Describe etiopathogenesis of oral cancer symptoms and signs of oropharyngeal cancer. Enumerate the appropriate investigations and discuss the Principles of treatment.	SU20.1 SU20.2	
7	15/3/2022	Disorders of salivary glands - I	Describe surgical anatomy of the salivary glands, pathology, and clinical presentation of disorders of salivary glands	SU 21.1	
8	22/3/2022	Disorders of salivary gland - II	Enumerate the appropriate Investigations and the Principles of treatment of disorders of salivary glands	SU 21.2	
9	29/3/2022	Thyroid- I	Describe the applied anatomy and physiology of thyroid. Describe the etiopathogenesis of thyroidal swellings.	SU 22.1 SU 22.2	Human Anatomy
10	5/4/2022	Thyroid - II	Describe the clinical features, classification and principles of management of thyroid cancer	SU22.4	
11	12/4/2022	Parathyroid glands	Describe the applied anatomy of parathyroid. Describe and discuss the clinical features of hypo - and hyperparathyroidism and the principles of their management.	SU 22.5 SU 22.6	

12	19/4/2022	Adrenal gland	Describe the applied anatomy of adrenal glands. Describe the etiology, clinical features and principles of management of disorders of adrenal gland Describe the clinical features, principles of investigation and management of Adrenal tumours	SU 23.1 SU 22.2 SU23.3	
13	26/4/2022	Breast - I	Describe applied anatomy and appropriate investigations for breast disease	SU 25.1	
14	3/5/2022	Breast - II	Describe the etiopathogenesis, clinical features and principles of management of benign breast disease including infections of the breast	SU 25.2	
15	10/5/2022	Breast - III	Describe the etiopathogenesis, clinical features, Investigations and principles of treatment of benign and malignant tumours of breast.	SU 25.3	
16	17/5/2022	Minimally invasive General Surgery	Describe the Indications, advantages and disadvantages of Minimally invasive General Surgery	SU 16.1	
17	24/5/2022	Abdomen - peritoneum	Describe causes, clinical features, complications and principles of management of peritonitis	SU 28.3	
18	31/5/2022	Abdomen	Describe pathophysiology, clinical features, investigations and principles of management of Intra-abdominal abscess, mesenteric cyst, and retroperitoneal tumors	SU 28.4	
19	7/6/2022	Abdomen - esophagus	Describe the applied Anatomy and physiology of esophagus.	SU 28.5	
20	14/6/2022	Abdomen - esophagus	Describe the clinical features, investigations and principles of management of malignant disorders of esophagus.	SU 28.6	
21	21/6/2022	Abdomen - stomach	Describe the applied anatomy and physiology of stomach. Describe and discuss the aetiology, clinical features, investigations and principles of management of congenital hypertrophic pyloric stenosis.	SU 28.7 SU 28.8	
22	28/6/2022	Abdomen - stomach	Describe and discuss the aetiology, clinical features, investigations and principles of management of Peptic ulcer disease	SU 28.8	
23	5/7/2022	Abdomen - Stomach	Describe and discuss the aetiology, clinical features, investigations and principles of management of Carcinoma stomach		
---	12/7/2022	Term end exam			2 Hours

III Professional Year Part I Block II Time table

1	2/8/2021	Pancreas - I	Describe the clinical features, principles of investigation, prognosis and management of pancreatitis.	SU 24.1	
2	9/8/2021	Pancreas - II	Describe the clinical features, principles of investigation, prognosis and management of pancreatic endocrine tumours	SU24.2 SU24.3	2 hours

Bharati Vidyapeeth Deemed To Be University Medical College Pune

MBBS - Phase III - Part I

Block I and Block II

Department of surgery

Small group teaching Schedule: Duration 2hrs/SGT

Sr. no	Topic	Content	Competency No.	SGT Method
1	Wound healing and wound care	Differentiate the various types of wounds, plan and observe management of wounds. Discuss medico legal aspects of wounds.	SU5.3 SU5.4	Practical
2	Nutrition and fluid therapy	Describe and discuss the methods of estimation and replacement of the fluid and electrolyte requirements in the surgical patient	SU12.2	Tutorial / Group discussion
3	Anaesthesia and pain management	Describe Principles of safe General Surgery	SU11.6	Tutorial
4	Investigation of surgical patient	Choose appropriate biochemical, microbiological, pathological, imaging investigations Communicate the results of surgical investigations and counsel the patient appropriately and interpret the investigative data in a surgical patient	SU9.1 SU9.3	Tutorial
5	Pre, intra and post- operative management.	Observe common surgical procedures and assist in minor surgical procedures; Observe emergency lifesaving surgical procedures.	SU10.3	Practical
6	Pre, intra and post- operative management.	Perform basic surgical Skills such as First aid including suturing and minor surgical procedures in simulated environment	SU10.4	Skill lab
7	Anaesthesia and pain management	Demonstrate maintenance of an airway in a mannequin or equivalent	SU11.3	Tutorial
8	Basic Surgical Skills	Describe Aseptic techniques, sterilization and disinfection	SU14.1	Group Discussion
9	Basic Surgical Skills	Describe Surgical approaches, incisions.	SU14.2	Tutorial
10	Basic Surgical Skills	Describe the use of appropriate instruments in Surgery in general	SU14.2	Tutorial
11	Basic Surgical Skills	Describe the materials and methods used for surgical wound closure and anastomosis (sutures, knots and needles) Demonstrate the techniques of asepsis and suturing in a simulated environment	SU14.3 SU14.4	Tutorial
12	Trauma	Describe the Principles of FIRST AID. Demonstrate the steps in Basic Life Support. Transport of injured patient in a simulated environment.	SU17.1 SU17.2	Tutorial / DOAP
13	Trauma	Describe the clinical features of soft tissue injuries. Chose appropriate investigations and discuss the principles of management.	SU17.7	Seminar
14	Trauma	Describe the pathophysiology of chest injuries. Describe the clinical features and principles of management of chest injuries.	SU17.8 SU17.9	Tutorial
15	Trauma	Demonstrate Airway maintenance. Recognize and manage tension pneumothorax, hemothorax and flail chest in simulated environment.	SU17.10	Skill lab
16	Endocrine General Surgery: Thyroid and parathyroid	Describe the etiopathogenesis of thyroïdal swellings	SU22.2	Tutorial
17	Breast	Demonstrate the correct technique to palpate the breast for breast	SU25.5	DOAP

		swelling in a mannequin or equivalent Describe and identify the morphologic and microscopic features of carcinoma of the breast	PA31.3	
18	Skill Module	Incision and drainage	10.3	Skill lab

*SGT Method-Group discussion/ Tutorial/ Seminar/ DOAP/ Practical/ Skill lab

Batches for small group: 30 students per batch:

Batch	Roll No.s
A	1-30
B	31-60
C	61-90
D	91-120
E	121-150

Bharati Vidyapeeth Deemed To Be university Medical College, Pune

MBBS- Phase III- Part I

Block I and Block II

Department of General surgery

Clinical posting schedule:

(Total Weeks - 4 ; 24days x 3hours per day = 72hours)

Day of posting	Topic/s	Competency	Hours	Teaching learning method: bedside clinic/ skills lab/ clinical clerkship
1	Swelling: case presentation- discussion of investigation and treatment plan	SU18.3	3	Bedside clinic
2	Ulcer: case presentation- discussion of classification, investigations and treatment plan	SU5.2 SU5.3	3	Bedside clinic Clinical clerkship
3	Ulcer (Diabetic foot): discussion and treatment plan		3	Bedside clinic Clinical clerkship
4	Scrotal swellings: case presentation hydrocele/ varicocele- discuss investigations and treatment plan	SU30.4 SU30.5	3	Bedside clinic
5	Inguinal hernia- case presentation- discuss treatment plan	SU28.2	3	Bedside clinic
6	Case presentation: ventral hernia (discuss investigations and treatment plan)	SU28.2	3	Bedside clinic
7	Breast: symptomatology, History taking and examination of breast lump.	SU25.5	3	Bedside clinic.
8	Breast: discussion of differential diagnosis with investigations and treatment plan	SU25.1	3	Clinical clerkship Bedside clinic
9	Breast: Case presentation- benign Breast Lump		3	Bedside clinic
10	Breast: Case presentation- carcinoma breast			Bedside clinic
11	Thyroid: symptomatology, history taking, physical examination	SU22.3	3	Bedside clinic
12	Thyroid: discussion of differential diagnosis with investigations and broad outline of management	SU22.3 SU22.4	3	Bedside clinic Clinical clerkship
13	Thyroid: Case presentation – Multinodular goitre	SU22.3	3	Bedside clinic
14	Thyroid: case presentation – solitary nodule thyroid	SU22.3	3	Bedside clinic
15	Case presentation: other neck swellings- cervical lymphadenopathy	SU22.8	3	Bedside clinic
16	Oral malignancy History taking, examination and investigations	SU20.1	3	Bedside clinic Clinical clerkship
17	Oral malignancy: Case presentation	SU20.2	3	Bedside clinic
18	Varicose veins: History taking, examination and investigations and various treatment modalities	SU27.5 SU27.6	3	Bedside clinic Clinical clerkship
19	Case presentation: varicose veins		3	Bedside clinic
20	Peripheral vascular disease: history taking and examination and investigations	SU27.1 SU27.2 SU27.3	3	Bedside clinic Clinical clerkship
21	Case presentation: Peripheral vascular disease		3	Bedside clinic
22	Case presentation: Amputation stump.	SU27.4	3	Bedside clinic

	Describe principles of amputation.			Clinical clerkship
23	Case presentation: Ileostomy colostomy. Discuss complications and management of stoma		3	Bedside clinic Clinical clerkship
24	Clinical term end			

Bharati Vidyapeeth (Deemed To Be University) Medical College Pune**MBBS-Phase III- Part I****Block I and Block II****DEPARTMENT OF OBSTETRICS AND GYNECOLOGY****Lecture Schedule: Duration: One hr/Lecture**

Lecture No.	Topics	Content	Competency	Integration
1.	Demographic and Vital Statistics	Birth Rate, Maternal Mortality and Morbidity: Define & Discuss Perinatal Mortality and Morbidity, Neonatal Mortality Audits	OG1.1 & 2	Community medicine
2.	Demographic and Vital Statistics	Still Birth and Abortions: Define & Discuss	OG1.3	
3.	Antepartum haemorrhage	Define, Classify APH. Aetiology, pathogenesis, clinical features and management of Placenta Previa	OG10.1	
4.	Antepartum haemorrhage	Aetiology, pathogenesis, differential diagnosis, clinical features and management of Placental Abruption	OG10.1	
5.	Operative Obstetrics	Caesarean section: Indications, Procedure, Complications	OG15.1	
6.	Operative Obstetrics	Forceps & Vacuum extraction	OG15.1	
7.	Operative Obstetrics	Cervical Cerclage: Indications, Procedure, Complications	OG15.1	
8.	Lactation	Mastitis & Breast abscess: Clinical features, diagnosis and Management	OG17.3	
9.	Abnormal Puerperium	Puerperal pyrexia and Puerperal Pyrexia	OG19.1	
10.	Normal and Abnormal Puberty	Precocious Puberty and Delayed Puberty	OG23.2	
11.	Vaginal Discharge and Genital Infections	Vaginal Infections: Etiology, characteristics, hygiene, management and syndromic approach	OG22.2	
12.	Vaginal Discharge and Genital Infections	STDs: Etio-pathogenesis, CF, DD, Investigation, Management and long term implications	OG27.1	
13.	Vaginal Discharge and Genital Infections	Genital Tuberculosis: Etio-pathogenesis, CF, DD, Investigation, Management and long term implications	OG27.2	
14.	Vaginal Discharge and Genital Infections	HIV: Etio-pathogenesis, CF, DD, Investigation, Management and long term implications	OG27.3	
15.	Vaginal Discharge and Genital Infections	PID: Etio-pathogenesis, CF, DD, Investigation, Management and long term implications	OG27.4	
16.	Abnormal Uterine Bleeding	AUB I: Definition, Classification, Aetiology, Clinical Features	OG24.1	
17.	Abnormal Uterine Bleeding	AUB II: Investigations & Management	OG24.1	

18.	Infertility	Infertility: Causes, Types, CF, Differential Diagnosis, Baseline Investigations including semen analysis	OG28.1	
19.	Infertility	Infertility Investigations: Tubal Patency Tests & Restoration of tubal patency	OG28.2	
20.	Infertility	Infertility: Ovulation Induction drugs, principles and monitoring	OG28.3	
21.	Infertility	Assisted Reproductive Techniques	OG28.4	
22.	PCOS and Hirsutism	PCOS: Etio-pathogenesis, Clinical Features, Diagnosis & Investigations, Management long term complications	OG30.1	
23.	Fibroids & Endometriosis	Fibroid I: Aetiology, Pathology, CF, DD	OG29.1	
24.	Fibroids & Endometriosis	Fibroid II: Investigations, Management Principles & Complications including degenerations	OG29.1	
25.	Term end theory			

Bharati Vidyapeeth (Deemed To Be University) Medical College Pune**MBBS-Phase III- Part I****Block I and Block II****DEPARTMENT OF OBSTETRICS AND GYNECOLOGY****Small Group Teaching: Duration: 1 hr/Small Group Teaching**

Serial No.	Topic	Content	Competency	SGT Method
1.	Antenatal Care	Objectives of Antenatal Care	OG8.1	Group discussion
2.	Antenatal Care	Obstetrics History & Clinical Importance	OG8.2	Tutorial
3.	Antenatal Care	Obstetrics Examination	OG8.3	DOAP
4.	Antenatal Care	Monitoring of Maternal and Fetal Well-being	OG8.4	Group Discussion
5.	Antenatal Care	Nutrition in Pregnancy	OG8.6	Seminar
6.	Antenatal Care	Role of Ultrasound and Doppler in Obstetrics	OG16.3	Tutorial
7.	Labour & Operative Obstetrics	Physiology of Normal Labor & Stages of Labour	OG13.1	Seminar
8.	Labour & Operative Obstetrics	Mechanism Of Labor	OG13.1	DOAP
9.	Labour & Operative Obstetrics	Management of First and Second Stage of Labour	OG13.1	Tutorial
10.	Labour & Operative Obstetrics	Management of third stage of Labour	OG13.1	Practical
11.	Labour & Operative Obstetrics	Indications and Suturing of Episiotomy	OG15.1	Group discussion
12.	Labour & Operative Obstetrics	Pain Relief in Labor	OG 13.1	Tutorial
13.	Labour & Operative Obstetrics	Induction & Augmentation of Labor	OG 13.1	Seminar
14.	Labour & Operative Obstetrics	Preterm Labor & PROM	OG 13.2	Tutorial
15.	Labour & Operative Obstetrics	Post Dated & Post Term Pregnancy	OG 13.2	Seminar
16.	Complications in Third Stage of labour	PPH: Causes, Definition, Drug Treatment of Atonic PPH	OG16.1	Group discussion

