Medical college, Pune**

Dear All,

It is with great pleasure that I introduce the **Student Interest Group Neurology (SIGN)**, Bharati Vidyapeeth Deemed University and Medical College (BVDUMC) Pune chapter. Our chapter aspires to collaborate with the American Academy of Neurology - Synapse Community, aiming to foster deeper engagement with the field of neurology among medical students.

The American Academy of Neurology has launched **SIGN** to introduce medical students to neurology, facilitating interactions with peers who share similar interests. Through discussions led by neurologists, patient presentations, seminars, journal clubs, and educational resources, **SIGN** aims to cultivate the next generation of neurologists and promote neurology awareness in diverse communities.

My motivation in establishing the **SIGN** chapter at our college is to raise awareness about the abundant opportunities available in the expansive field of Neuroscience, particularly for those eager to explore beyond the curriculum and delve into research. Our institution, alongside the Department of Neurology, holds significant potential to nurture exceptional research and extracurricular activities. This chapter of **SIGN** aims to provide comprehensive engagement in neurology by collaborating with allied neuroscience departments. As a doctor, I believe interdisciplinary teamwork is crucial for holistic patient care and for advancing quality research that contributes to our field.

I extend my sincere gratitude to Dr. Sankar Prasad Gorthi for his unwavering support, which has been instrumental in my professional and personal growth. I would also like to thank Dr. Mandar Karmarkar and Dr. Meghana Padwal for their continuous encouragement of undergraduate medical students in such initiatives, empowering them to realize their full potential.

This chapter of **SIGN** aims to be a unique platform where we strive to integrate a holistic approach to neurology education and practice. With this we aim to have the field of neurosciences under one umbrella to create plethora of research opportunities and contribute to the field of neurology.

VISION

The **SIGN BVDUMC** chapter strives to lead a collaborative effort among various fields of Neurosciences, emphasizing the training and exposure of medical students to Clinical and Para Clinical Research.

Our ultimate vision is to cultivate a community of like-minded individuals dedicated to advancing the fields of neurology and neurosciences.

ACTIVITIES PLANNED

We at **SIGN BVDUMC** will strive to let you explore the field of Neurology and Neurosciences at our maximum potential

- **SIGN** Events- for Networking and Research Opportunities.
- **Ward Mentor** program
- **AAN Monthly Journal Clubs** hosted by (AAN MSMC).
- **Stroke Localisation** and **Seizure Semiology** workshops.
- **Hands-on sessions and Observation** - Electroencephalography, Nerve Conduction Velocity testing, Repeated nerve stimulation test, Nerve Biopsy, Muscle Biopsy, Digital Subtraction Angiography, Aneurysm Coiling
- **Invited Guest Lecture series**
- **Collaborations** with other SIGN chapters
- **Seminar Sessions and Clinical Trials Discussions**- Latest Advancements in Neurology.
- **Neuroquest** (Neurology quiz competition) Organisation
- **Reception/symposium/forum participation**—attending regional conferences or organizing your own
- **Networking** with AAN MSMC the SYNAPSE community.
