

# TREE PLANTATION REPORT

GREEN INITIATIVE BHARATI VIDYAPEETH MEDICAL COLLEGE PUNE

We the members of Green Initiative recently had tree plantation event. We connected to local NGOs who are doing this since long time. One of that was recently on Sunday, 16<sup>th</sup> June we conducted a tree plantation drive with PROJECT NELDA, which is a Pune based NGO. Hanuman tekdi/hill was the location given to us for plantation. At the location we were given introduction about their NGO and also briefed about tree plantation and biodiversity there. We planted 25 trees and had a great experience. We learned how this becomes our responsibility towards a healthy earth.