17.	Complications in Third Stage of labour	PPH: Traumatic and Surgical Management of PPH	OG16.1	Group discussion
18.	Lactation	Physiology of Lactation and Breast Feeding	OG17.1	Seminar
19.	Lactation	Counselling of Breast Feeding in a Simulated Environment and breast feeding problems	OG17.2	DOAP
20.	Contraception	Classification of Temporary and Permanent Methods. Discussion on Natural Methods, Pearl's Index	OG21.1	Seminar
21.	Contraception	Barrier Methods of Contraception	OG21.1	Tutorial
22.	Contraception	Oral Contraceptives: Classification, Mechanism Of action. Side Effects	OG21.1	Seminar
23.	Contraception	Injectable Contraceptives and Emergency Contraceptives	OG21.1	Tutorial
24.	Contraception	Intrauterine Contraceptive Devices: Classification, Mechanism of Action, Side Effects and PPIUCD programme	OG21.1 OG21.2	DOAP
25.	Contraception	Female Sterilization	OG21.1	Tutorial
26.	Contraception	Male Sterilization and Medical Eligibility Criteria [MEC] for various contraceptive methods	OG22.1	Seminar
27.	Medical Termination of Pregnancy	MTP Act & Law, PCPNDT Act	OG20.1	Seminar
28.	Medical Termination of Pregnancy	1 st Trimester MTP	OG20.1	Group discussion
29.	Medical Termination of Pregnancy	2 nd Trimester MTP	OG20.1	Seminar
30.	Medical Termination of Pregnancy	Abortions I [Definition, aetiology, types and management of first trimester abortions]	OG9.1	Tutorial
31.	Medical Termination of Pregnancy	Abortions II [Second trimester abortion and In-competent Os]	OG9.1	Group discussion
32.	Complications in early pregnancy	Acute Abdomen in Early Pregnancy with focus on ectopic pregnancy [Aetiology, Clinical features, Differential Diagnosis and Management]	OG9.3	Group discussion
33.	Complications in early pregnancy	Vesicular Mole	OG9.4	Seminar
34.	Complications in early pregnancy	Hyperemesis Gravidarum	OG9.5	Tutorial
35.	Neonatology	Care of New-born	OG18.1	DOAP

Bharati Vidyapeeth (Deemed To Be University) Medical College Pune
MBBS-Phase III- Part I
Block I and Block II

DEPARTMENT OF OBSTETRICS AND GYNECOLOGY

Clinical Posting Schedule: (Total weeks 4 ; 6 days x 3hours per day = 72 hours)

Day of posting	Topic/s	Competency	Hours	Teaching learning method
1.	Obstetric examination, Lie, Presentation, Attitude, Leopold Manoeuvres [excluding internal examination]	OG35.1	3	Clinical clerkship
2.	Objectives of Antenatal Care Including ANC visits and Antenatal Investigations	OG8.1	3	Clinical clerkship
3.	Partograph	OG8.4	3	Clinical clerkship
4.	Monitoring of fetal well-being [NST, DFMC, BPP, USG]	OG16.3	3	Clinical clerkship
5.	Screening of high risk pregnancy & Nutrition in Pregnancy	OG8.1 , OG8.6	3	Clinical clerkship
6.	Types of Maternal Pelvis and Clinical importance in Obstetrics & Fetal skull	OG14.1, OG14.2	3	Skills lab
7.	Mechanism of normal labour	OG14.2	3	Skills lab
8.	Episiotomy: Indications, Procedure, Complications	OG15.1	3	Skills lab
9.	PPH: Causes, Definition	OG16.1	3	Clinical clerkship
10.	PNC Case Discussion	OG19.1	3	bedside clinic
11.	Caesarean section: Indications, Procedure, Complications	OG15.1	3	Clinical clerkship
12.	Case discussion Multiple Pregnancy:	OG11.1	3	bedside clinic
13.	Case discussion Hypertensive Disorders in Pregnancy:	OG12.1	3	bedside clinic
14.	Case discussion Intra Uterine Growth Retardation	OG16.3	3	bedside clinic
15.	Case discussion Anaemia in pregnancy	OG12.2	3	bedside clinic
16.	Case discussion Preterm Labour, PROM & Post-Dated Pregnancy	OG13.2	3	bedside clinic
17.	Cervical Cerclage: Indications, Procedure, Complications	OG15.1	3	Clinical clerkship
18.	Oral Contraceptives, Injectable Contraceptives ,Emergency Contraceptives	OG21.1	3	Skills lab
19.	Intrauterine Contraceptive Devices	OG21.1	3	Skills lab
20.	Female Sterilization	OG21.1	3	Clinical clerkship

21.	MTP 1 st & 2 nd trimester	OG20.1	3	Clinical clerkship
22.	Vaginal Infections: syndromic approach	OG22.2	3	Clinical clerkship
23.	Prevention and Screening of Cancer Cervix	OG33.4	3	Clinical clerkship
24.	Case discussion of Benign Ovarian mass	OG34.2	3	bedside clinic
25.	End of Posting Exam		3	

DEPARTMENT OF PEDIATRICS

Phase III MBBS : PART 1

BLOCK 1

Lectures: Duration One hr/Lecture

No.	Topic	Content	Competency	Integration
1.	Normal Growth and development in child	Anthropometry measurement and assessment, growth chart plotting. Principles of normal development. Milestones in infancy and childhood in all domains.	PE1.1, PE1.2, PE1.3, PE1.4 PE1.5, PE1.6, PE1.7	-----
2.	Developmental and behavioural disorders	Enumerate and discuss the causes of developmental delay. Etiology, clinical features, diagnosis and management of child with learning disabilities.	PE3.1, PE3.2, PE3.3, PE3.4, PE4.2, PE4.3, PE4.4, PE4.5	-----
3.	Short stature	Etiology, diagnosis and management of short stature; physiological short stature	PE2.4, PE2.5, PE2.6	-----

• **Small Group Teaching: Duration: 2hrs/SGT**

Sr. No.	Topic	Content	Competency No.	SGT Method
1.	Immunization-1	Vaccines in NIS	PE19.1, PE19.3, PE19.4, PE19.7, PE19.8	SGD in immunization OPD
2.	Immunization-2	Optional vaccines	PE19.5, PE19.10, PE19.11, PE19.16	SGD in immunization OPD
3.	Growth-1	Anthropometry and plotting on growth charts	PE1.1, PE1.2, PE1.3, PE1.4	SGD - seminars
4.	Growth - 2	Growth disorders	PE2.1, PE2.2, PE2.3, PE2.4, PE2.5, PE2.6	SGD- case based discussion
5.	Development-1	Normal milestones	PE1.5, PE1.6, PE1.7	SGD seminars
6.	Development-2	Approach to developmental delay	PE3.1, PE3.2, PE3.3, PE3.4	SGD- case based discussion

• **Clinical Postings: (Total weeks : 4, Days- 24 x 3 hours per day =72 hours)**

Day of posting	Topic/s	Compenets	Competency	Hours	Teaching learning method
2 day	Fever with rash (3 cases)	Identify different types of rash and their causes e.g. Measles, Chicken Pox etc.	PE34.15, PE34.18, PE34.20	6 hours	Small group discussion
3 days	Respiratory system examination with 2 cases	Differentiate –Upper versus lower respiratory affection. Localise in the respiratory tract along with type of affection. e.g. Bronchiolitis, Bronchopneumonia, Pneumonia, Croup, Empyema, Asthma	PE28.1, PE28.2, PE28.3, PE28.4, PE28.5, PE28.6, PE28.7, PE28.8, PE28.9, PE28.11, PE28.14, PE28.17, PE28.18	9 hours	Small group discussion, DOAP
1 days	Perabdominal examination	To be able to identify Hepato/ splenomegaly and free fluid in abdomen	PE29.12, PE29.13	3 hours	Bedside clinic
2 days	Hepato Splenomegaly (2 cases)	Clinical approach to Differential diagnosis (Malaria. Typhoid, Hemolytic anemia, Leukemia)	PE26.6, PE26.7, PE29.4, PE29.11, PE29.12, PE29.13, PE29.16, PE29.19, PE29.20	6 hours	Bedside clinic
2 days	CNS examinatiuon	Common symptoms indicative of CNS affection- spasticity, seizures	PE30.18, PE30.19	6 hours	Bedside clinic
2 days	Newborn (2 cases)	History taking, differentiating FT from PT, identifying sick newborn. Eliciting clinical signs like icterus	PE20.2, PE20.4, PE20.5, PE20.6 PE20.7, PE20.19, PE20.20, PE20.22	6 hours	Bedside clinic, DOAP
2 days	CVS Examination (2)	Examination of CVS and Ask relevant history and perform examination to differentiate between cyanotic and Acyanotic heart disease	PE23.3, PE23.7, PE23.8, PE23.9, PE23.10	6 hours	Bedside clinic
1 day	AGE	History and clinical features to identify grades of dehydration To be able to prepare and advise ORS therapy	PE24.1, PE24.2, PE24.3	3 hours	DOAP

1 day	PEM	Dietary history taking, Identify and classify SAM and MAM	PE10.1, PE10.2, PE10.3, PE10.5, PE10.6	3 hours	DOAP, bedside clinic
2 days	Anemia	Identify anemia. Appropriate history to identify the cause. Clinical signs in Nutritional anemia and Thalassemia/Sickle cell	PE13.3, PE13.4, PE13.5, PE13.6, PE29.1, PE29.3, PE29.3	6 hours	Bedside clinic
5 days	IMNCI	IMNCI Module: 2 months to 2 years: Danger signs , identification of severe pneumonia, severe dehydration, Severe malnutrition, meningitis, severe measles, mastoiditis etc.	PE16.1, PE16.2, PE16.3, PE21.1, PE21.11, PE24.9, PE24.10, PE24.11, PE28.15	15 hours	DOAP
End of Clinical posting Examination					

BLOCK 2

- Lectures: Total 17: Duration : One hr/Lecture

No.	Topic	Content	Competency	Integration

1.	Breast feeding and lactation management	Physiology of lactation, composition of breast milk, initiation and teaching of feeding. Hazards of pre lacteal feed, bottle feeding	PE7.1, PE7.2, PE7.3, PE7.4, PE7.5, PE7.6 PE7.7, PE7.8	
2.	Infant feeding	Normal requirement of proteins, CHO, fats for infants and children. Complementary feeds and method of weaning	PE8.1, PE8.2, PE8.3, PE8.4, PE8.5	
3.	Normal fluid and electrolyte balance	Normal fluid and electrolyte composition of body fluids. Regulation of fluid and electrolyte balance esp. Na and K. Causes and treatment of hypo and hypernatremia, hypo and hyperkalaemia.	PE15.1, PE15.2, PE15.3, PE15.5	
4.	Diarrhea with dehydration	Etiopathogenesis, clinical differentiation of watery and invasive diarrhea, complications of diarrheal illnesses.	PE24.1, PE24.2, PE24.3, PE24.4, PE24.5, PE24.8, PE24.9	
5.	Acute maculopapular exanthematous illnesses	Epidemiology, basic pathology, natural history, symptoms, signs, complications, investigations, differential diagnosis of maculopapular illnesses.	PE34.15, PE34.18, PE34.20	
6.	Acute vesicobullous exanthematous illnesses	Epidemiology, basic pathology, natural history, symptoms, signs, complications, investigations, differential diagnosis of vesicobullous illnesses.	PE34.15, PE34.18, PE34.20	
7.	Nutritional anaemia	Clinical approach to child with anaemia.	PE13.3, PE13.4, PE13.5, PE13.6,	
8.	Haemolytic anaemia	Concept of haemolytic anaemia, different causes, lab approach	PE29.1, PE29.3, PE29.3	
9.	Childhood TB	Tuberculous infection versus disease, primary and post primary TB, diagnostic criteria in children vs adults, Technique and interpretation of Mantoux and BCG test, Xray patterns *Routes of transmission, common clinical features, establishing diagnosis by appropriate investigations, categorization and RNTCP guidelines for treatment	PE34.1, PE34.2, PE34.4, PE34.7, PE34.10, PE34.13	Pulmonary medicine
10.	Hypothyroidism	Congenital hypothyroidism,. Neonatal screening for hypothyroidism	PE33.1, PE33.2, PE33.3	
11.	Acute respiratory illnesses	Approach to a child with respiratory distress, stridor, and wheezing, grading severity. National ARI program	PE28.1, PE28.2, PE28.3, PE28.4, PE28.5, PE28.6,	
12.	Upper respiratory tract infections - Croup syndrome	Etiopathogenesis, clinical features, complications, investigations, differential diagnosis and management of - *Upper respiratory conditions- Croup syndrome, foreign body	PE28.1, PE28.2, PE28.3, PE28.4, PE28.5, PE28.6,	
13.	Lower respiratory tract infections	Etiopathogenesis, clinical features, complications, investigations, differential diagnosis and management of - LRTI	PE28.9, PE28.11, PE28.14, PE28.17, PE28.18	
14.	Urinary tract infections	Prevalence and aetiology of urinary tract infections, clinical manifestations, classification, pathogenesis, complications, diagnosis and treatment.	PE21.1	

		Predisposing factors especially conditions like Posterior urethral valves,		
15.	Acute glomerular nephritis, Haemolytic uremic syndrome	Causes and diagnosis of haematuria. Etiopathogenesis, clinical features, diagnosis, complications and management of acute post-streptococcal glomerulonephritis	PE21.2, PE21.4	
16.	Nephrotic syndrome	Causes and diagnosis of haematuria. Etiopathogenesis, clinical features, diagnosis, complications and management of nephrotic syndrome	PE21.3	
17.	Acute flaccid paralysis	Common causes of AFP- Polio, GBS. Clinical localization of the lesion causing AFP. Relevant investigations to confirm diagnosis.	PE30.13	
18.	Theory Examination			

• **Small Group Teaching: Duration: 2hrs/SGT**

Sr. No.	Topic	Content	Competency No.	SGT Method
1.	PEM-1	Nutritional assessment	PE9.2, PE9.3, PE9.4, PE9.5	SGD, bedside
2.	PEM-2	Marasmus and Kwashiorkor	PE9.6, PE10.1, PE10.2, PE10.3, PE10.4, PE10.5, PE10.6	SGD, bedside
3.	AGE-1	Clinical features and various types	PE24.1, PE24.2,	SGD, bedside
4.	AGE - 2	Management of dehydration	PE24.3, PE24.4, PE24.5, PE24.8, PE24.13, PE24.14	SGD, bedside
5.	Vitamin-1 (A and B complex)	Etiopathogenesis, clinical features, management	PE12.1, PE12.2, PE12.3, PE12.4, PE12.5, PE12.15, PE12.16, PE12.17, PE12.18	SGD
6.	Vitamin-2 (C, D K)	Etiopathogenesis, clinical features, management	PE12.19, PE12.20, PE19.21, PE12.6, PE12.7, PE12.8, PE12.9, PE12.10, PE12.13, PE12.14	SGD
7.	Childhood Tb	Evaluation and management	PE34.1, PE34.2, PE34.3, PE34.4, PE34.5, PE34.8	SGD
8.	Introduction to newborn	Neonatal nomenclature, characteristics of normal neonate, assessment and care of normal newborn	PE20.1, PE20.2, PE20.4	SGD, bedside
9.	Interpretation of CBC	How to interpret CBC	PE29.14	SGD

