

High Risk Pregnancy & Perinatology

Bharati Vidyapeeth [Deemed to be
University] Medical College, Pune.
Bharati Hospital & Research Centre, Pune.

Overview

- Most pregnancies come to term normally, without any unusual complications. However, 8-10% of pregnancies are complicated by problems with the health of the mother or fetus.
- There is a significant rise in the rate of High Risk Pregnancy which requires care by skilled personnel trained in this aspect of Obstetrics.
- This lead to the development of '**High Risk Pregnancy**' as a **sub-speciality of Obstetrics and Gynecology**.

Notification 2015 (06)

Fellowship in 'High Risk Pregnancy and Critical Care in Obstetrics' is sanctioned for intake of two candidates per year by the **Bharati Vidyapeeth Deemed University, Pune** in 2015.

Aim Of Fellowship

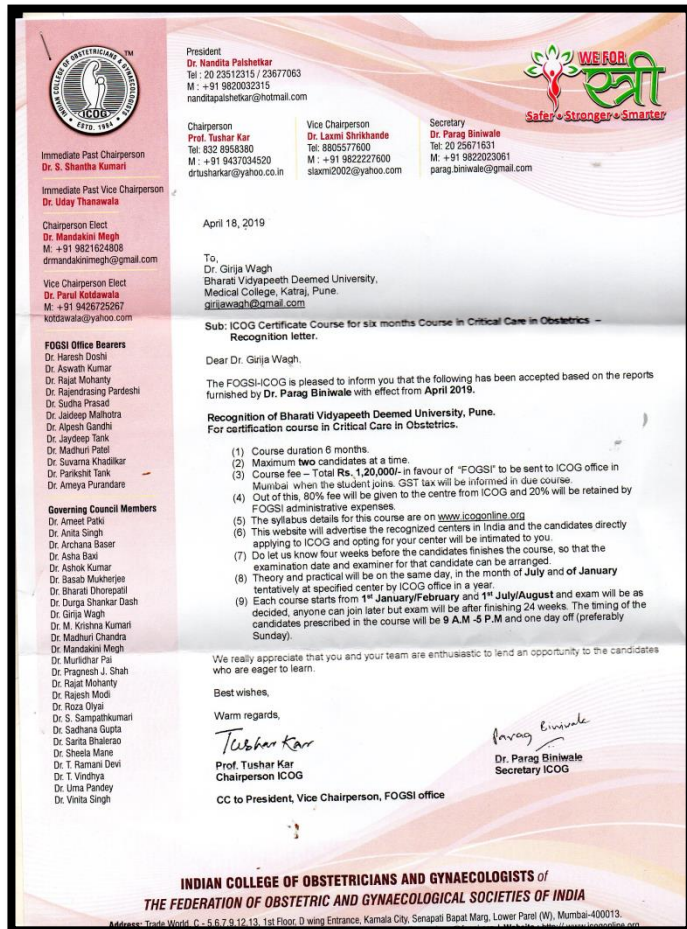

- To attain proficiency in treatment of high risk pregnancy.
- To provide high quality training in Obstetric Critical care
- To be able to provide expert care in medical disorders complicating pregnancy
- To be able to set up and handle an Obstetric High Dependency Unit.

High Risk Pregnancy Unit on-going Fellows

- **Dr Pooja Kale**
- **Dr Badrunissa Shaikh**

Both are under-going training in 'High Risk Pregnancy and Critical Care in Obstetrics'

ICOG Certificate Course in Critical Care Obstetrics

The department conducts an certificate course in ‘Critical Care in Obstetrics’ under the aegis of Indian College of Obstetricians and Gynecologists [ICOG]

High Dependency Unit Obstetrics [HDU]

High Risk Pregnancy Unit at Bharati
Hospital

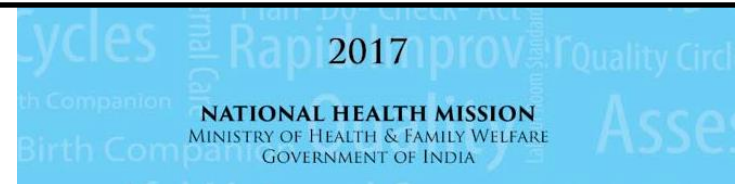

Obstetrics HDU

- One of the largest dedicated 6 bedded Obstetrics HDU
- Caters to high risk mothers
- 24x7 monitoring
- Daily rounds by Senior Consultants in High Risk Pregnancy
- Dedicated resident posted in the HDU
- Daily rounds by Senior Professor in Medicine: Dr Prachee Mokashir who is IDCCM qualified
- 6 multi-para monitors, infusion pumps and central oxygen.
- Monitoring with trained nurses with the Modified Obstetrics Early Warning Signs [MOEWS]

Obstetric HDU & ICU

- Any pregnant women can develop life threatening complications with little or no advance warning.
- The women with obstetric complications need access to quality maternal health services that can detect and manage these complications.
- Few of them need 24x7 personalized care by skilled providers trained in High Risk Pregnancy and Critical aspects of Obstetrics...