Bharati Vidyapeeth Deemed To Be University Medical College Pune

MBBS-Phase III- Part I

Block I and Block II

DEPARTMENT OF ORTHOPAEDICS

LECTURES SCHEDULE: DURATION: ONE HR/LECTURE

Lecture no.	Topic	Content	Competency	Integration
1.	Fractures	Classification of Fractures, Fracture Healing, Complications of Fractures	OR 2.15	Human Anatomy
2.	Skeletal Trauma, PolyTrauma	Shock – Aetiopathogenesis, Clinical Features, Investigations, & Principles of Management	OR 1.2	General Surgery
3.	Skeletal Trauma, PolyTrauma	Principles of Triage, Pre Hospitalisation, Care & Management of PolyTrauma Victim	OR 1.1	General Surgery Anaesthesiology
4.	Skeletal Trauma, PolyTrauma	Soft Tissue Injuries, Ligament & Muscle. Tears Clinical Features, Investigation & Management	OR 1.3 OR 1.4	General Surgery
5.	Skeletal Trauma, PolyTrauma	Dislocations of Shoulder, Elbow, Hip & Knee	OR 1.5	----
6.	Fractures	Compound / Open Fracture C/F, Investigations & Principles of Management	OR 2.16	Human Anatomy
7.	Fractures	Fractures & Dislocation of Cervical, Dorsal & Lumbar Spine	OR 2.8	Human Anatomy
8.	Fractures	Fractures of Clavicle, Proximal Humerus. Humerus, Shaft & Lower End Humerus	OR 2.1 OR 2.2 OR 2.4	Human Anatomy
9.	Fractures	Fractures of Radius Ulna – Proximal, Middle and Lower End (including Monteggia + Galeazzi + Colles')	OR 2.5 OR 2.6	Human Anatomy
10.	Fractures	Fractures of Proximal Femur	OR 2.10 OR 2.9	Human Anatomy
11.	Fractures	Fractures of Pelvis + Acetabulum	OR 2.7 OR 2.9	Human Anatomy
12.	Fractures	Fractures of Femur Shaft & Fat Embolism	OR 2.12	Human Anatomy
13.	Fractures	Fractures of Distal End Femur, Patella and Proximal Tibia	OR 2.11	Human Anatomy
14.	Fractures	Fractures of Shaft of Tibia & L/E Tibia, Ankle Fracture – Dislocations	OR 2.11 OR 2.14	Human Anatomy
15.	Fractures	Fractures of Calcaneum + Foot	OR 2.13	Human Anatomy
16.	Theory / Term end examination			01 hours

Small group teaching Schedule: Duration: One hr/SGT

Sr. No.	Topic	Content	Competency No.	SGT Method*
1.	Fractures	Osteology of Upper Limb + Osteology of Lower Limb	AN 2.5 AN 8.4 AN 8.6	Tutorial
2.	Fractures	Osteology of Spine + Osteology of Shoulder and Pelvic Girdle	AN 2.5 AN 8.4	Tutorial
3.	Fractures Procedural Skills	Tourniquet + Plaster Techniques	OR 1.6 OR 2.15 OR 2.16 OR 13.1 OR 13.2	Tutorial + DOAP
4.	Fractures	X-Ray's Upper Limb Lower Limb Spine Pelvis	OR 2.15	Tutorial
5.	Fractures	Implants Plates Screws Nails	OR 2.2 OR 2.4 OR 2.5 PR 2.6 OR 2.10 OR 2.11 OR 2.12	Tutorial
6.	Degenerative Disorders	Hip Examination + Knee Examination	OR 2.3 OR 3.1 OR 4.1 OR 12.1 OR 9.1	Tutorial + DOAP
7.	Peripheral Nerve Injuries	Nerve Examination Upper Limb + Nerve Examination Lower Limb	OR 11.1	Tutorial + DOAP
8.	Fractures	Examination of Non Union / Malunion and Chronic Osteomyelitis	OR 2.15 OR 3.3	Tutorial
9.	Bone Tumors Counseling Skills	Specimens + Orthotics & Prosthetics	OR 3.1 OR 3.3 OR 10.1 OR 14.2	Tutorial
10	Fractures Procedural Skills	Traction Devices & systems in Orthopaedics Implants - External Fixator UMEX	OR 2.16 OR 13.1 OR 14.1	Tutorial
11.		TERM END EXAM		02 hours

Bharati Vidyapeeth Deemed To Be University Medical College Pune
MBBS-Phase III- Part I
Block I and Block II
DEPARTMENT OF ORTHOPAEDICS

Clinical Posting Schedule:

(Total weeks 4; 24 days x 3hours per day = 72 hours)

Day of posting	Topic/s	Competency	Hours	Teaching learning method: bedside clinic/ Skills lab/ Clinical clerkship
1.	Malunited Fracture Lower End Radius	OR 2.15	3 hours	Bedside Clinic / Clinical Clerkship
2.	Ulnar Nerve Palsy + Median Nerve Palsy	OR 2.15 OR 11.1	3 hours	Bedside Clinic /
3.	Radial Nerve Palsy	OR 2.15 OR 11.1	3 hours	Clinical Clerkship
4.	Foot Drop	OR 2.15 OR 11.1	3 hours	Bedside Clinic /
5.	Splinting / Plastering of Upper Limb	OR 13.1 OR 13.2	3 hours	Skill Lab
6.	CTEV	OR 12.1	3 hours	Bedside Clinic /
7.	Rheumatoid Arthritis Both Hips	OR 5.1	3 hours	Clinical Clerkship
8.	Osteochondroma Lower End Femur	OR 10.1	3 hours	Bedside Clinic /
9.	Non Union Fracture Shaft Of Tibia	OR 2.15	3 hours	Clinical Clerkship
10.	Splinting / Plastering of Lower Limb	OR 13.1 OR 13.2	3 hours	Skill Lab
11.	Genu Varum Deformity Of Knees	OR 7.1	3 hours	Bedside Clinic /

12.	Giant Cell Tumor Upper End Tibia	OR 10.1	3 hours	Clinical Clerkship
13.	Infected Non Union Fracture Shaft Of Tibia Fibula	OR 2.15 OR 2.16	3 hours	Bedside Clinic /
14.	Tuberculosis Of Knee Joint	OR 4.1	3 hours	Clinical Clerkship
15.	Resuscitation of PolyTrauma Patient	OR 1.1 OR 1.2 OR 13.2OR 14.3	3 hours	Skill Lab
16.	Cubitus Varus Deformity Of Elbow	OR 2.15	3 hours	Bedside Clinic /
17.	Internal Derangement Of Knee ACL Tear	OR 1.6 OR 2.3 OR 3.2 OR 13.1	3 hours	Clinical Clerkship
18.	Volkman's Ischaemic Contracture Of Forearm	OR 2.4 OR 2.5 OR 2.15	3 hours	Bedside Clinic /
19.	Chronic Osteomyelitis Shaft Of Tibia	OR 2.15 OR 3.1 OR 3.3	3 hours	Clinical Clerkship
20.	Closed Reduction of Joints	OR 1.6	3 hours	Skill Lab
21.	Post Polio Residual Paralysis	OR 8.1	3 hours	Bedside Clinic /
22.	Genu Valgum Deformity Of Knees	OR 7.1	3 hours	Clinical Clerkship
23.	Developmental Dysplasia of Hip	OR 12.1	3 hours	Bedside Clinic /
24.	End of Clinical Posting Examination		3 hours	

Bharati Vidyapeeth (DTU) Medical College, Pune

MBBS-Phase III- Part I

Block I

DEPARTMENT OF FORENSIC MEDICINE AND TOXICOLOGY

Lectures Schedule: Duration: One hr/Lecture

Lecture no.	Date	Topic	Content	Competency	Integration
1	04/02/22	MLA of Injury	Mechanical injuries and wounds: Define injury, assault & hurt. Describe IPC pertaining to injuries	FM3.4	-
			Mechanical injuries and wounds: Describe accidental, suicidal and homicidal injuries. Describe simple, grievous and dangerous injuries. Describe ante-mortem and post-mortem injuries	FM3.5	
			Describe factors influencing infliction of injuries and healing, examination and certification of wounds and wound as a cause of death: Primary and Secondary	FM3.7	
2	11/02/22	Thermal Death	Describe types of injuries, clinical features, patho-physiology, post- mortem findings and medico-legal aspects in cases of burns, scalds, lightening, electrocution and radiations	FM2.25	-
3	18/02/22	Thermal Death	Describe types of injuries, clinical features, patho-physiology, post- mortem findings and medico-legal aspects in cases of burns, scalds, lightening, electrocution and radiations	FM2.25	-
4	25/02/22	Mechanical Asphyxia	Mechanical asphyxia: Define, classify and describe asphyxia and medico-legal interpretation of post-mortem findings in asphyxial deaths	FM2.20	-
5	04/03/22	Mechanical Asphyxia	Mechanical asphyxia: Describe and discuss different types of hanging and strangulation including clinical findings, causes of death, post-mortem findings and medico-legal aspects of death due to hanging and strangulation including examination, preservation and dispatch of ligature material	FM2.21	-
6	11/03/22	Mechanical Asphyxia	Mechanical asphyxia: Describe and discuss patho-physiology, clinical features, post- mortem findings and medico-legal aspects of traumatic asphyxia, obstruction of nose & mouth, suffocation and sexual asphyxia	FM2.22	-
7	18/03/22	Mechanical Asphyxia	Describe and discuss types, patho-physiology, clinical features, post mortem findings and medico-legal aspects of drowning, diatom test and, gettler test.	FM2.23	-
8	25/03/22	Sexual Offences	Describe different types of sexual offences. Describe various sections of IPC regarding rape including definition of rape (Section 375 IPC), Punishment for Rape (Section 376 IPC) and recent amendments notified till date	FM3.13	Obstetrics & Gynaecology
			SEXUAL OFFENCES: Describe and discuss the examination of the victim of an alleged case of rape, and the preparation of report, framing the opinion and preservation and dispatch of trace evidences in such cases	FM3.14	
9	01/04/22	Sexual Offences	SEXUAL OFFENCES: Describe and discuss examination of accused and victim of sodomy, preparation of report, framing of opinion, preservation and dispatch of trace evidences in such cases	FM3.15	-
			SEXUAL OFFENCES: Describe and discuss adultery and unnatural sexual offences- sodomy, incest, lesbianism, buccal coitus, bestiality, indecent assault and preparation of report, framing the opinion and preservation and dispatch of trace evidences in such cases	FM3.16	

10	08/04/22	State Medicine	Describe the functions and role of Medical Council of India and State Medical Councils	FM4.3	-
			Describe the Indian Medical Register	FM4.4	
			Describe Medical Ethics and explain its historical emergence	FM4.1	
			Describe the Code of Medical Ethics 2002 conduct, Etiquette and Ethics in medical practice and unethical practices & the dichotomy	FM4.2	
			Demonstrate respect to laws relating to medical practice and Ethical code of conduct prescribed by Medical Council of India and rules and regulations prescribed by it from time to time	FM4.28	
11	15/04/22	State Medicine	Rights/privileges of a medical practitioner, penal erasure, infamous conduct, disciplinary Committee, disciplinary procedures, warning notice and penal erasure	FM4.5	-
			Describe the Laws in Relation to medical practice and the duties of a medical practitioner towards patients and society	FM4.6	
			Enumerate rights, privileges and duties of a Registered Medical Practitioner. Discuss doctor- patient relationship: professional secrecy and privileged communication	FM4.24	
			Describe communication between doctors, public and media	FM4.10	
			Describe the Consumer Protection Act-1986 (Medical Indemnity Insurance, Civil Litigations and Compensations), Workman's Compensation Act & ESI Act	FM4.8	
12	22/04/22	State Medicine	Describe and discuss euthanasia	FM4.11	-
			Describe & discuss the challenges in managing medico-legal cases including development of skills in relationship management – Human behaviour, communication skills, conflict resolution techniques	FM4.14	
			Describe the principles of handling pressure – definition, types, causes, sources and skills for managing the pressure while dealing with medico-legal cases by the doctor	FM4.15	
			Describe and discuss Bioethics	FM4.16	
			Describe and discuss ethical Principles: Respect for autonomy, non- malfesance, beneficence & justice	FM4.17	
			Clinical research & Ethics	FM4.25	
			Discuss human experimentation including clinical trials	FM4.26	
			Discuss the constitution and functions of ethical committees	FM4.26	
			Describe and discuss Ethical Guidelines for Biomedical Research on Human Subjects & Animals	FM4.27	
Discuss legal and ethical issues in relation to stem cell research	FM4.12				
13	29/04/22	State Medicine	Describe and discuss medical negligence including civil and criminal negligence, contributory negligence, corporate negligence, vicarious liability, Res Ipsa Loquitor, prevention of medical negligence and defenses in medical negligence litigations	FM4.18	AETCOM
			Define Consent. Describe different types of consent and ingredients of informed consent. Describe the rules of consent and importance of consent in relation to age, emergency situation, mental illness and alcohol intoxication	FM4.19	
			Describe therapeutic privilege, Malingering,	FM4.20	

			Therapeutic Misadventure, Professional Secrecy, Human Experimentation		
			Describe Products liability and Medical Indemnity Insurance	FM4.21	
			Explain Oath – Hippocrates, Charaka and Sushruta and procedure for administration of Oath.	FM4.22	
			Describe the modified Declaration of Geneva and its relevance	FM4.23	
14	13/05/22	General Toxicology	Describe the history of Toxicology	FM8.1	Pharmacology
			Define the terms Toxicology, Forensic Toxicology, Clinical Toxicology and poison	FM8.2	
			Describe the various types of poisons, Toxicokinetics, and Toxicodynamics and diagnosis of poisoning in living and dead	FM8.3	
15	27/05/22	General Toxicology	Describe the general symptoms, principles of diagnosis and management of common poisons encountered in India	FM8.6	-
			Describe basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination	FM8.8	
16	03/06/22	General Toxicology	Describe Medico-legal autopsy in cases of poisoning	FM8.5	-
			Describe the Laws in relations to poisons including NDPS Act, Medico-legal aspects of poisons	FM8.4	
			Describe the procedure of intimation of suspicious cases or actual cases of foul play to the police, maintenance of records, preservation and dispatch of relevant samples for laboratory analysis.	FM8.9	
17	10/06/22	Caustics	Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to: Caustics Inorganic – sulphuric, nitric, and hydrochloric acids	FM9.1	-
18	17/06/22	Caustics	Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to: Caustics Organic- Carbolic Acid (phenol), Oxalic and acetylsalicylic acids	FM9.1	-
19	24/06/22	Metallic irritants	Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to Arsenic, lead	FM9.3	-
20	01/07/22	Metallic irritants	Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to mercury, copper, iron, cadmium and thallium	FM9.3	-
21	08/07/22	Forensic Psychiatry	Classify common mental illnesses including post-traumatic stress disorder (PTSD)	FM5.1	Psychiatry
			Define, classify and describe delusions, hallucinations, illusion, lucid interval and obsessions with exemplification	FM5.2	
			Describe Civil and criminal responsibilities of a mentally ill person	FM5.3	
			Differentiate between true insanity from feigned insanity	FM5.4	
			Describe & discuss Delirium tremens	FM5.5	

Bharati Vidyapeeth Deemed To Be University Medical College Pune

MBBS-Phase III- Part I

Block II

DEPARTMENT OF FORENSIC MEDICINE AND TOXICOLOGY

Lectures Schedule: Duration: One hr/lecture

Lecture no.	Date	Topic	Content	Competency	Integration
1	05/08/22	Impotency, Sterility	Define and discuss impotence, sterility, frigidity, sexual dysfunction, premature ejaculation. Discuss the causes of impotence and sterility in male and female	FM3.22	-
			Discuss Sterilization of male and female, artificial insemination, Test Tube Baby, surrogate mother, hormonal replacement therapy with respect to appropriate national and state laws	FM3.23	
			Discuss the relative importance of surgical methods of contraception (vasectomy and tubectomy) as methods of contraception in the National Family Planning Programme	FM3.24	
			Discuss the major results of the National Family Health Survey	FM3.25	
			Discuss the national Guidelines for accreditation, supervision & regulation of ART Clinics in India	FM3.26	
2	12/08/22	Abortion	Define, classify and discuss abortion, methods of procuring MTP and criminal abortion and complication of abortion. MTP Act 1971	FM3.27	Obstetrics & Gynaecology,
			Describe evidences of abortion - living and dead, duties of doctor in cases of abortion, investigations of death due to criminal abortion	FM3.28	
3	26/08/22	Infanticide	Define and discuss infanticide, foeticide and stillbirth	FM2.27	Pediatrics
			Describe and discuss signs of intrauterine death, signs of live birth, viability of foetus, age determination of foetus, DOAP session of ossification centres, Hydrostatic test, Sudden Infants Death syndrome and Munchausen's syndrome by proxy	FM2.28	
			Describe and discuss child abuse and battered baby syndrome	FM3.29	
4	02/09/22	Agricultural poisons	Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to	FM9.5	General Medicine

			Organophosphates, Carbamates		
5	09/09/22	Agricultural poisons	Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to Organochlorines, Pyrethroids, Paraquat, Aluminium and Zinc phosphide	FM9.5	General Medicine
6	16/09/22	Biotoxicology	Describe features and management of Snake bite, scorpion sting, bee and wasp sting and spider bite	FM11.1	General Medicine
7	30/09/22	Alcohol	Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to Ethanol	FM9.4	-
8	07/10/22	Alcohol	Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to methanol, ethylene glycol	FM9.4	-
9	14/10/22	Anti-pyretics	Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to: i. Antipyretics – Paracetamol, Salicylates	FM10.1	Pharmacology
10	21/10/22	Neuropsychotoxicology (Barbiturates and all)- 1	Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to: Neuropsychotoxicology Barbiturates, benzodiazepins phenytoin, lithium, haloperidol, neuroleptics, tricyclics	FM10.1	Pharmacology
11	28/10/22	Narcotic Analgesics, Anaesthetics, and Muscle Relaxants	Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to: Narcotic Analgesics, Anaesthetics, and Muscle Relaxants	FM10.1	Pharmacology
12	04/11/22	Narcotic Analgesics, Anaesthetics, and Muscle Relaxants	Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to: Narcotic	FM10.1	Pharmacology

			Analgesics, Anaesthetics, and Muscle Relaxants		
		Substance abuse	Describe features and management of abuse/poisoning with following camicals: Tobacco, cannabis, amphetamines, cocaine, hallucinogens, & solvent	FM12.1	-
13	18/11/22	Torture	Describe and discuss issues relating to torture, identification of injuries caused by torture and its sequalae, management of torture survivors	FM3.30	AETCOM
			Torture and Human rights Describe and discuss guidelines and Protocols of National Human Rights Commission regarding torture	FM3.31	
			Should be able to demonstrate the professionalism while dealing with victims of torture and human right violations, sexual assaults- psychological consultation, rehabilitation	FM3.33	
			Describe special protocols for conduction of medico-legal autopsies in cases of death in custody or following violation of human rights as per National Human Rights Commission Guidelines	FM2.15	

Bharati Vidyapeeth Deemed To Be University Medical College Pune

MBBS-Phase III- Part I

Block I

DEPARTMENT OF FORENSIC MEDICINE AND TOXICOLOGY

Small group teaching Schedule:Duration: One hr/SGT

Sr. No.	Topic	Content	Competency No.	SGT Method*
1	Sickness certificate	Describe the importance of documentation in medical practice in regard to medicolegal examinations, Medical Certificates and medicolegal reports especially - documents of issuance of sickness and fitness certificate.	FM1.9	Demonstration
2	Demo- Autopsy	Conduct & prepare post-mortem examination report of varied etiologies (at least 15) in a simulated/ supervised environment	FM14.5	Group discussion
3	MLA of Injury	Mechanical injuries and wounds: Define injury, assault & hurt. Describe IPC pertaining to injuries	FM3.4	Tutorial
		Mechanical injuries and wounds: Describe accidental, suicidal and homicidal injuries. Describe simple, grievous and dangerous injuries. Describe ante-mortem and post-mortem injuries	FM3.5	
		Describe factors influencing infliction of injuries and healing, examination and certification of wounds and wound as a cause of death: Primary and Secondary	FM3.7	
4	Thermal Death	Describe the clinical features, post-mortem finding and medicolegal aspects of injuries due to physical agents like heat or cold	FM2.24	Tutorial
		Describe types of injuries, clinical features, patho-physiology, post-mortem findings and medico-legal aspects in cases of burns, scalds, lightening, electrocution and radiations	FM2.25	
5	Samples for DNA Fingerprinting	To collect, preserve, seal and dispatch exhibits for DNA-Finger printing using various formats of different laboratories.	FM14.21	Group discussion
6	Radiographs	Identification	FM3.2	Demonstration
		Mechanical Injuries	FM3.6	
		Firearm Injuries	FM3.10	
7	Expert witness	To give expert medical/ medico-legal evidence in Court of law	FM14.22	Group discussion
8	Dying declaration	To record and certify dying declaration in a simulated/ supervised environment	FM14.20	Group discussion
9	Photographs	Identification, Forensic Pathology, Mechanical Injuries, Firearm Injuries, Toxicology	FM3.2	Demonstration
10	Specimens		FM2.9	
			FM3.3	Demonstration
			FM3.10	
		FM14.17		
11	Examination of victim	To examine & prepare medico-legal report of a victim of sexual offence/unnatural sexual offence in a simulated/ supervised environment	FM14.15	Group discussion
12	Examination of alleged accused	To examine & prepare report of an alleged accused in rape/unnatural sexual offence in a simulated/ supervised environment	FM14.14	Group discussion
13	Sexual paraphilia	Describe and discuss the sexual perversions fetishism, transvestism, voyeurism, sadism, necrophagia, masochism, exhibitionism, frotteurism, Necrophilia	FM3.17	Seminar
14	Injury 1 (Mechanical)	Mechanical injuries and wounds: Define, describe and classify different types of mechanical injuries, abrasion, bruise, laceration, stab wound, incised wound, chop wound, defense wound, self-inflicted/fabricated wounds and their medico-legal aspects	FM3.3	Tutorial
15	Forensic Laboratory investigation in medical legal practice	Describe different types of specimen and tissues to be collected both in the living and dead: Body fluids (blood, urine, semen, faeces saliva), Skin, Nails, tooth pulp, vaginal smear, viscera, skull, specimen for histo-pathological examination, blood grouping, HLA Typing and DNA Fingerprinting.	FM6.1	Group discussion

		Describe Locard's Exchange Principle		
16	Forensic Laboratory investigation in medical legal practice	Describe the methods of sample collection, preservation, labelling, dispatch, and interpretation of reports	FM6.2	
		Demonstrate professionalism while sending the biological or trace evidences to Forensic Science laboratory, specifying the required tests to be carried out, objectives of preservation of evidences sent for examination, personal discussions on interpretation of findings	FM6.3	
17	Documents. Medical Records	Describe the importance of documentation in medical practice in regard to medicolegal examinations, Medical Certificates and medicolegal reports especially - maintenance of patient case records, discharge summary, prescribed registers to be maintained in Health Centres. - maintenance of medico-legal register like accident register.	FM1.9	Group discussion
18	Examination of blood, hair, fiber, semen and other body fluids	Demonstrate and interpret medico-legal aspects from examination of hair (human & animal) fibre, semen & other biological fluids	FM14.6	Group discussion
		Demonstrate & identify that a particular stain is blood and identify the species of its origin	FM14.7	
		Demonstrate the correct technique to perform and identify ABO & RH blood group of a person	FM14.8	
19	Mechanical Asphyxia	Define, classify and describe asphyxia and medico-legal interpretation of post-mortem findings in asphyxial deaths	FM2.20	Tutorial
		Describe and discuss different types of hanging and strangulation including clinical findings, causes of death, post-mortem findings and medico-legal aspects of death due to hanging and strangulation including examination, preservation and dispatch of ligature material	FM2.21	
		Describe and discuss patho-physiology, clinical features, post-mortem findings and medico-legal aspects of traumatic asphyxia, obstruction of nose & mouth, suffocation and sexual asphyxia	FM2.22	
		Describe and discuss types, patho-physiology, clinical features, post mortem findings and medico-legal aspects of drowning, diatom test and, gettler test.	FM2.23	
20	Demo- Autopsy	Conduct & prepare post-mortem examination report of varied etiologies (at least 15) in a simulated/ supervised environment	FM14.5	Group discussion
21	Mass disaster	Demonstrate ability to use local resources whenever required like in mass disaster situations	FM2.33	Seminar
		Demonstrate ability to use local resources whenever required like in mass disaster situations	FM2.34	
22	Gastric lavage	Describe basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination	FM8.8	Group discussion
23	Clinical Examination of patient of poisoning	Demonstrate the correct technique of clinical examination in a suspected case of poisoning & prepare medico-legal report in a simulated/ supervised environment	FM14.2	Group discussion
24	Viscera preservation technique	Assist and demonstrate the proper technique in collecting, preserving and dispatch of the exhibits in a suspected case of poisoning, along with clinical examination	FM14.3	Demonstration
		Describe and discuss examination of clothing, preservation of viscera on post-mortem examination for chemical analysis and other medico-legal purposes, post-mortem artefacts	FM2.14	
		Describe preservation and dispatch of viscera for chemical analysis	FM8.5	
25	Non-metallic irritants	Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to Phosphorus, Iodine, Barium	FM9.2	Seminar
26	Injury 2	Firearm injuries: Describe different types of firearms including structure and components. Along with description of ammunition propellant	FM3.9	Tutorial

	charge and mechanism of fire-arms, different types of cartridges and bullets and various terminology in relation of firearm – caliber, range, choking		
	Firearm injuries: Describe and discuss wound ballistics-different types of firearm injuries, blast injuries and their interpretation, preservation and dispatch of trace evidences in cases of firearm and blast injuries, various tests related to confirmation of use of firearms	FM3.10	
	Regional Injuries: Describe and discuss regional injuries to head (Scalp wounds, fracture skull, intracranial haemorrhages, coup and contrecoup injuries), neck, chest, abdomen, limbs, genital organs, spinal cord and skeleton	FM3.11	
	Regional Injuries Describe and discuss injuries related to fall from height and vehicular injuries – Primary and Secondary impact, Secondary injuries, crush syndrome, railway spine	FM3.12	

*SGT Method-Group discussion/ Tutorial/seminar/DOAP/Practical/ skills lab

Bharati Vidyapeeth Deemed To Be University Medical College Pune

MBBS-Phase III- Part I

Block II

DEPARTMENT OF FORENSIC MEDICINE AND TOXICOLOGY

Small group teaching Schedule:Duration : One hr/SGT

Sr. No.	Topic	Content	Competency No.	SGT Method*
1	Forensic Pathology 1	Define, describe and discuss death and its types including somatic/clinical/cellular, molecular and brain-death, Cortical Death and Brainstem Death	FM2.1	Tutorial
		Describe and discuss natural and unnatural deaths	FM2.2	
		Describe and discuss issues related to sudden natural deaths	FM2.3	
		Describe salient features of the Organ Transplantation and The Human Organ Transplant (Amendment) Act 2011 and discuss ethical issues regarding organ donation	FM2.4	
		Discuss moment of death, modes of death - coma, asphyxia and syncope	FM2.5	
		Discuss presumption of death and survivorship	FM2.6	
		Describe and discuss suspended animation	FM2.7	
		Describe and discuss postmortem changes including signs of death, cooling of body, post-mortem lividity, rigor mortis, cadaveric spasm, cold stiffening and heat stiffening	FM2.8	
2	Forensic Pathology 2	Describe putrefaction, mummification, adipocere and maceration	FM2.9	Tutorial
		Discuss estimation of time since death	FM2.10	
		Describe and discuss autopsy procedures including post-mortem examination, different types of autopsies, aims and objectives of post-mortem examination	FM2.11	
		Describe the legal requirements to conduct post-mortem examination and procedures to conduct medico-legal post-mortem examination	FM2.12	
		Describe and discuss obscure autopsy	FM2.13	
3	Veg Irritants	To identify & draw medico-legal inference from common poisons e.g. castor, marking nut, abrus seeds, capsicum	FM14.17	Seminar
4	Metallic irritants	Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to Arsenic, lead, mercury, copper, iron, cadmium and thallium	FM9.3	Tutorial
5	Delirients	To identify & draw medico-legal inference from common poisons e.g. dhatura, cannabis, calotropis	FM14.17	Seminar
6	Agricultural poisons	Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to Organophosphates, Carbamates, Organochlorines, Pyrethroids, Paraquat, Aluminium and Zinc phosphide	FM9.5	Tutorial
7	Asphyxiants	Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to Ammonia, carbon monoxide, hydrogen cyanide & derivatives, methyl isocyanate, tear (riot control) gases	FM9.6	Seminar
8	Asphyxiants	Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to Ammonia, carbon monoxide, hydrogen cyanide & derivatives, methyl isocyanate, tear (riot control) gases		
9	Spinal poisons	To identify & draw medico-legal inference from common poisons- Nux vomica	FM14.17	Seminar
10	Cardiotoxic plants	Describe General Principles and basic methodologies in treatment of poisoning: decontamination, supportive therapy, antidote therapy, procedures of enhanced elimination with regard to: Cardiovascular Toxicology Cardiotoxic plants – oleander, odollam,	FM10.1	Seminar

		aconite, digitalis		
11	Medico-legal report on Alcohol intoxication	To examine & prepare medico-legal report of drunk person in a simulated/ supervised environment	FM14.16	Demonstration
12	Snake bite	Describe features and management of Snake bite, scorpion sting, bee and wasp sting and spider bite	FM11.1	Tutorial
13	Toxicology Demo	To identify & draw medico-legal inference from common poisons e.g. dhatura, castor, cannabis, opium, aconite copper sulphate, pesticides	FM14.17	Demonstration
14	Toxicology Demo	compounds, marking nut, oleander, Nux vomica, abrus seeds, Snakes, capsicum, calotropis, lead compounds & tobacco.		
15	Toxicology Demo	To identify & draw medico-legal inference from common poisons e.g. dhatura, castor, cannabis, opium, aconite copper sulphate, pesticides	FM14.17	Demonstration
16	Toxicology Demo	compounds, marking nut, oleander, Nux vomica, abrus seeds, Snakes, capsicum, calotropis, lead compounds & tobacco.		
17	Virginity, Pregnancy, Delivery	Describe anatomy of male and female genitalia, hymen and its types. Discuss the medico-legal importance of hymen. Define virginity, defloration, legitimacy and its medicolegal importance	FM3.18	Tutorial
		Discuss the medicolegal aspects of pregnancy and delivery, signs of pregnancy, precipitate labour superfoetation, superfecundation and signs of recent and remote delivery in living and dead	FM3.19	
		Discuss disputed paternity and maternity	FM3.20	
		Discuss Pre-conception and Pre Natal Diagnostic Techniques (PC&PNDT) - Prohibition of Sex Selection Act 2003 and Domestic Violence Act 2005	FM3.21	
18	Abortion	Define, classify and discuss abortion, methods of procuring MTP and criminal abortion and complication of abortion. MTP Act 1971	FM3.27	Tutorial
		Describe evidences of abortion - living and dead, duties of doctor in cases of abortion, investigations of death due to criminal abortion	FM3.28	
19	Emerging technologies	Enumerate the indications and describe the principles and appropriate use for: DNA profiling, Facial reconstruction, Polygraph (Lie Detector), Narcoanalysis, Brain Mapping, Digital autopsy, Virtual Autopsy, Imaging technologies	FM7.1	Seminar

*SGT Method-Group discussion/ Tutorial/seminar/DOAP/Practical/ skills lab

Bharati Vidyapeeth Deemed To Be University Medical College Pune
MBBS-Phase III- Part I
Block I and Block II
DEPARTMENT OF Community Medicine

Lecture: Duration: One hr/Lecture

Lecture no.	Date	Topic	Content	Competency No.	Integration
1	7-02-2022	Epidemiology and Prevention of Airborne Infection: I	(Chickenpox, Rubella, Measles, Mumps, Influenza.)	CM 8.1	
2	14-02-2022	Airborne Infection:	II Acute Respiratory Tract Infection	CM 8.1	
3	21-02-2022	Airborne Infection III -	Tuberculosis and NTEP	CM 8.1, CM 8.3	
4	28-02-2022	Airborne Infection IV –	SARS/COVID 19	CM 8.1	
5	07-03-2022	Epidemiology and Prevention of Intestinal Infections - I	Diarrheal diseases, Cholera	CM 8.1	Vertical-Medicine
6	14-03-022	Intestinal Infections - II	Viral Hepatitis, Typhoid, Polio	CM 8.1	Vertical-Medicine
7	21-03-022	Test	On topics 1-6	CM 8.1 CM8.3	
8	28-03-022	Epidemiology and Prevention of Arthropod borne diseases - I	Malaria, dengue fever, chickenguniya and Filariasis	CM 8.1	
9	04-04-2022	Zoonotic diseases - II	Rabies ,Plague, Japanese encephalitis, leptospirosis	CM 8.1	
10	11-04-022	Surface Infections - I	Leprosy, STD, AIDS	CM 8.1	
11	18-04-2022	Hospital acquired infections	Epidemiology and prevention	CM 8.1	Vertical Medicine
12	25-04-2022	Guest lecture on IDSP	Definition , types of Surveillance, infectious disease	CM 8.1,8.5,8.7	
13	02-05-2022	MCQ test	On topics 7-12	CM 8.1,8.5,8.7	
14	09-05-2022	MCH-I	ANC, PNC, New-born care	CM10.1,CM 10.2, CM 10.3,CM 10.4	Vertical - OBGY
15	16-05-2022	MCH-II	Programmes related to MCH-JSY, JSSK and other MCH programme	CM 10.5	Vertical - Pediatrics
16	23-05-2022	MCH-III	Adolescent health ,ARSH clinic	CM 10.8, CM 9.1	Vertical - Pediatrics
17	30-05-2022	Geriatric health	Epidemiology, health problems , prevention and various schemes related to old age	CM 12.1-12.4	Vertical Medicine
18	6-06-2022	Mental health I	Problem statement	CM 15.1, CM 15.2	
19	13-06-2022	Mental health II	Prevention, National	CM 15.3	

			Mental health problem		
20	20-06-2022	Disaster management (alignment with FMT)	Definition, types , disaster cycle, disaster preparedness	CM 13.1-13.4	Horizontal Forensic Medicine
21	27-06-2022	Genetics	Classification of genetic disorders, preventive genetics		
22	04-07-2022	Guest lecture on organ donation	Importance, laws related to donation, organ retrieval and donation center criteria	CM 20.4	
23	11-07-2022	Health care delivery system in India I	Central and state level organization	CM 17.1	
24	01-08-2022	Health care delivery system in India II	District and village level organization	CM 17.3	
25	08-08-2022	Demographic and family planning	National population policy, causes of population explosion, vital statistics, Epidemiological transition	CM 9.3,CM 9.4,CM 9.6	
26	22-08-2022	Cancers-	Types of cancer, Epidemiology of common cancers	CM 8.2	Vertical - OBGY
27	29-08-2022	Hypertension with NPCDCC	Epidemiology, risk factors, prevention, DASH diet, National programme, NPCDCS	CM 8.2, CM 8.3	Vertical Medicine
28	05-09-2022	Diabetes with NPCDCC	Epidemiology, risk factors, prevention, diet, management, National programme, NPCDCS	CM 8.2, CM 8.3	Vertical Medicine
29	12-09-2022	Obesity	Epidemiology, various methods of assessment, prevention, diet, management, National programme, NPCDCS	CM 8.2	
30	19-09-2022	Blindness	Epidemiology, types of blindness, prevention, VISION 2020	CM 8.2	
31	26-09-2022	Accidents	Epidemiology, prevention including legislations	CM 8.2	
32	03-10-2022	Nutrition	Surveillance and Rehabilitation	CM 5.5	
33	10-10-2022	National nutritional programmes	Description of seven nutritional programmes in detail	CM 5.6	
34	17-10-2022	Student seminar on National health mission	Content- objectives, strategy, evaluation	CM 8.3	
35	31-10-2022	Essentials of management I	Introduction , material , manpower	CM 8.5,16.1, 16.2	

			management, qualities of a leader and management		
36	07-11-2022	Essentials of management II	Modern management techniques	CM 16.3,16.4	
37	14-11-2022	Recent advances	Digital India , Health Insurance		
38	21-11-2022	Tribal health	Health issues, challenges		
39	28-11-2022	Essential Medicine		CM 19.1 ,19.2,19.3	Vertical-Pharmac
40	MCQ test/Theory paper pattern explanation				

Bharati Vidyapeeth Deemed To Be University Medical College Pune
MBBS-Phase III- Part I
Block I and Block II
DEPARTMENT OF COMMUNITY MEDICINE
Small group teaching Schedule: Duration: 2hrs/SGT

Sr. No.	Topic	Content	Competency No.	SGT Method*
1	Bio medical waste management (Vertical Integration with Micro)	Sources, hazards, Classification, method of disposal, Bio Medical Waste Management Law-2016	14.1,14.2,14.3	Practical demonstration
2	Principles and measures to control disease epidemic	Definition, types of epidemic, measures to control	CM 8.4 CM 20.2	Scenario based small group discussion
3	Investigation of food poisoning	Steps of investigations including report writing , types of food poisoning	CM 8.1 CM 7.7	Scenario based small group discussion
4	Planning cycle	Steps of planning cycle, preplanning phase, implementation , evaluation , modification suggested if any	CM 16.2	Small group discussion
5	Debate on gender issues and empowerment	Gender inequality, status in India, women empowerment, laws related	CM 10.9	Debate in small group
6	Quiz on TB	Epidemiology, problem statement, measurement of the TB burden, management, NTEP	CM 8.1	Quiz participation
7	Evaluation of health education programme	Demonstrate and description of the health education programme indicators	CM 4.3	Small group discussion
8	Family Planning I	methods with advantages and short comings evaluation of contraceptive devices , Family welfare programme, National population policy evaluation of contraceptive devices , Family welfare programme	CM 10.6 CM 10.7	Small group discussion
9	Mindfulness session by Psychiatry faculty	Introduction to the concept, importance, hands on session	CM 15.1, CM 15.2, CM 15.3	Practical
10	Epidemiology Exercises I	measurements in epidemiology, problems on descriptive studies, problems on analytical studies	CM 7.4,CM 7.5 CM 7.4, CM 7.5,	Small group discussion
11	Epidemiology Exercises II	problems on experimental studies, environment health (water)	CM 7.4, CM 3.2, CM 3.6	Small group discussion
12	Biostat Exercises I	Sources, types of data, presentation of data,measures of central tendency and variability,probability and normal curve	CM 6.2, 6.4	Small group discussion
13	Biostat Exercises II	sampling, standard errors of mean and proportions,Test of significance	CM 6.3, CM 6.4	Small group discussion
14	Biostat Exercises III	Corelation, fallacies in Biostatistics, Health information system, statistical	CM 6.2, CM 7.3, CM 7.4, CM 8.7, CM 9.7, CM 6.2,	Small group discussion

		software, role of computer in statistics and epidemiology and screening for disease	CM 7.9, CM 7.6	
15	Nutrition I	sources of nutrients, classification of food cereals , pulses	CM 5.1, CM 5.3	Demonstration in small groups
16	Nutrition II	Nutritional significance of various food groups	CM 5.1, CM 5.3	small group discussion
17	Nutrition III	Balanced diet, nutritional requirement of various physiological groups including pregnancy lactation Nutritional assessment	CM 5.1, CM 5.2	small group discussion
18	Nutrition IV	Therapeutic diet, community Nutritional assessment, nutritional education, nutritional surveillance	CM 5.2, CM 5.4, CM 5.5	Case scenario
19	Tutorial 1	Man and Medicine, concept of Health and disease Principles of Epidemiology and epidemiological methods, screening for the disease	CM1.1-CM1.10 CM7.1-CM7.9	Writing of the theory questions, discussion of the ideal answers by the teacher, Peer assessment and feedback
20	Tutorial 2	Epidemiology of Respiratory and intestinal infections	CM8.1,CM 8.3	Writing of the theory questions, discussion of the ideal answers by the teacher, Peer assessment and feedback
21	Tutorial 3	Epidemiology of arthropod borne diseases and zoonotic diseases,	CM8.1,CM 8.3	Writing of the theory questions, discussion of the ideal answers by the teacher, Peer assessment and feedback
22	Tutorial 4	surface infections, emerging reemerging infections and hospital acquired infections	CM8.1,CM 8.3	Writing of the theory questions, discussion of the ideal answers by the teacher, Peer assessment and feedback
23	Tutorial 5	epidemiology of non communicable diseases Health information and Basic Medical statistics	CM8.2,CM8.3, CM6.1-CM6.4	Writing of the theory questions, discussion of the ideal answers by the teacher, Peer assessment and feedback
24	Tutorial 6	Environment and health, genetics and health,Medicine and social sciences	CM2.1-M2.5,CM 3.1-CM3.8, CM20.1-CM 20.4	Writing of the theory questions, discussion of the ideal answers by the teacher, Peer assessment and feedback
25	Tutorial 7-	Demography and Family Planning Reproductive maternal and child health and Geriatrics	CM9.1- CM9.7,CM10.1-CM10.9 CM 10.1-CM 10.9,CM12.1-CM12.4	Writing of the theory questions, discussion of the ideal answers by the teacher, Peer assessment and feedback
26	Tutorial 8	Nutrition and Health	CM 5.1-CM 5.8	Writing of the theory questions, discussion of the ideal answers by the teacher, Peer assessment and feedback
27	Tutorial 9	Occupational health and Mental health	CM 11.1- CM11.5 CM 15.1-CM 15.3	Writing of the theory questions, discussion of the ideal answers by the teacher, Peer assessment

				and feedback
28	Tutorial 10	Communication for health education, Health planning and management	CM 4.1-CM 4.3,CM16.1-CM16.4	Writing of the theory questions, discussion of the ideal answers by the teacher, Peer assessment and feedback
29	Tutorial 11-	Hospital waste management, disaster management, MDG to SDG	CM 13.1-13.4,CM 14.1-CM14.3	Writing of the theory questions, discussion of the ideal answers by the teacher, Peer assessment and feedback
30				

*SGT Method-Group discussion/ Tutorial/seminar/DOAP/Practical/ skills lab

Batches for small group: 30 students per batch:

Batch	Roll No.s
A	1-30
B	31-60
C	61-90
D	91-120
E	121-150

**Bharati Vidyapeeth Deemed To Be University Medical College Pune
MBBS-Phase III- Part I**

DEPARTMENT OF Community Medicine

Clinical Posting Schedule: 4 weeks

(Total weeks 4; 24 days x 3hours per day = 72hours)

Day of posting	Topic/s	Competency	Hours	Teaching learning method: bedside clinic/ Skills lab/ Clinical clerkship
1	Orientation of the posting	CM10.2-CM10.5,CM2.1-CM2.5	3	Small group discussion
2	#UHC visit	CM 17.5, CM 8.3, CM 19.1 to CM 19.3	3	Educational visit and Small group discussion
3	UHC-Hospital Waste disposal methods	CM 14.1 to CM 14.3, CM 8.7	3	DOAP, Small group discussion
4	UHC- Family planning OPD	CM 9.5,CM9.6, CM 10.6, CM4.3	3	Educational visit and Small group discussion
5	UHC- Immunization OPD	CM 10.5,CM 8.3	3	Educational visit and Small group discussion
6	Reflection		3	
7	UHC- DOTS Center	CM 8.3	3	Educational visit and Small group discussion
8	UHC- ANC OPD	CM 10.3,CM 10.4	3	Small group discussion
9	UHC -Medicine OPD	CM 8.1 to CM 8.5	3	
10	Training session for health workers	CM 8.6	3	DOAP
11	*Extension activity	CM 4.2	3	DOAP
12	Biostatistics revision I	CM 6.2 to CM 6.4	3	Small group discussion
13	Biostatistics revision II	CM 6.2 to CM 6.4	3	Small group discussion
14	Biostatistics revision III	CM 6.2 to CM 6.4	3	Small group discussion
15	Introduction to family health survey	CM 2.1 to CM 2.5	3	Small group discussion
16	Orientation of RHTC	CM 17.1 to Cm 17.5	3	Small group discussion
17	@Family health survey I	CM 2.1 to CM 2.5	3	Small group discussion
18	Family health survey II	CM 2.1 to CM 2.5	3	Small group discussion
19	Reflection and feedback		3	Small group discussion
20	Family health survey III	CM 2.1 to CM 2.5	3	Small group discussion
21	Family health survey IV	CM 2.1 to CM 2.5	3	Small group discussion
22	Reflection and community diagnosis	CM 17.2	3	Small group discussion
23	Visit to milk dairy	CM 5.7	3	Small group discussion
24	Anganwadi visit	CM 5.6, CM 10.2 to CM 10.5	3	Small group discussion
	End of clinical posting exam		3	

Instructions: *Extension activity- Health education session to be planned on the topic of public health importance allotted by the batch teacher and activity to be conducted in the field practice area of UHTC, reflection to be written in the log book. RHTC/UHTC.

#Urban Health Centre of corporation affiliated to the BVDTUMC Pune. To write the reflections of visit in the log book. Vehicle will start at 9:30 am sharp from college porch. Attendance to be signed at two places in vehicle and at UHTC.

@Family health survey each student will be allotted five families the information to be filled via KOBO tool and information of two families to be written in the journal.

**Bharati Vidyapeeth Deemed To Be University Medical College Pune
MBBS-Phase III- Part I**

DEPARTMENT OF Community Medicine

Clinical Posting Schedule: 2weeks

(Total weeks 2; 12 days x 3hours per day = 36hours)

Day of posting	Topic/s	Competency	Hours	Teaching learning method: bedside clinic/ Skills lab/ Clinical clerkship
1	Introduction to case discussion format, Hospital Case discussion- Antenatal case	CM 10.1 -10.4	3	Small group discussion
2	Hospital Case discussion-Post natal case	CM10.1 - CM 10.6	3	Small group discussion
3	*Family Case discussion-Diabetes	CM 8.2- CM 8.5	3	Small group discussion
4	*Family Case discussion-Hypertension	CM 8.2 - CM 8.5	3	Small group discussion
5	Hospital Case discussion- Diarrhea/ARI	CM 8.1 ,CM8.3, CM 8.5	3	Small group discussion
6	Hospital Case discussion-Tuberculosis	CM 8.1 ,CM 8.3 ,CM 8.5	3	
7	Hospital Case discussion-Protein energy malnutrition	CM 8.1 , CM 8.3, CM 8.5	3	Small group discussion
8	Case studies revision	CM 8.1 to CM 8.5	3	
9	Visit to Primary health center	CM 17.1-CM17.5, CM8.1-CM 8.3	3	Small group discussion
10	Museum visit	Multiple competencies	3	
11	Visit to leprosy hospital	CM 8.1 and CM 8.3	3	Small group discussion
12	Reflection		3	Small group discussion
	End of clinical posting exam		3	

*-History taking, examination and presentation to be done in the patients house in the field practice area of UHTC/RHTC.

Bharati Vidyapeeth Deemed To Be University Medical College Pune
MBBS-Phase III- Part I
Block I and Block II

DEPARTMENT OF DERMATOLOGY
Lecture: Duration : One hr/Lecture

Lecture no.	Date	Topic	Content	Competency	Integration
1	01/02/22	Acne	Enumerate the causative and risk factors of acne Describe the treatment and preventive measures for various kinds of acne	DR1.1 DR1.3	
2	08/02/22	Vitiligo	Describe the treatment of vitiligo	DR2.2	
3	15/02/22	Papulosquamous disorders	Enumerate the indications for and describe the various modalities of treatment of psoriasis including topical, systemic and phototherapy	DR3.3	
4	22/02/22	Lichen Planus	Enumerate and describe the treatment modalities for lichen planus	DR4.2	
5	01/03/22	Scabies	Describe the etiology, microbiology, pathogenesis, natural history, clinical features, presentations and complications of scabies in adults and children Enumerate and describe the pharmacology, administration and adverse reaction of pharmacotherapies for scabies	DR5.1 DR5.3	Pediatrics Pediatrics Pharmacology
6	08/03/22	Pediculosis	Describe the etiology pathogenesis and diagnostic features of pediculosis in adults and children	DR6.1	Pediatrics Microbiology
7	15/03/22	Fungal Infections	Describe the etiology, microbiology, pathogenesis and clinical presentations and diagnostic features of dermatophytes in adults and children Describe the pharmacology and action of antifungal (systemic and topical) agents. Enumerate side effects of antifungal therapy	DR7.1 DR7.3	Microbiology Microbiology Pharmacology
8	22/03/22	Viral infections	Describe the etiology, microbiology, pathogenesis and clinical presentations and diagnostic features of common viral infections of the skin in adults and children	DR8.1	Pediatrics Microbiology

			Enumerate the indications and describe the pharmacology, administration and adverse reaction of pharmacotherapies for common viral illnesses of the skin	DR8.7	Pharmacology
9	29/03/22	Leprosy	Classify, describe the epidemiology, etiology, microbiology, pathogenesis, clinical presentations and diagnostic features of Leprosy Enumerate, describe and identify lepra reactions and supportive measures and therapy of lepra reactions	DR9.1 DR9.4	General Medicine Community Medicine Microbiology General Medicine Pharmacology
10	05/04/22	Leprosy	Enumerate the indications and describe the pharmacology, administration and adverse reaction of pharmacotherapies for various classes of leprosy based on national guidelines Describe the treatment of Leprosy based on the WHO guidelines Enumerate and describe the complications of leprosy and its management, including understanding disability and stigma	DR9.5 DR9.6 DR9.7	General Medicine Pharmacology Community Medicine General Medicine Pharmacology Community Medicine General Medicine Pharmacology Psychiatry
11	12/04/22	Sexually Transmitted Diseases	Enumerate the indications and describe the pharmacology, administration and adverse reaction of pharmacotherapies for syphilis Describe the prevention of congenital syphilis	DR10.3 DR10.4	General Medicine Pharmacology Microbiology General Medicine
12	19/04/22	Sexually Transmitted Diseases	Describe the etiology, diagnostic and clinical features of nonsyphilitic sexually transmitted diseases (chancroid, donovanosis and LGV) Enumerate the indications and describe the pharmacology, indications and adverse reactions of drugs used in the nonsyphilitic sexually transmitted diseases (chancroid, donovanosis and LGV)	DR10.6 DR10.8	General Medicine Microbiology General Medicine Pharmacology Microbiology

13	26/04/22	Sexually Transmitted Diseases	Describe the syndromic approach to ulcerative sexually transmitted diseases	DR10.9	General Medicine
			Describe the etiology, diagnostic and clinical features and management of gonococcal and nongonococcal urethritis	DR10.10	General Medicine
			Describe the etiology, diagnostic and clinical features and management of vaginal discharge	DR10.11	Obstetrics & Gynaecology
14	03/05/22	HIV	Describe the etiology, pathogenesis and clinical features of the dermatologic manifestations of HIV and its complications including opportunistic infections	DR11.1	General Medicine Microbiology
			Enumerate the indications and describe the pharmacology, administration and adverse reaction of pharmacotherapies for dermatologic lesions in HIV	DR11.3	General Medicine Microbiology Pharmacology
15	10/05/22	Dermatitis and Eczema	Describe the aetiopathogenesis of eczema	DR12.1	
			Classify and grade eczema	DR12.3	
			Enumerate the indications and describe the pharmacology, indications and adverse reactions of drugs used in the treatment of eczema	DR12.4	
16	17/05/22	Urticaria Angioedema	Describe the etiology, pathogenesis and clinical precipitating features and classification of Urticaria and angioedema	DR14.1	Microbiology Pathology
			Enumerate the indications and describe the pharmacology indications and adverse reactions of drugs used in urticaria and angioedema	DR14.5	Pharmacology
17	24/05/22	Pyoderma	Enumerate the indications and describe the pharmacology, indications and adverse reactions of topical and systemic drugs used in treatment of Pyoderma	DR15.3	General Surgery Microbiology Pharmacology
18	31/05/22	Nutritional Deficiencies and Skin	Enumerate and identify the cutaneous findings in vitamin A Deficiency	DR17.1	General Medicine Pediatrics Biochemistry

			Enumerate and describe the various skin changes in Vitamin B complex deficiency	DR17.2	General Medicine Pediatrics Biochemistry
			Enumerate and describe the various changes in Vitamin C deficiency	DR17.3	General Medicine Pediatrics Biochemistry
			Enumerate and describe the various changes in Zinc deficiency	DR17.4	General Medicine Pediatrics Biochemistry
19	07/06/22	Systemic diseases and the skin	Enumerate the cutaneous features of Type 2 diabetes	DR18.1	General Medicine
			Enumerate the cutaneous features of hypo/hyper-thyroidism	DR18.2	General Medicine
20	14/06/22	Human Anatomy	Describe structure & function of skin with its appendages	AN4.2	Dermatology, Venereology & Leprosy
			Describe modifications of deep fascia with its functions	AN4.4	Dermatology, Venereology & Leprosy
			Explain principles of skin incisions	AN4.5	Dermatology, Venereology & Leprosy
21	21/06/22	Pathology	Describe the risk factors, pathogenesis, pathology and natural history of squamous cell carcinoma of the skin	PA34.1	Dermatology, Venereology & Leprosy
			Describe the risk factors, pathogenesis, pathology and natural history of basal cell carcinoma of the skin	PA34.2	Dermatology, Venereology & Leprosy
			Describe the distinguishing features between a nevus and melanoma. Describe the etiology, pathogenesis, risk factors, morphology, clinical features and metastases of melanoma	PA34.3	Dermatology, Venereology & Leprosy
22	28/06/22	Microbiology	Describe the etio-pathogenesis of Skin and soft tissue infections and discuss the clinical course, and the laboratory diagnosis.	MI4.3	Dermatology, Venereology & Leprosy General Surgery
				MI7.2	Dermatology,

		Pharmacology	Describe the etio-pathogenesis and discuss the laboratory diagnosis of sexually transmitted infections. Recommend preventive measures, wherever relevant. Describe the mechanisms of action, types, doses, side effects, indications and contraindications of antileprotic drugs Describe drugs used in skin disorders	PH1.46 PH1.57	Venereology & Leprosy Obstetrics & Gynaecology Dermatology, Venereology & Leprosy Microbiology Dermatology, Venereology & Leprosy
		Term end Theory examination

(Total weeks 2; 12 days x 3hours per day = 36hours)

Day of posting	Topic/s	Competency	Hours	Teaching learning method: Bedside clinic/ Skills lab/ Clinical clerkship
1	Identify and grade the various common types of acne Identify and differentiate vitiligo from other causes of hypopigmented lesions	DR1.2 DR2.1	6	Bedside clinic
2	Identify and distinguish psoriatic lesions from other causes Demonstrate the grattage test	DR3.1 DR3.2	3	Bedside clinic
3	Identify and distinguish lichen planus lesions from other causes Identify and differentiate scabies from other lesions in adults and children Identify and differentiate pediculosis from other skin lesions in adults and children	DR4.1 DR5.2 DR6.2	6	Bedside clinic
4	Demonstrate (and classify based on) the clinical features of leprosy including an appropriate neurologic examination	DR9.2	3	Bedside clinic
5	Identify and classify syphilis based on the presentation and clinical manifestations Identify and differentiate based on the clinical features non-syphilitic sexually transmitted diseases (chancroid, donovanosis and LGV)	DR10.1 DR10.7	3	Bedside clinic
6	Identify and distinguish the dermatologic manifestations of HIV, its complications, opportunistic infections and adverse reactions	DR11.2	3	Bedside clinic

7	<p>Identify eczema and differentiate it from lichenification and changes of aging</p> <p>Define erythroderma. Enumerate and identify the causes of erythroderma. Discuss the treatment</p> <p>Identify and distinguish exfoliative dermatitis from other skin lesions</p> <p>Identify and distinguish fixed drug eruptions and Steven Johnson syndrome from other skin lesions</p>	<p>DR12.2</p> <p>DR12.5</p> <p>DR12.6</p> <p>DR12.7</p>	3	Bedside clinic
8	<p>Distinguish bulla from vesicles</p> <p>Demonstrate the Tzanck test, nikolsky sign and bulla spread sign</p> <p>Calculate the body surface area of involvement of Vesiculobullous lesions</p>	<p>DR13.1</p> <p>DR13.2</p> <p>DR13.3</p>	3	Bedside clinic
9	<p>Identify and distinguish urticarial from other skin lesions</p> <p>Demonstrate dermographism</p> <p>Identify and distinguish angioedema from other skin lesions</p>	<p>DR14.2</p> <p>DR14.3</p> <p>DR14.4</p>	3	Bedside clinic
10	<p>Identify and distinguish folliculitis impetigo and carbuncle from other skin lesions</p> <p>Identify staphylococcus on a gram stain</p> <p>Identify and distinguish skin lesions of SLE</p> <p>Identify and distinguish Raynaud's phenomenon</p>	<p>DR15.1</p> <p>DR15.2</p> <p>DR16.1</p> <p>DR16.2</p>	2	Bedside clinic
	End of Posting Examination			

Bharati Vidyapeeth Deemed To Be University Medical College Pune
MBBS-Phase III- Part I
Block I and Block II

DEPARTMENT OF PSYCHIATRY
Lectures Schedule: Duration : One hr/Lecture

Lecture no.	Topic	Content	Competency	Integration
1.	Introduction to Psychiatry	Describe the growth of Psychiatry as a medical specialty, its history and contribution to society	PS 3.1	
2.	Diagnosis of common mental disorders and classificatory systems	Enumerate, describe and discuss important signs and symptoms of common mental disorders	PS 3.2	
3.	Neurological basis of behaviour	Functions of cerebral cortex, basal ganglia, thalamus, hypothalamus, limbic system with circuits	PY 8.7 PS 3.6	Physiology
4.	Biopsychosocial model of disease	Describe biological, psychological and social factors and their interactions in the causation of mental disorders	PS 3.6	
5.	Organic Psychiatric disorders	-Enumerate and describe common organic Psychiatric disorders, magnitude, etiology, clinical features Enumerate essential investigations in organic Psychiatric disorders Enumerate pharmacological basis of treatment	PS 3.7 PS 3.8 PS 3.10	General Medicine
6.	Schizophrenia	Classify and describe the magnitude and etiology of Schizophrenia and other psychotic disorders	PS 5.1	
7.	Bipolar disorders	Classify and describe the magnitude and etiology of Bipolar disorders	PS 7.1	
8.	Psychopharmacology	-Enumerate and describe the pharmacological basis and side effects of drugs used to treat in Psychiatric disorders -Enumerate and describe the pharmacological basis and side effects of drugs used in Schizophrenia -Enumerate and describe the pharmacological basis and side effects of drugs used in Bipolar disorders	PS 3.10 PS 5.5 PS 7.6	Pharmacology

9.	Depression	Classify and describe the magnitude and etiology of depression	PS 6.1	
10.	Anxiety disorders- GAD, Panic, Phobias	Enumerate and describe the magnitude and etiology of anxiety disorders	PS 8.1	
11.	OCD and stress related disorders- Stress reaction, PTSD	Enumerate and describe the magnitude and etiology of anxiety and stress related disorders	PS 8.1 PS 9.1	
12.	Treatment of Depression and anxiety and stress related disorders	Describe the treatment of depression including behavior and pharmacotherapy Describe the treatment of anxiety including behavior and pharmacotherapy Describe the treatment of stress disorder including behavior and pharmacotherapy	PS 6.4 PS 8.4 PS 9.4	Pharmacology
13.	Somatoform and Conversion disorders	Enumerate and describe the magnitude and etiology of somatoform and conversion disorders	PS 10.1	General Medicine
14.	Personality disorders	Enumerate and describe the magnitude and etiology, clinical features of personality disorders To describe treatment of personality disorders including behavioral, psychosocial and pharmacologic therapy	PS 11.1 PS 11.2 PS 11.4	
15.	Psychosomatic disorders	Enumerate and describe the magnitude and etiology, clinical features of psychosomatic disorders To describe treatment of psychosomatic disorders including behavioral, psychosocial and pharmacologic therapy	PS 12.1 PS 12.2 PS 12.4	General Medicine, Dermatology
16.	Alcohol use disorders	-To describe the magnitude and etiology of alcohol use disorders -To describe indications and interpret lab results in alcohol use disorders -Pharmacological basis and side effects of drugs used in alcohol use disorders -Treatment with psychological management and behavior therapy	PS 4.1 PS 4.3 PS 4.6 PS 4.4	General Medicine
17.	Other Substance use disorders	-To describe the magnitude and etiology of other substance use disorders -To describe indications and interpret lab results in other	PS 4.1 PS 4.3	General Medicine

		<p>substance use disorders</p> <ul style="list-style-type: none"> -Pharmacological basis and side effects of drugs used in other substance use disorders -Treatment with psychological management and behavior therapy 	<p>PS 4.6</p> <p>PS 4.4</p>	
18.	Psychosexual and gender identity disorders	<p>To describe the magnitude and etiology , clinical features of psychosexual disorders and GID</p> <ul style="list-style-type: none"> -To describe indications and interpret lab results in psychosexual disorders and GID -Pharmacological basis and side effects of drugs used in psychosexual disorders and GID -Treatment with psychological management and behavior therapy 	<p>PS 13.1</p> <p>PS 13.2</p> <p>PS 13.3</p> <p>PS 13.6</p> <p>PS 13.4</p>	
19.	Psychiatric disorders in elderly	<ul style="list-style-type: none"> -Enumerate and describe common Psychiatric disorders in elderly – depression, dementia, psychosis - Etiology and magnitude -Therapy including psychosocial and behavioral therapy 	<p>PS 16.1</p> <p>PS 16.2</p> <p>PS 16.3</p>	General Medicine
20.	Psychiatric emergencies	<ul style="list-style-type: none"> -Enumerate and describe the recognition, presentation of psychiatric emergencies- suicide, DSH, violence - Initial stabilization and management of emergencies - Specialist referral 	<p>PS 17.1</p> <p>PS 17.2</p> <p>PS 17.3</p>	
21.	Mental retardation	<ul style="list-style-type: none"> -Describe the etiology and magnitude of mental retardation -Interventions in mental retardation 	<p>PS 15.1</p> <p>PS 15.4</p>	Pediatrics
22.	Childhood & adolescence Psychiatric disorders	<ul style="list-style-type: none"> -Enumerate describe the etiology of child psychiatric disorders -Types and clinical features -Behavioral and psychological management -Pharmacotherapy 	<p>PS 14.1</p> <p>PS 14.2</p> <p>PS 14.3</p> <p>PS 14.6</p>	Pediatrics
23.	Community Psychiatry	<ul style="list-style-type: none"> -Relevance, role of Community Psychiatry Objective strategies of national mental health programme -Salient features of Prevalent mental health laws in India 	<p>PS 19.1</p> <p>PS 19.2</p> <p>PS 19.4</p>	Community Medicine
24.	Theory assessment

DEPARTMENT OF RESPIRATORY MEDICINE
Lectures Schedule: Duration: One hr/Lecture

Lecture no.	Topic	Content	Competency	Integration
1	TB	Describe and discuss the epidemiology of tuberculosis and its impact on the work, life and economy of India	CT 1.1	Community medicine
2	TB	Describe and discuss the microbiology of tubercle bacillus, mode of transmission, pathogenesis, clinical evolution and natural history of pulmonary and extra pulmonary forms (including lymph node, bone and CNS)	CT 1.2	Microbiology
3	TB	Discuss and describe the impact of co-infection with HIV and other co-morbid conditions. Like diabetes on the natural history of tuberculosis Describe the epidemiology, the predisposing factors and microbial and therapeutic factors that determine resistance to drugs	CT 1.3 CT 1.4	Community medicine Microbiology Pharmacology
4	TB	Describe and discuss the pharmacology of various anti-tuberculous agents, their indications, contraindications, interactions and adverse reactions	CT 1.14	Pharmacology
5	TB	Define criteria for the cure of Tuberculosis; describe and recognise the features of drug resistant tuberculosis, prevention and therapeutic regimens Prescribe an appropriate antituberculosis regimen based on the location of disease, smear positivity and negativity and comorbidities based on current national guidelines including directly observed tuberculosis therapy (DOTS)	CT 1.15 CT1.17	Community medicine Pharmacology
6	Obstructive airway disease	Define and classify obstructive airway disease Describe and discuss the epidemiology, risk factors and evolution of obstructive airway disease. Describe and discuss the genetics of alpha 1 antitrypsin deficiency in emphysema	CT 2.1 CT 2.2 CT 2.5	Pathology Physiology
7	Obstructive airway disease	Enumerate and describe the causes of acute episodes in patients with	CT 2.3 CT 2.4	Pathology Physiology

		<p>obstructive airway disease Describe and discuss the physiology and pathophysiology of hypoxia and hypercapnea</p> <p>Describe the role of the environment in the cause and exacerbation of obstructive airway disease</p> <p>Describe and discuss allergic and non-allergic precipitants of obstructive airway disease</p>	<p>CT 2.6 CT 2.7</p>	
8	Obstructive airway disease	<p>Discuss and describe therapies for OAD including bronchodilators, leukotriene inhibitors, mast cell stabilisers, theophylline, inhaled and systemic steroids, oxygen and immunotherapy</p> <p>Describe and discuss the indications for vaccinations in OAD</p> <p>Describe and discuss the principles and use of oxygen therapy in the hospital and at home</p>	<p>CT 2.16 CT 2.17 CT 2.20</p>	Pharmacology
9	Obstructive airway disease	<p>Discuss and describe the impact of OAD on the society and Workplace</p> <p>Discuss and describe preventive measures to reduce OAD in workplaces</p>	<p>CT2.25 CT 2.26</p>	Community medicine
--	Term end examination			10 hours

9	Chest CXR interpretation	CT 2.14	3	Clinical skill
	End of Clinical Posting Examination		3	

Instructions:

Batch will be divided in groups of three and each group will be allotted three beds. Students are supposed to interact with patients on the allotted beds daily and discuss the clinical findings with teacher.

Students will apply their knowledge(whatever they have been taught during lecture) during clinical posting.

Students will enter the case record in his/her journal during clinical posting.

Note:-

For bedside teaching time allotted for

1. History taking-30 min

2. Clinical examination-30 min

3. Discussion – 60 min

4. Interaction with student group regarding beds allotted and discussion - 60 min

DAY-1	Throat case – signs and symptoms, investigation and management with surgical videos	EN 2.1, EN 2.2, EN 2.6 , EN2.7 EN3.4,EN3.5, EN4.39, EN4.42 , EN 4.48 EN 4.49 EN 4.49 EN 4.50 EN 4.50	3 hours	OPD station clinic (Beside clinic)
DAY-2	Nose case -signs and symptoms	EN 2.1 , EN	3 hours	OPD station clinic (Beside

	,investigation and management with surgical videos	2.2 , EN 2.5, EN.3.2EN3.2,EN3.4, EN3.5, EN 4.25 TO EN 4.30,EN 4.33		clinic)
DAY-3	Ear case - signs and symptoms ,investigation and management with surgical videos	EN2.1, EN2.2, EN2.3, EN2.4 EN3.1,EN3.4,EN3.5,EN 4.1 To 4.8, EN 4.10 TO EN 4.12	3 hours	OPD station clinic (Beside clinic)
DAY-4	Head and Neck case - signs and symptoms ,investigation and management with surgical videos	EN2.7, EN 2.11, EN 2.12EN3.3, EN3.5, EN 4.38	3 hours	OPD station clinic (Beside clinic)
DAY-5	Pure tone audiometry , Specimens	EN2.8, EN 4.16 ,EN 4.17	3 hours	OPD station clinic (Beside clinic)
DAY-6	Sunday			
DAY-7	Nose case -signs and symptoms ,investigation and management with surgical videos	EN 2.1 , EN 2.2 , EN 2.5, EN.3.2EN3.2,EN3.4, EN3.5, EN 4.25 TO EN 4.30,EN 4.33	3 hours	OPD station clinic (Beside clinic)
DAY-8	Head and Neck case - signs and symptoms ,investigation and management with surgical videos	EN2.7, EN 2.11, EN 2.12EN3.3, EN3.5, EN 4.38	3 hours	OPD station clinic (Beside clinic)
DAY-9	Xray , OT Instruments	EN2.10, EN2.9	3 hours	OPD station clinic (Beside clinic)
DAY-10	Throat case – signs and symptoms, investigation and management with surgical videos	EN 2.1, EN 2.2, EN 2.6 , EN2.7 EN3.4,EN3.5, EN4.39, EN4.42 , EN 4.48 EN 4.49 EN 4.49 EN 4.50 EN 4.50	3 hours	OPD station clinic (Beside clinic)
DAY-11	Ear case - signs and symptoms ,investigation and management with surgical videos	EN2.1, EN2.2, EN2.3, EN2.4 EN3.1,EN3.4,EN3.5,EN 4.1 To 4.8, EN 4.10 TO EN 4.12	3 hours	OPD station clinic (Beside clinic)

DAY-12	Revision		3 hours	OPD station clinic (Beside clinic)
DAY-13	Sunday			
DAY-14	Exam		3 hours	

Instructions:

To discuss relevant investigation of that particular case during clinic.

Cases

- Ear:** COM (Mucosal, squamosal, with/without complication), AOM, Otosclerosis, Peripheral vertigo, Ototoxicity, DDSL
- Nose :** DNS, Nasal polyposis, Epistaxis
- Throat:** Acute tonsillitis, Membranous tonsillitis, Chronic tonsillitis, Deep neck space abscesses Vocal nodule / palsy/ polyp
- Head and Neck :** Ca maxilla, Ca larynx, Thyroid, Neck masses
- Surgical videos**
- Ear :** Tympanoplasty, cortical mastoidectomy, canal wall down mastoidectomy, myringotomy, stapedotomy
- Nose:** Septoplasty, functional endoscopic sinus surgery, DCR
- Throat :** tonsillectomy and TAR
- Head and neck :** ML scopy, DL scopy, thyroid, parotid, laryngectomy

Bharati Vidyapeeth Deemed To Be University Medical College Pune
MBBS-Phase III- Part I
Block I and Block II

DEPARTMENT OF OPHTHALMOLOGY
Lectures Schedule: Duration: One hr/Lecture

Lecture no.	Topic	Content	Competency	Integration
1	Anatomy of the eye and embryology	a) Anatomy of the eye b) Draw diagram of the cross section of eye ball and label accurately its various parts. c) Describe various parts of eye ball and their functions d) Vascular and nervous supply to the eye Embryology of the eye	AN 41.1	Anatomy
2	Physiology of vision ➤ Vision ➤ Color vision Binocular single vision	a) Name the types of vision b) Enumerate the tests for vision c) Enumerate the types of visual pigments d) Describe the bleaching cascade e) Name the theories of color vision f) Name the tests for color vision Mention the grades of Binocular Single Vision	PY 10.17,OP 1.1	Physiology
3	Refractive errors – I ➤ Emmetropia ➤ Myopia ➤ Hypermetropia	<ul style="list-style-type: none"> • Define emmetropia • Describe the optics of the emmetropic eye • Define Myopia • Draw a ray diagram of myopia • Classify myopia • Mention 4 features of pathological myopia • Discuss the treatment modalities of myopia • Define Hypermetropia • Draw a ray diagram of hypermetropia • Classify Hypermetropia • Mention the treatment modalities of hypermetropia 	OP 1.2, 1.4	
4	Refractive errors – II ➤ Astigmatism ➤ Presbyopia	<ul style="list-style-type: none"> • Define astigmatism • Mention the classification of astigmatism 	OP 1.2, 1.4	

	<ul style="list-style-type: none"> ➤ Aphakia/pseudophakia ➤ Retinoscopy 	<ul style="list-style-type: none"> • Draw a ray diagram of types of astigmatism • Draw and explain the Sturm's conoid • Discuss the management of astigmatism • Define presbyopia • Discuss the treatment modalities of Presbyopia • Define Aphakia • Enumerate the ocular signs of Aphakia • Enumerate the 3 modes of Aphakia correction and their advantages and disadvantages of each mode of aphakic correction • Define anisometropia and aniseikonia 		
5	<p>Conjunctiva – I</p> <ul style="list-style-type: none"> ➤ Anatomy and functions ➤ Classification of conjunctivitis ➤ Bacterial conjunctivitis ➤ Viral conjunctivitis 	<ul style="list-style-type: none"> • Enumerate the 5 parts of conjunctiva • Enumerate functions of conjunctiva • Enumerate the differences between conjunctival and ciliary congestion • Classify conjunctivitis Enumerate 3 signs of each type of conjunctivitis. • Mention the etiology and clinical features of bacterial conjunctivitis • Describe the symptoms and signs of bacterial conjunctivitis • Discuss the treatment of bacterial conjunctivitis • Mention the etiopathogenesis and management of Ophthalmia Neonatorum • Discuss clinical features and management of viral conjunctivitis 	OP 3.3	
6	<p>Conjunctiva – II</p> <ul style="list-style-type: none"> ➤ Trachoma ➤ Allergic conjunctivitis ➤ Degenerations of conjunctiva 	<ul style="list-style-type: none"> • Describe the clinical features, classification, complications, management and prophylaxis of trachoma • Enumerate the types of allergic conjunctivitis. 	OP 3.4, 3.5, 3.6	

		<ul style="list-style-type: none"> • Discuss symptoms and signs of allergic conjunctivitis • Classify groups of drug used in allergic conjunctivitis with their mechanism of action in detail • Define Pterygium. discuss the etiopathogenesis, clinical features and management of Pterygium • Discuss etiology, clinical features and management of conjunctival xerosis 		
7	<p>Cornea – I</p> <ul style="list-style-type: none"> ➤ Anatomy Of Cornea ➤ Transparency Of Cornea ➤ Methods of examination of cornea ➤ Precorneal tear film and dry eye 	<ul style="list-style-type: none"> • Draw diagram of cross section of cornea and label its layers. • Enumerate reasons for corneal transparency. • Function of cornea • Describe various methods of assessment of cornea • Precorneal Tear film • Etiology, clinical features of dry eye • Various tests for dry eye • Management of dry eye 	OP 4.3,4.4	
8	<p>Cornea – II</p> <ul style="list-style-type: none"> ➤ Bacterial And Fungal Corneal Ulcer 	<ul style="list-style-type: none"> • Write definition of corneal ulcer and stages. • Enumerate symptoms and signs of corneal ulcer • Write groups of drugs in management of bacterial corneal ulcer. • Enumerate specific features of fungal corneal ulcer. • Enumerate fungi causing fungal Keratitis • Mention classes of antifungal drugs • Causes of non healing corneal ulcer • Complications of corneal ulcer 	OP 4.1, 4.2	
9	<p>Cornea – III</p> <ul style="list-style-type: none"> ➤ Viral keratitis ➤ Keratoconus ➤ Non infective keratitis ➤ Corneal dystrophies 	<ul style="list-style-type: none"> • Describe specific signs of viral Keratitis. • Write etiology, clinical features and management of H.simplex keratitis. • Write etiology, clinical features and management of H.zoster Ophthalmicus. 	OP 4.1, 4.2	

	and degenerative diseases	<ul style="list-style-type: none"> Name topical antiviral agents. Write etiology, clinical features and management of keratoconus Exposure Keratitis, interstitial keratitis, neuroparalytic Keratitis Discuss differences between dystrophy and degeneration. Enumerate five corneal dystrophies. 		
10	<p>Cornea – IV</p> <ul style="list-style-type: none"> ➤ Keratoplasty ➤ Eye banking ➤ 	<ul style="list-style-type: none"> Definition of keratoplasty Types of keratoplasty Surgical steps and complications of keratoplasty Eye donation –indications, contraindications, procedure of cornea harvesting and methods of preservation of corneal tissue, Eye banking –organization and functions of eye bank 	OP 4.6,4.9	
11	<p>Uvea – I</p> <ul style="list-style-type: none"> ➤ Anatomy of the Uvea ➤ Classification of uveitis ➤ Anterior uveitis 	<ul style="list-style-type: none"> Enumerate parts of the Uvea. Discuss functions of each part. Describe the methods of classification of uveitis with their subtypes. Discuss the causes of uveitis. Enumerate symptoms of acute anterior uveitis. Describe signs of acute anterior uveitis . Classify the two groups of drugs used for treatment of acute anterior uveitis. Discuss their mechanism of action. Discuss the complications of acute anterior uveitis 	OP 6.1,6.2,6.3,6.6,6.8	
12	<p>Uvea – II</p> <ul style="list-style-type: none"> ➤ Intermediate uveitis ➤ Chorioretinitis ➤ Endophthalmitis ➤ Panophthalmitis 	<ul style="list-style-type: none"> Enumerate symptoms and signs of intermediate uveitis Enumerate etiology, clinical features and management of chorioretinitis Define Endophthalmitis/ Panophthalmitis 	OP 6.2, 6.3	

	<ul style="list-style-type: none"> ➤ Sympathetic ophthalmitis 	<ul style="list-style-type: none"> • Enumerate etiological causes of endophthalmitis. • Discuss signs and symptoms of endophthalmitis. • Enumerate treatment modalities • Differentiate between phthisis bulbi and atrophic bulbi • Define Panophthalmitis. Write its etiology clinical features and management. 		
13	<p>Lens & Cataract - I</p> <ul style="list-style-type: none"> ➤ Anatomy of lens ➤ classification of cataract ➤ congenital cataract ➤ stages of cataract ➤ clinical features of cataract ➤ preoperative evaluation of a case of cataract 	<ul style="list-style-type: none"> • Draw a diagram of cross section of the crystalline lens and label its parts. • Describe the functions of the lens and cataractogenesis • Mention the etiological classification of cataract. • Mention the anatomical classification of cataract. • Write etiology, clinical features and management of congenital cataract • Enumerate stages of cortical cataract. • Enumerate grades of nuclear sclerosis. • Discuss symptoms of senile cataract 	OP 7.1,7.2	
14	<p>Lens and cataract II</p> <ul style="list-style-type: none"> ➤ Cataract surgeries ➤ Post op management ➤ Complications of cataract surgeries IOLs 		OP 7.3, 7.4	
15	<p>Glaucoma – I</p> <ul style="list-style-type: none"> ➤ Angle of anterior chamber ➤ IOP regulation ➤ Pathophysiology of glaucomatous changes ➤ Investigations in a case 	<ul style="list-style-type: none"> • Draw a labeled diagram of angle of AC. • Discuss methods of secretion of aqueous humour. • Discuss the circulation and drainage of Aq. Humour. • Discuss factors affecting IOP • Define glaucoma. 	OP 6.5, 6.6,6.7	

	<ul style="list-style-type: none"> ➤ of glaucoma ➤ Classification of glaucoma 	<ul style="list-style-type: none"> • Describe the classification of glaucoma and its subtypes 		
16	<p>Glaucoma – II</p> <ul style="list-style-type: none"> ➤ Congenital glaucoma , ➤ Angle closure glaucoma 	<ul style="list-style-type: none"> • Define Buphthalmos. write differential diagnosis of cloudy cornea. • Enumerate signs of Buphthalmos. • Enumerate surgical procedures for treatment of congenital glaucoma • Mention the D/D of acute red eye • Define PACG. • Describe stages of ACG. • Describe management Primary angle closure glaucoma 	OP 6.5, 6.7	
17	<p>Glaucoma – III</p> <ul style="list-style-type: none"> ➤ Open angle glaucoma, ➤ Secondary Glaucomas 	<ul style="list-style-type: none"> • Define ocular hypertension and POAG • Describe the disc changes in POAG • Describe the visual field changes in POAG • Describe management Primary open angle glaucoma • Enumerate major causes of secondary glaucoma. • Aetiopathogenesis of secondary glaucoma 	OP 6.7	
18	<p>Retina - I</p> <ul style="list-style-type: none"> ➤ Anatomy of the Retina & functions ➤ Rhodopsin cycle ➤ Methods of examination of retina, ➤ Diabetic Retinopathy 	<ul style="list-style-type: none"> • Draw and label correctly a diagram of the gross anatomy of retina. Describe the zones of the retina • Draw and label correctly a cross section of retina • Mention the vascular supply and drainage of the retina • What are the methods of examination of retina • Discuss the aetiopathogenesis of Diabetic Retinopathy. • Discuss the stages of DR. • Discuss modalities of laser therapy for treatment of DR 	AN 41.1 OP 8.2,8.3,8.4	
19	<p>Retina - II</p>	<ul style="list-style-type: none"> • Discuss the grades of the hypertensive retinopathy 	OP 8.1, 8.2,8.4	

	<ul style="list-style-type: none"> ➤ Hypertensive retinopathy ➤ CRAO, ➤ CRVO, ➤ Retinal Detachment, ➤ Retinitis pigmentosa 	<ul style="list-style-type: none"> • • • Mention the fundus findings in Retinitis pigmentosa • Mention the etiology of vascular occlusive diseases of retina • Enumerate diagnostic Signs of CRAO. • Enumerate diagnostic Signs of CRVO • Definition of RD. • Classify types of RD and its subtypes. • Mention predisposing factors for RD • Describe mechanisms of RD • Discuss symptoms and 3 signs of RD. • Enumerate Modalities of treatment for RD. 		
20	<p>Optic Nerve</p> <ul style="list-style-type: none"> ➤ Papilloedema ➤ Papillitis ➤ Optic atrophy 	<ul style="list-style-type: none"> • Describe parts of Optic nerve • Describe the anatomy of the optic nerve head • Definition of Papilloedema • Enumerate causes of Papilloedema • Describe Signs of Papilloedema on fundus Examination • Define Optic Neuritis. • Classify optic neuritis • Write symptoms and 2 diagnostic signs of Optic Neuritis. • Describe types of Optic Atrophy with diagnostic signs of each 	OP 8.5	
21	<p>Neuro-ophthalmology</p> <p>Visual pathway</p> <p>Pupillary pathway</p>	<ul style="list-style-type: none"> • Draw a well labeled diagram of the visual pathway • Describe basic visual field • Describe the basic types of visual field defects a) Draw well labeled diagrams of the pupillary pathways b) Name 2 afferent and 3 efferent pupillary defects c) Causes of mydriasis, miosis and RAPD 	OP 8.5, PY 10.17 PY 10.18	Physiology

22	<p>Lid I anatomy of the lid</p> <p>Ptosis</p> <ul style="list-style-type: none"> ➤ Entropion ➤ ectropion, ➤ lagophthalmos, <p>Lid infections</p>	<ul style="list-style-type: none"> • Define and classify ptosis • Name surgical procedures for ptosis correction • Define entropion/ectropion. • Enumerate types of entropion/ectropion. • Describe clinical signs and treatment of lagophthalmos <p>Stye ,Chalazion Hordeolum Internum</p>	OP 2.1, 2.3	
23	<p>Lacrimal apparatus</p> <p>Acute Dacryocystitis-</p> <ul style="list-style-type: none"> ➤ Chronic dacryocystitis ➤ Congenital NLD obstruction 	<ul style="list-style-type: none"> • Enumerate types of Dacryocystitis. • Describe signs of acute and chronic Dacryocystitis • Mention surgical procedures for chronic Dacryocystitis. • Enumerate surgical steps of DCT and DCR. • Describe etiopathogenesis and management of congenital nasolacrimal duct obstruction 	OP 2.1, 2.3	
24	<p>Lecture</p> <p>Orbit - I</p> <ul style="list-style-type: none"> ➤ Anatomy, ➤ Spaces of orbit, ➤ Proptosis 	<ul style="list-style-type: none"> • Enumerate the spaces of the orbit • Draw and label a diagram of the apex of the orbit • Enumerate the contents of the orbit • Enumerate types of orbital cellulitis. • Describe diagnostic signs of orbital cellulitis 	OP 2.4	Anatomy
25	<p>Lecture</p> <p>Orbit - II ,</p> <ul style="list-style-type: none"> ➤ Orbital cellulitis, ➤ Cavernous sinus thrombosis ➤ Thyroid orbitopathy 	<ul style="list-style-type: none"> • Draw and correctly label a diagram of the cavernous sinus with its tributaries. • Discuss diagnostic signs of cavernous sinus thrombosis • Mention common causes of proptosis in adults • Mention common causes of proptosis in children • Discuss investigation of proptosis • Classify thyroid orbitopathy • Mention management of proptosis 	OP 2.5, 2.6	
26	<p>Ocular Injuries</p> <ul style="list-style-type: none"> ➤ Ocular injuries- 	<ul style="list-style-type: none"> • Classify ocular injuries. • Mention miscellaneous causes of ocular injuries 	OP 9.5	

	<p>Classification</p> <ul style="list-style-type: none"> ➤ Chemical injuries ➤ Blunt injuries - Anterior segment ➤ Blunt injuries - Posterior segment 	<ul style="list-style-type: none"> • Describe mechanism of blunt injuries of the globe • Mention two types of chemical injuries • Discuss emergency treatment of chemical ocular injuries • Enumerate blunt injuries of the anterior segment • Mention the emergency treatment of contusion injuries • Describe traumatic Hyphaema and its management • Enumerate the posterior segment injuries of the globe 		
27	<p>Lecture Squint - I</p> <ul style="list-style-type: none"> ➤ Extra-ocular muscles-anatomy ➤ Actions and nerve supply ➤ Binocular vision ➤ monocular and binocular ocular movements ➤ Classification of squint ➤ Paralytic squint 	<ul style="list-style-type: none"> • Describe the origin and insertion of 6 extra ocular muscles • Mention the actions of EOMs • Mention the nervous control of EOMs • Mention grades of binocular single vision • Define squints • Classify squints • Enumerate sensory and motor adaptations to squint • Definition of phoria and tropia • Discuss signs of paralytic squint • Discuss etiological factors of paralytic squint. • 	AN 41.3 OP 9.1	Anatomy
28	<p>Lecture Squint - II</p> <ul style="list-style-type: none"> ➤ Concomitant squint ➤ Assessment of squint ➤ Amblyopia - causes assessment and reference ➤ Management of squint 	<ul style="list-style-type: none"> • Describe the diagnostic signs of concomitant squint. • Differences between concomitant squint and paralytic squint. • Describe tests for detection of phorias. • Assessment of squint • Management of squint • Classify amblyopia • Mention test for amblyopia • Enumerate treatment modalities of amblyopia 	OP 1.5, 9.2	

29	Intraocular Tumors <ul style="list-style-type: none"> ➤ Retinoblastoma ➤ Malignant melanoma ➤ Enucleation ➤ Evisceration ➤ Exenteration 	<ul style="list-style-type: none"> • Write clinical features and management of retinoblastoma • Write differential diagnosis of leucocoria • Write clinical features and management of malignant melanoma • Define Enucleation, evisceration and exenteration. write indications and contraindications of each of them 	OP 2.7 PA 36.1	
30	Ocular Therapeutics <ul style="list-style-type: none"> ➤ Ocular drug delivery systems ➤ Mydriatics and cycloplegics ➤ NSAIDs ➤ Steroids and immune suppressive agents ➤ Artificial tear substitutes ➤ Antiglaucoma drugs Miscellaneous 	<ul style="list-style-type: none"> • Write pharmacological action, indications and contraindications of each of the following drugs • Atropine sulphate 1% • Steroids • Tear substitutes • Timolol maleate eye drops • pilocarpine • Acetazolamide 	PH 1.58	Pharmacology
31	Community Ophthalmology <ul style="list-style-type: none"> ➤ Blindness-definition causes and prevention ➤ NPCB and DBCS ➤ Ophthalmic camps ➤ Vitamin A deficiency & Keratomalacia, ➤ Basics of Eye donation & Keratoplasty, 	<ul style="list-style-type: none"> • Mention WHO classification of blindness • Describe types of blindness Enumerate 5 important causes of blindness. • Vision 2020 • Name diseases identified in vision 20-20. • Enumerate goals of vision 20-20. • Enumerate levels of eye care seen in the community with services available in each. • Rehabilitation of blind, school health programmes • WHO classification of Vit A deficiency 	OP 9.4	Community Medicine

	<ul style="list-style-type: none"> ➤ Trachoma control programme ➤ 	<ul style="list-style-type: none"> • Enumerate natural sources of Vit A • Write the daily requirement of Vit A, therapeutic dose of Vit A, prophylactic dose of Vit A. • Mention the role of Vitamin A in the eye • Define keratomalacia • Mention causes , clinical features and management of keratomalacia •

DEPARTMENT OF ANESTHESIOLOGY

Clinical Posting Schedule:

(Total weeks; 2, 12 days x 3 hours per day = 36 hours)

Day of posting	Topic/s	Competency	Hours	Teaching learning method: bedside clinic/ Skills lab/ Clinical clerkship
1	Preoperative Anaesthetic Evaluation: -Elicit, and document history -Clinical examination in a patient undergoing surgery. - Choose, interpret appropriate testing and readiness for surgery.	AS3.2 AS3.3 AS3.4 AS3.5	3	Bedside clinic Visit to PAC OPD
2	General Anaesthesia:- -Observe and describe principles and the practical aspects of induction and maintenance of anaesthesia	AS4.3	3	Visit to Operation Theatre
3	Steps/techniques in monitoring patients during anaesthesia	AS4.5	3	Bed side clinic
4	Regional Anaesthesia: -Observe and describe the steps/techniques involved in spinal, epidural and peripheral nerve blocks	AS5.1 AS5.3	3	Video sessions Introduce to equipments used for regional blocks
5	Post anaesthesia recovery: -Observe and enumerate the contents of crash cart and describe equipments used in recovery room	AS6.2	3	Bed side clinic Visit to Post anaesthesia care unit (PACU)
6	Intensive care management: -Visit to ICU, functions, basic setup -Admission/discharge criteria to ICU -Observe and describe management of unconscious patient	AS7.1, AS7.2 AS7.3	3	Visit to ICU DOAP session
7	Cardiopulmonary Resuscitation: - Enumerate the indications, describe the steps and demonstrate in a simulated environment, Basic Life Support(BLS) in adults, children and neonates	AS2.1	3	Skills lab visit DOAP Manikin training

8	Enumerate the indications, describe the steps and demonstrate in a simulated environment, Advanced Cardiac Life Support(ACLS) in adults and children	AS2.2	3	Skills Lab Visit DOAP Manikin training
9	-Establish intravenous and central venous access in a simulated environment -Participate as a member in team for resuscitation of Polytrauma victim by doing all of the following: (a) IV access central-peripheral (b) Bladder catheterisation (c) Endotracheal Intubation (d) Splintage	AS9.1,AS9.2 OR13.2	3	Skills lab session Case discussion
10	Demonstrate airway maintenance and recognize and management of tension pneumothorax.	SU17.10	3	DOAP session Skills lab
11	Instruments		3	
12	End of clinical posting Examination
